Get Started

The following topics give you all the information you need to set up your phone and service the first time.

Your Phone at a Glance

The following illustration outlines your phone's primary external features and buttons.

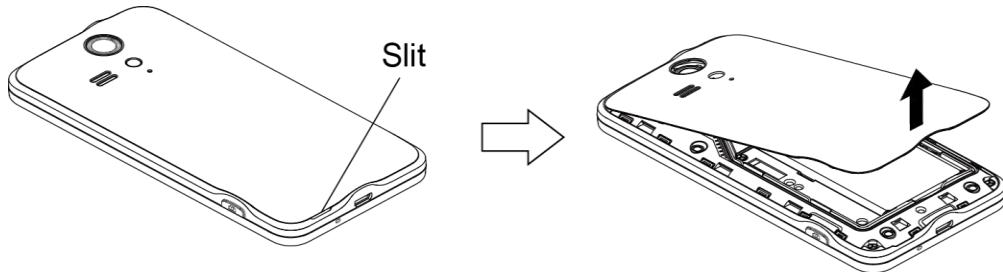

Set Up Your Phone

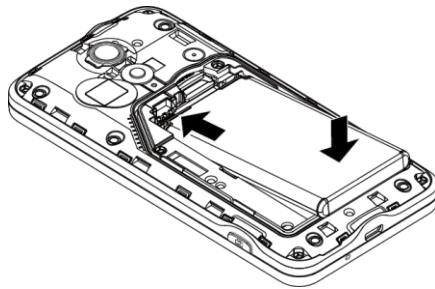

You must first install and charge the battery to begin setting up your phone.

1. Install the battery.

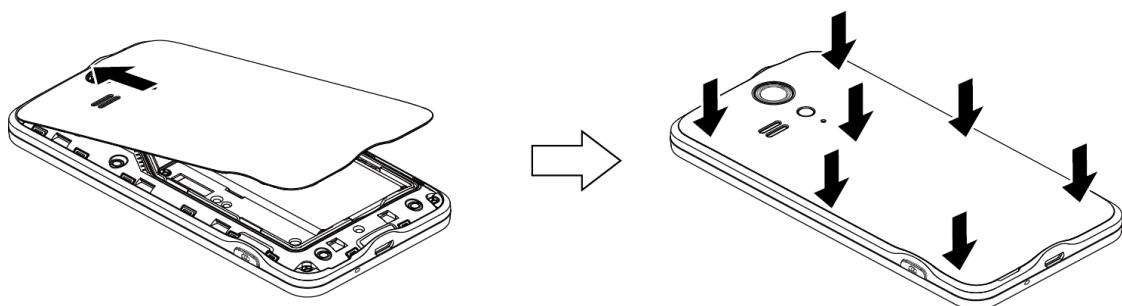

- Insert your fingernail into the slit at the bottom of the battery compartment cover and lift the cover up gently.

- Insert the battery, contacts end first, and gently press the battery into place.

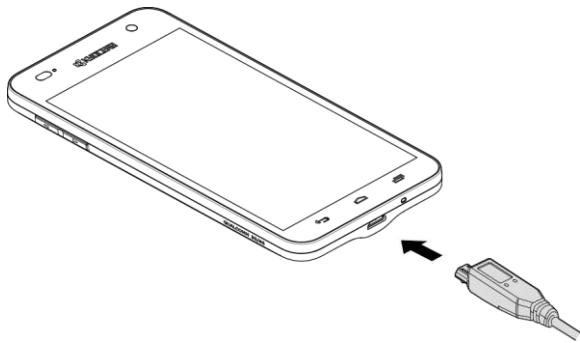

- Replace the battery compartment cover and press down firmly on all sides of the back cover as shown by the arrows in the figure to make sure all the tabs are seated and there are no gaps around the cover.

Note: When you insert the battery, your phone may power on automatically.

2. Charge your battery.

- Plug the smaller end of the USB cable into the charger/accessory jack on the bottom of your phone.

- Plug the other end of the USB cable into the charger, and then plug the charger into an electrical outlet.

Note: Your phone's battery should have enough charge for the phone to turn on and find a signal, run the setup application, set up voicemail, and make a call. You should fully charge the battery as soon as possible.

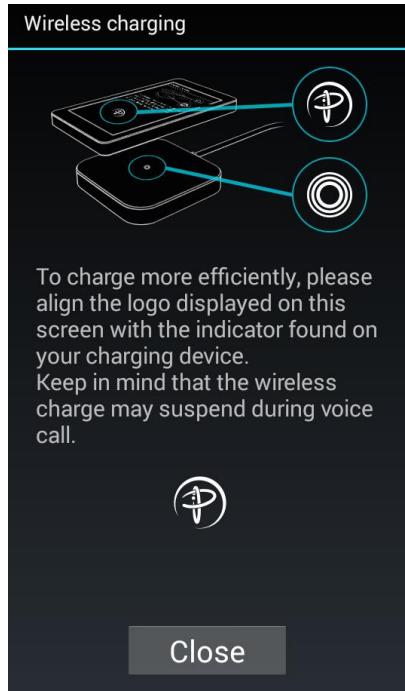

3. Press and hold the **Power** button to turn the phone on.
 - If your phone is activated, it will turn on, search for service, and begin the setup process.
 - If your phone is not yet activated, see [Activate Your Phone](#) for more information.

Charge Your Phone Wirelessly

Your phone supports the PMA standard via a wireless charging accessory (sold separately). Follow the steps below to charge your phone wirelessly.

Important: Use only wireless chargers that are approved by the manufacturer of your phone.

1. Place your phone on the wireless charger, ensuring that the charging area of your phone touches the charging area of your wireless charger.
2. When you see "Wireless charging" on the status bar, slide down the status bar to display the Notifications panel, and then touch **Wireless charging**.
3. Your phone will display a wireless charging screen instructing you to make sure the screen logo is directly above the charging device center emblem.

4. Your phone shows battery charging status as it charges. When charging is complete, remove your phone from the charger.

Note: Your phone will not charge correctly unless it is placed within the charging area.

Note: Make sure there is nothing between your phone and the charger. For more information on wireless charging, see the user guide of your wireless charger.

Your SIM Card

Your phone comes with a preinstalled SIM (Subscriber Identity Module) card. If you need to reinstall your SIM card, follow the instructions below.

Note: The SIM included contains information specific to your phone and should be retained with the phone.

1. Insert your fingernail into the slit at the bottom of the battery cover and lift the cover up gently.
2. Remove the battery. You will see two slots just above the battery compartment. The bottom slot is the SIM card slot; the upper slot is for the microSD card.
3. Hold the SIM card so that the metal contacts on the SIM card face down and the cut off corner points to the upper-left corner of your phone.
4. Gently slide the SIM card into the SIM card slot until it stops.
5. Replace the battery and the battery cover.

Activate Your Phone

Follow the instructions below to activate your phone if it has not already been activated. Depending on your account or how and where you purchased your phone, it may be ready to use or you may need to activate it on your account.

- If you purchased your phone at a Store, it is probably activated and ready to use.
- If you received your phone in the mail and it is for a new account or a new line of service, it is designed to activate automatically.
 - When you turn the phone on for the first time, you should see a **Hands Free Activation** screen, which may be followed by a **PRL Update** screen and a **Firmware Update** screen. Follow the onscreen instructions to continue.
- If you received your phone in the mail and you are activating a new phone for an existing number on your account (you're swapping phones), you can activate on your computer online or directly on your phone.
 - Activate on your computer:
 - Go to [com/activate](#) and complete the online instructions to activate your phone.
 - Activate on your phone:
 - Turn on your new phone. (Make sure the old one is turned off.) Your phone will automatically attempt Hands-Free Activation.
 - If an error occurs, touch **Activate** to override auto-activation and start the manual activation wizard.
 - Follow the onscreen prompts to complete the activation process.

To confirm activation, make a phone call. If your phone is still not activated, visit [com/support](#) for assistance. If you do not have access to the Internet, call Customer Service at **1-888-211-4727** from another phone.

Tip: Do not press the **Power** button while the phone is being activated. Pressing the **Power** button cancels the activation process.

Note: If you are having any difficulty with activation, visit [com/support](#).

Set Up Voicemail

You should set up your voicemail and personal greeting as soon as your phone is activated. Always use a password to protect against unauthorized access. Your phone automatically transfers all unanswered calls to your voicemail, even if your phone is in use or turned off.

1. Touch  >  > Dialpad tab.
2. Touch and hold **1**  to dial your voicemail number.
3. Follow the system prompts to:
 - Create your password.
 - Record your name announcement.
 - Record your greeting.

Important: Voicemail Password – It is strongly recommended that you create a password when setting up your voicemail to protect against unauthorized access. Without a password, anyone who has access to your phone is able to access your voicemail messages.

For more information about voicemail, see [Voicemail](#) or [Visual Voicemail](#).

Account Information and Help

Find out about account passwords and information about managing your account and finding help.

Account Passwords

You will need to create passwords to protect access to your personal account information, your voicemail account, and your data services account. As a  customer, you enjoy unlimited access to all your information.

Account User Name and Password

If you are the account owner, you will create an account user name and password when you sign on to  (Click **Sign in/Register** and then click **Sign up now!** to get started.) If you are not the account owner (if someone else receives the bill for your service), you can get a sub-account password at .

Voicemail Password

You'll create your voicemail password when you set up your voicemail. See [Set Up Voicemail](#) for more information on your voicemail password.

Data Services Password

With your  phone, you may elect to set up an optional data services password to control access and authorize purchases.

For more information, or to change your passwords, sign on to .

Manage Your Account

Manage your account from your computer, your phone, or any other phone.

Online: com/

- Access your account information.
- Check your minutes used (depending on your service plan).
- View and pay your bill.
- Enroll in online billing and automatic payment.
- Purchase accessories.
- Shop for the latest phones.
- View available service plans and options.
- Learn more about data services and other products like games, ringtones, screen savers, and more.

From Your Phone

1. Touch  >  > Dialpad tab.
2. Do any of the following:
 - Touch    to check minute usage and account balance.
 - Touch    to make a payment.
 - Touch    to access a summary of your service plan or get answers to other questions.

From Any Other Phone

- Customer Service: **1-888-211-4727**.
- Business Customer Service: **1-888-788-4727**.

Support Services

411 and Operator Services let you easily access information and calling assistance from your phone.

411

411 gives you access to a variety of services and information, including residential, business, and government listings; movie listings or showtimes; driving directions, restaurant reservations, and major local event information. You can get up to three pieces of information per call, and the operator can automatically connect your call at no additional charge.

There is a per-call charge to use 411, and you will be billed for airtime.

- Touch  >  > Dialpad tab, and then touch .

Operator Services

Operator Services provides assistance when you place collect calls or when you place calls billed to a local telephone calling card or third party.

- Touch  >  > Dialpad tab, and then touch .

For more information or to see the latest in products and services, visit us online at com/

Phone Basics

Your phone is packed with features that simplify your life and expand your ability to stay connected to the people and information that are important to you. The following topics will introduce the basic functions and features of your phone.

Your Phone's Layout

The illustrations and descriptions below outline your phone's basic layout.

Key Functions

- **LED Indicator** displays a phone notification, charging status, or alert.
- **Proximity Sensor and Light Sensor** detects how close an object is to the surface of the screen. This is typically used to detect when your face is pressed against the screen, such as during a phone call. It also automatically turns off the keyboard backlight and brightens the display when you are in sunlight or a bright room, and turns on the keyboard backlight and dims the display in darker places.
 - While talking on the phone, the sensor detects talk activity and locks the keypad to prevent accidental keypresses.
- **Smart Sonic Receiver** (Internal) lets you hear the caller and automated prompts. See [Smart Sonic Receiver](#).
- **Back Key**  lets you return to the previous screen, or close a dialog box, options menu, the Notifications panel, or onscreen keyboard.
- **Home Key**  returns you to the Home screen.
- **Recent apps Key**  allows you to open a list of thumbnail images of apps you have worked with recently.
- **Touchscreen** displays all the information needed to operate your phone. Also provides one-touch access to all of your features and applications.
- **Self Camera Lens** takes pictures and records videos while facing the screen, and allows you to video conference.
- **Headset Jack** allows you to plug in either a stereo headset or an optional headset for convenient, hands-free conversations.
- **Power Button** lets you turn the phone on or off or turn the screen on or off, or switch your phone to silent mode, vibration mode, or airplane mode.
- **Charger/Accessory Jack** allows you to connect the micro-USB cable (included) to charge the battery or to transfer files to and from a computer.

CAUTION! Inserting an accessory into the incorrect jack may damage the phone.

- **Primary Microphone** transmits your voice and ambient sound during voice calls, voice recordings and videos.
- **Volume Button** allows you to adjust the ringtone or media volume when you are not on a call, or adjust the voice volume during a call.
- **Camera Button** lets you activate the camera and video camera, and take pictures and videos.

- **Speaker** lets you hear the different ringtones and sounds. The speaker also lets you hear the caller's voice in speakerphone mode.
- **Internal Antennas** facilitate reception and transmission. To maximize performance, do not obstruct while using the phone.
- **Back Camera Lens** lets you take pictures and videos.
- **Camera Flash** helps illuminate subjects in low-light environments when taking a picture or recording a video. It can also work as a flashlight. See [Flashlight](#).
- **microSD Card Slot (Internal)** allows you to insert an optional microSD card to support external memory.
- **SIM Card Slot (Internal)** allows you to insert a SIM card.
- **Secondary Microphone** suppresses background noise improving audio quality for the other party during voice calls except in speakerphone mode.

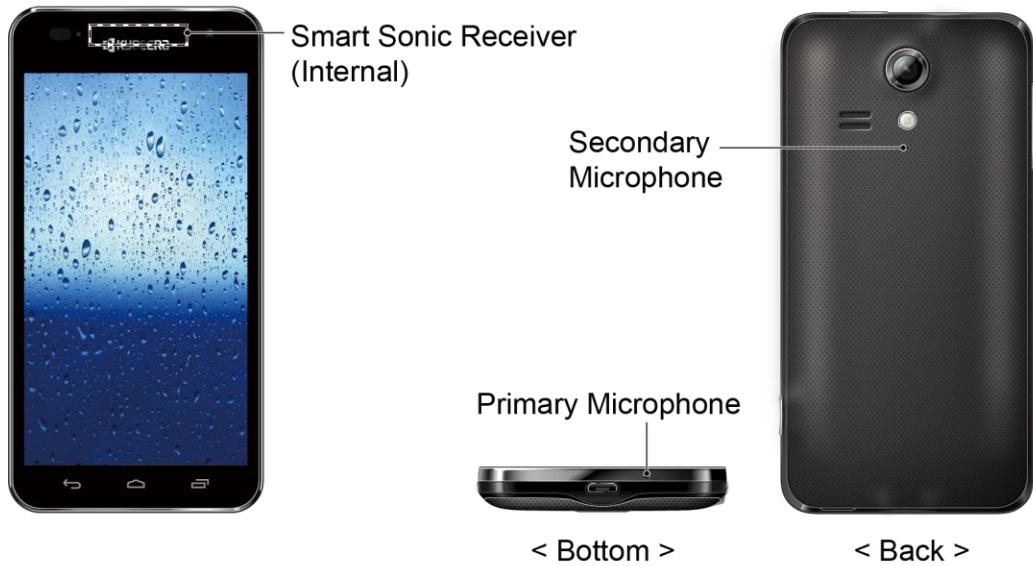

Note: Your phone comes with the SIM card preinstalled.

Note: The SIM card slot and a microSD card slot are located just above the battery compartment. The bottom slot is the SIM card slot; the upper slot is for the microSD card.

- **Wireless Charging Area** allows you to charge wirelessly using an optional PMA-enabled Wireless Charging device. See [Charge Your Phone Wirelessly](#).

Smart Sonic Receiver

Smart Sonic receiver transmits sound through vibrations on your phone's display screen. Place your ear around the internal receiver and adjust the position of the phone to find the best hearing point depending on the surrounding environment.

Note: Do not cover the microphones during a call. Do not apply any sheet or sticker to the display area as it may compromise the hearing quality.

Turn Your Phone On and Off

The instructions below explain how to turn your phone on and off.

Turn Your Phone On

- Press and hold the **Power** button for three seconds.

Turn Your Phone Off

1. Press and hold the **Power** button to open the phone options menu.
2. Touch **Power off > OK** to turn the phone off.

Turn Your Screen On and Off

Your phone allows you to quickly turn the screen off when not in use and to turn it back on and unlock it when you need it.

Turn the Screen Off When Not in Use

- To quickly turn the screen off, press the **Power** button. Pressing the **Power** button again or receiving an incoming call will turn on your phone screen and show the lock screen.

To save battery power, the phone automatically turns off the screen after a certain period of time when you leave it idle. You will still be able to receive messages and calls while the phone's screen is off.

Note: For information on how to adjust the time before the screen turns off, see [Sleep](#).

Turn the Screen On

1. To turn the screen on, press the **Power** button.
 2. Touch and hold  on the screen, and swipe the screen towards the **Start** icon .
- You can disable the screen lock or select a different type of lock feature. See [Screen Lock](#).

Tip: Three frequently used application shortcuts are provided on the default lock screen; the Phone application, the Messaging application, and the Camera application. Swipe the screen toward any of these shortcuts to immediately open and use its application. To customize the lock screen application shortcuts, see [Swipe Options](#).

Touchscreen Navigation

Your phone's touchscreen lets you control actions through a variety of touch gestures.

Warning: Do not touch with a pen or stylus. It may damage the touch screen.

Touch

When you want to type using the onscreen keyboard, select items onscreen such as application and settings icons, or press onscreen buttons, simply touch them with your finger.

Touch and Hold

To open the available options for an item (for example, a contact or link in a Web page), touch and hold the item.

Swipe or Slide

To swipe or slide means to quickly drag your finger vertically or horizontally across the screen.

Drag

To drag, press and hold your finger with some pressure before you start to move your finger. While dragging, do not release your finger until you have reached the target position.

Flick

Flicking the screen is similar to swiping, except that you need to swipe your finger in light, quick strokes. This finger gesture is always in a vertical direction, such as when flicking the contacts or message list.

Rotate

For most screens, you can automatically change the screen orientation from portrait to landscape by turning the phone sideways. When entering text, you can turn the phone sideways to bring up a bigger keyboard. See [Touchscreen Keyboards](#) for more details.

Note: The **Auto-rotate screen** check box needs to be selected for the screen orientation to automatically change. Touch > > **Settings** > **Display** > **Auto-rotate screen**.

Pinch and Spread

“Pinch” the screen using your thumb and forefinger to zoom out or “spread” the screen to zoom in when viewing a picture or a Web page. (Move fingers inward to zoom out and outward to zoom in.)

Your Home Screen

The home screen is the starting point for your phone's applications, functions, and menus. You can customize your home screen by adding application icons, shortcuts, folders, widgets, and more.

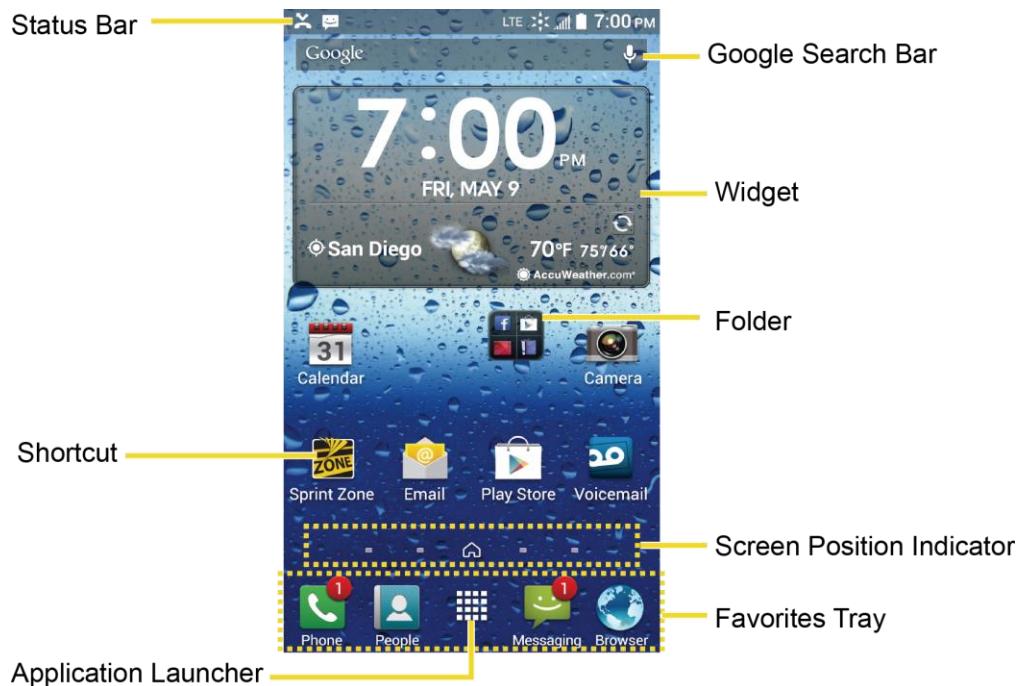

Home Screen Overview

There are two different options for the Home screen on your phone, Easy mode and Standard mode. By default, your phone is set to Standard mode. You can change the Standard mode to the Easy mode from the Settings menu. See [Change the Home Screen Mode](#).

Note: Instructions to perform tasks in this guide are based on the Standard mode and may change depending on the software version on your phone.

Standard Mode

Standard experience for users who are familiar with Android. Your home screen extends beyond the initial screen. Swipe the screen left or right to display additional screens. There are up to six extended screens available, in addition to the main Home screen. If selected, your Home screen will show as follows:

- **Status Bar:** Displays the time, notification, and phone status icons. Slide down to display the notifications panel.
- **Shortcut:** Allows users to quickly launch applications.

- **Application Launcher:** Touch to display available applications and widgets on the phone.
- **Favorites Tray:** Contains up to five icons and appears on every home screen. You can customize these icons except the application launcher icon in the middle.
- **Screen Position Indicator:** Indicates which home screen is displayed. Touch to access each screen. The home screen icon shows the main home screen.
- **Widget:** Widget is a small program, designed usually to serve a single purpose, and allows users to access quickly at-a-glance information or simple interactive functions.
- **Folder:** Allows users to organize screen items. You can store multiple application icons as a group.
- **Google Search Bar:** Allows users to enter text or spoken keywords for a quick search on the phone or on the Internet. Touch to enter text or touch the microphone icon to speak your keyword.

Tip: Touch  to return to the main home screen from any other screen.

Easy Mode

Easy mode is a simplified and easier experience for the first time smartphone user. Easy mode has three home screens. The main home screen has non-removable buttons for the Phone, Apps, and Alerts. You will also find six app shortcuts to choose from. Swipe the screen left or touch  to display additional screens. If selected, your main Home screen will show as follows:

- **Status Bar:** Displays the time, notification icons, and phone status icons. Slide down to display the Notifications panel.
- **Help Icon:** Displays help for the Home screen, including how to add application shortcuts or widgets.
- **App Shortcuts:** Offer quick and easy access to Camera, People, Messages, Settings, Browser and Maps applications.
- **Phone Icon:** Opens the phone dialpad to make a call.
- **Application Launcher:** Touch to display available applications and widgets on the phone.
- **Alerts Icon:** Opens the Notifications panel.
- **Menu Icon:** Opens a menu that allows you to customize your home screen.
- **Screen Position Indicator:** Indicates which home screen is displayed. The home screen icon shows the main home screen.
- **Google Search Bar:** Allows you to enter text or spoken keywords for a quick search on the phone or on the Internet. Touch to enter text or touch the microphone icon to speak your keyword.

Tip: While on an extended screen, touch  to return to the main home screen.

Change the Home Screen Mode

You can switch between easy mode and standard mode at any time. Follow the instructions below.

1. Touch  >  > **Settings**  > **Home mode**.
2. Choose a mode and touch **Apply**.
3. Touch **OK** to confirm.

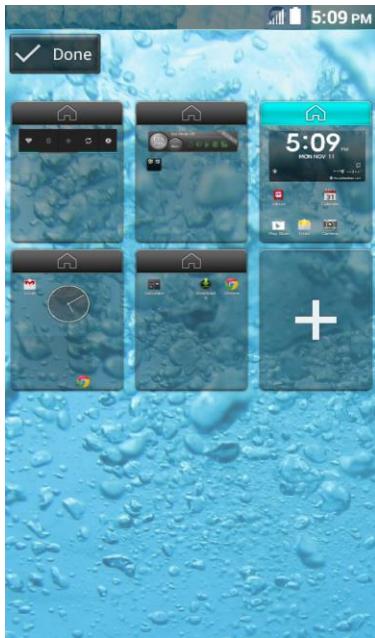

Customize the Home Screen

Learn how to, add, move, or remove items from the home screen.

Manage Your Home Screens

In addition to the main home screen, your phone has extended home screens to provide more space for adding icons, widgets, and more. Touch  and then drag across the screen to move from the main screen to an extended screen. There are up to six extended screens available in addition to the main Home screen.

1. Lightly pinch any home screen with your thumb and index finger to display the home screen thumbnails.

2. The following options are available:

- Touch a thumbnail of the home screen you want to open.
- If you are not already using the maximum number of screens for your phone, you can add more screens by touching . You can have up to seven home screens in total.
- Touch and hold a thumbnail and drag it to rearrange the positions of the home screens. Release the thumbnail where you want to place it.
- Touch and hold a thumbnail, drag it to "X Remove" and release it when it turns red to delete the home screen. The main home screen cannot be deleted.
- Touch the home icon at the top of each screen to set the screen as the main home screen.

3. Touch **Done**.

Add App Shortcuts or Widgets to the Home Screen

1. Touch on the favorites tray.
2. Slide the **Apps** or **Widgets** screens to find the item you want to add to the home screen.

3. Touch and hold the app icon or a widget and drag it to "Add to Home Screen" at the top of the screen.
4. Move your finger to find the place to add it to. The blue frames which appear on the screen indicate where you might place the item.
5. Release your finger.

– or –

1. Touch and hold an empty area on a home screen.
2. Slide the **Apps** or **Widgets** screens to find the item you want to add to the home screen.
3. Touch and hold the app icon or a widget and drag it to a home screen thumbnail where you want to add it.

Tip: You can also select a home screen thumbnail where you want the app icon or a widget to appear, and then simply tap on the app or widget icon.

Move or Remove Items on the Home Screen

- Touch and hold the item you want to move or remove from the home screen.
 - To move the item, drag it to a new area and release it.
 - To remove the item, drag it to "X Remove" at the top of the screen and release it when it turns red.

Favorites Tray

The favorites tray holds up to five icons and appears on every home screen. You can replace those icons, except the application launcher icon in the center of the tray.

To add a new icon to the favorites tray:

1. Remove the current icon on the tray.
 - Drag the icon out of the favorites tray, either onto the main screen or to "X Remove."
2. Touch and hold an app icon and drag it to the favorites tray.
3. Release your finger.

Use Folders

You can use folders to organize the apps on your Home screens.

To create folders:

- Touch and hold an app icon and drag it over another to create a new folder containing both apps. A new folder icon appears.
 - You can now drag more apps to the folder if you wish.

To add more apps to the folders:

1. Touch a folder icon and touch **Add +** in the top-right corner.
2. Swipe left or right to browse through the available Apps page and place checkmarks on those apps you want to put in the folder.
3. Touch **Done** to complete the process.

To manage folders:

1. Touch a folder icon you want to manage.
2. The following options are available:
 - Touch the **Unnamed Folder** field. The keyboard opens and you can name the folder. To rename it, touch the name.
 - Drag the app out of the folder and drop it anywhere on the home screen to remove it.
 - Drag the app to "X Remove" at the top of the screen to remove it from the home screen.

Tip: App folders can be deleted just like any other icon on the Home screen. Touch and hold a folder icon, then drag it to "X Remove" at the top of the screen.

Change Wallpaper

Select and assign your phone's background wallpaper.

1. Touch and hold an empty area on a home screen.
2. Touch **Wallpapers**, and select one of the following options:
 - **Gallery** to set a saved picture in Gallery. Select an album, select an image and use the crop tool to resize it. Touch **SAVE** when you are finished.
 - **Live Wallpapers** to set a live wallpaper. Select an image and touch **Set wallpaper**.
 - **Wallpapers** to set a preset wallpaper. Slide the small image on the screen sideways to see available options. Select an image and touch **Set wallpaper**.
 - **ID wallpapers** to set an ID wallpaper. Select an image included in your ID pack and touch **Set wallpaper**.

- **Photos** to use saved or taken pictures on your phone. Touch to select a picture, and crop it before setting it as wallpaper. Touch **Done** when you are finished.

Use Clock & Weather Widget on the Home Screen

Your Clock & Weather widget can display multiple times and weather information.

To retrieve the current weather information:

1. Touch **Tap to start** on the widget.
2. Touch the Refresh icon  on the right end of widget. Your current weather information will be displayed.
 - You will be prompted to enable the Location access settings if they are disabled. Touch **Enable location** and touch **Access to my location** to turn location feature on. Read the onscreen information and follow the instructions to proceed.
3. Touch  to confirm that your location is displayed on the widget

To add a location:

1. Touch the weather image  on the widget and touch  > .
2. Enter a location in the Search location field and touch . The matching location(s) will be listed.
3. Touch the location you want to add. The location is added to the location list.

To delete a location:

1. Touch the weather image  on the widget and touch  > .
2. Select the check box next to the location you want to delete.
 - Touch **Select all** to select all entries in the current list.
3. Touch **Done**.

To configure the settings:

1. Touch the weather image  on the widget and touch .
2. The following options are available:
 - **Temperature scale:** Select **Fahrenheit** or **Celsius**.
 - **Auto update:** Select the frequency of auto update.

Quick Settings Panel

The Quick Settings panel allows you easy access to common phone settings.

1. Drag down from the top of the screen to open the Notifications panel, and then touch the Quick Settings icon  at the top right.

– or –

Swipe down with two fingers from the top of any screen.

2. Touch a specific setting to open it.

- You can touch the toggle icon  to switch between notification panel and quick settings panel.

Status Bar

The status bar at the top of the home screen provides phone and service status information on the right side and notification alerts on the left. To view notification alerts, touch the status bar and drag it down.

Enter Text

You can type on your phone using one of the available touchscreen keyboards.

Touchscreen Keyboards

Your phone offers you a choice of two touchscreen keyboards for entering text. The keyboard appears automatically onscreen when you touch a text entry field and can be used in either portrait or landscape mode. You can also use the Google voice typing option to enter text using your voice (see [Google Voice Typing](#) for details).

The methods available include:

- **Google Keyboard** lets you use a traditional QWERTY setup to enter text. Additional options expand your ability to enter text faster and more accurately. See [Google Keyboard](#) for details.
- **Google voice typing** provides a voice-to-text interface.
- **Swype** lets you enter letters and words in one continuous motion by swiping your finger across the letters. See [Swype](#) for details.

Note: Swype is selected as a default keyboard.

To select a keyboard from Settings:

1. Touch  >  > **Settings**  > **Language & input** > **Default**.
2. Touch **Google Keyboard** or **Swype**.

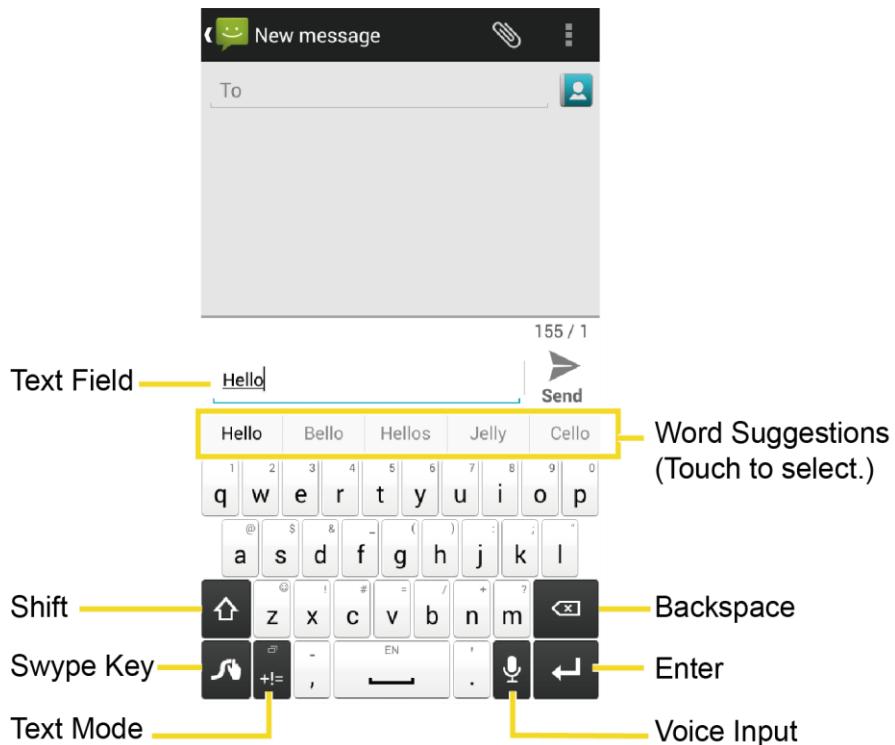

To switch the keyboard when a keyboard is displayed:

1. Drag down from the top of the screen to open the Notifications panel and touch **Choose input method**.
2. Touch **Google Keyboard** or **Swype**.

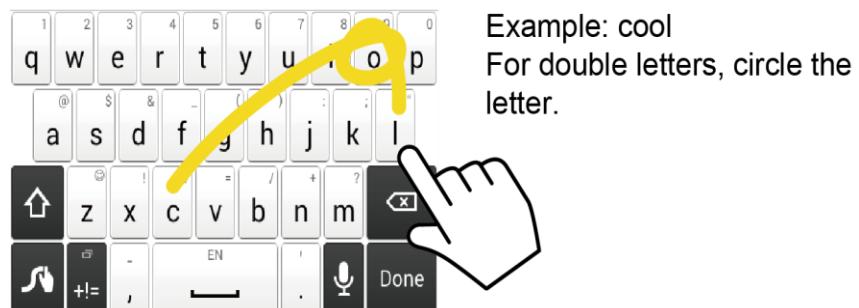

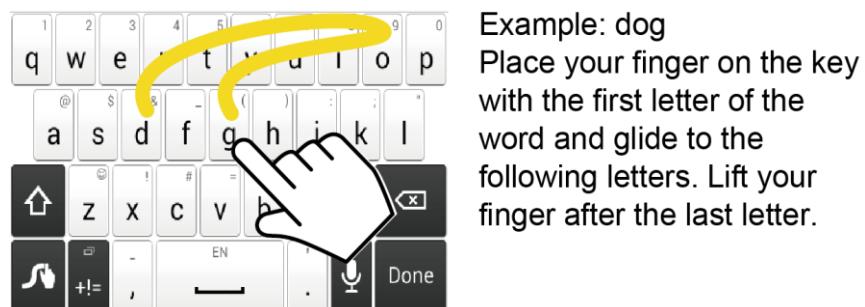

Swype

The Swype™ keyboard lets you enter words by drawing a path from letter to letter in one continuous motion.

Swype Keyboard Overview

Note: Key appearance may vary depending on the selected application or text field.

Example: You
To capitalize the letter, slide
up over the keyboard.

Using Swype

1. From a screen where you can enter text, drag down from the top of the screen to open the Notifications panel, and then touch **Choose input method > Swype**.
2. Swipe your finger continuously over the letters to form a word. As you swipe over letters, words matching your pattern display at the top of the Swype keyboard. To enter a word, lift your finger, or touch a word at the top of the keyboard.
 - Touch to select ABC mode. Touch to select Number & Symbol mode.
 - In ABC mode, touch to alter the capitalization:
 - (Unshifted) to enter all letters in a word lowercase.
 - (One-character-shifted) to capitalize only the first letter of a word.
 - (Caps Lock) to enter all letters in a word uppercase.
 - The Number & Symbol keyboards are in two layers. Touch to display the second keyboard.
 - Some keys have alternate characters. In either mode, if a key displays an extra character on the upper right corner, touch and hold the key to enter the character. Or, touch and hold a key to call up a list of all the characters available on that key. Touch the character you want to enter from the list.
 - Touch to switch to Google voice typing, to enter text by speaking.

For more information about using Swype and its additional capabilities, including using voice entry and personalizing your Swype dictionary, touch and hold from the Swype keyboard display, and then touch **Help > How to Swype**. You can also visit swype.com for more information.

Swype Settings

You can customize the Swype settings as you like.

- Touch and hold  on the Swype keyboard.

– or –

Touch  >  > **Settings**  > **Language & input**, and then touch  next to **Swype**.

– or –

When a keyboard is displayed, drag down from the top of the screen to open the Notifications panel, and then touch **Choose input method** > **Set up input method** >  (next to **Swype**).

For more information about Swype settings, see [Swype Keyboard Settings](#).

Google Keyboard

The Google Keyboard offers a traditional QWERTY keyboard setup for entering text by touching keys (like on a computer), along with enhancements and options that allow you to enter text faster and more accurately, such as continuous key input, personalized usage dictionaries, and more.

Google Keyboard Overview

Note: Key appearance may vary depending on the selected application or text field.

Using Google Keyboard

With Google Keyboard, it's easy to enter text, symbols, and numbers.

1. From a screen where you can enter text, drag down from the top of the screen to open the Notifications panel, and then touch **Choose input method > Google Keyboard**.
2. Touch keys to enter text. While entering text, use the following options:
 - Touch **ABC** to select ABC mode. Touch **?123** to select Number & Symbol mode.
 - In ABC mode, touch to alter the capitalization:
 - (Unshifted) to enter all letters in a word lowercase.
 - (One-character-shifted) to capitalize only the first letter of a word.
 - You can select the caps lock by double-touching or touching and holding or to make all letters in a word uppercase.
 (Caps Lock) to enter all letters in a word uppercase.

- In Number & Symbol mode, touch  to display more symbols.
- If you make a mistake, touch  to delete incorrect characters. Touch and hold  to delete a whole word or field.
- Some keys have alternate characters. In either mode, if a key displays an extra character at the upper right corner, touch and hold the key to enter the character. Or, touch and hold a key to call up a list of all the characters available on that key. Touch the character you want to enter from the list.
- Touch  to switch to Google voice typing, to enter text by speaking.

Google Keyboard Settings

You can customize the Google Keyboard settings as you like.

- On the Google Keyboard, touch and hold the key immediately left to the space key and touch **Google Keyboard Settings**.

– or –

Touch  >  > **Settings**  > **Language & input**, and then touch  next to **Google Keyboard**.

– or –

When a keyboard is displayed, drag down from the top of the screen to open the Notifications panel, and then touch **Choose input method** > **Set up input methods** >  (next to **Google Keyboard**).

For more information about Google Keyboard settings, see [Google Keyboard Settings](#).

Google Voice Typing

Google voice typing uses Google voice recognition to convert speech to text.

Use Google Voice Typing to Enter Text

When using this feature, you can use your voice instead of typing text.

1. From a screen where you can enter text, drag down from the top of the screen to open the Notifications panel, and then touch **Choose input method** > **Google voice typing**.
2. Say the text you wish to enter into the microphone.
 - If the text is incorrect, touch **DELETE**.

- Once you have completed entering your text, touch .

Tip: You can quickly assign Google voice typing from the keyboard. Touch the microphone icon  to turn on voice typing.

Google Voice Typing Settings

You can customize the Google voice typing settings as you like.

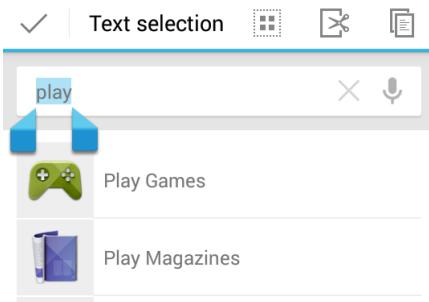

- Touch  >  > **Settings**  > **Language & input**, and then check the **Google voice typing** check box.
- Touch  next to **Google voice typing** to configure its settings.

For more information about Google voice typing settings, see [Google Voice Typing Settings](#).

Tips for Editing Text

Your phone gives you many options to make entering text easier, including copying, cutting, and pasting text, using voice-to-text input, customizing the user dictionary, using predictive text, and more.

- In a text entry field, touch and hold the text body.
- Selection tabs appear and the currently selected words or characters are highlighted. Drag the tabs to expand or reduce the range of the selected text.

- Touch an onscreen option from the edit menu bar.
 -  **Select all:** Highlights all the text in the field.
 -  **Cut:** Removes the selected text and saves it to the clipboard.
 -  **Copy:** Copies the selected text to the clipboard.
 - PASTE:** Inserts the last copied or cut text into the current field.
 - Touch  to close the edit menu bar.

Phone Calls

With our wireless service and your phone's calling features, you can enjoy clear phone calls across the country.

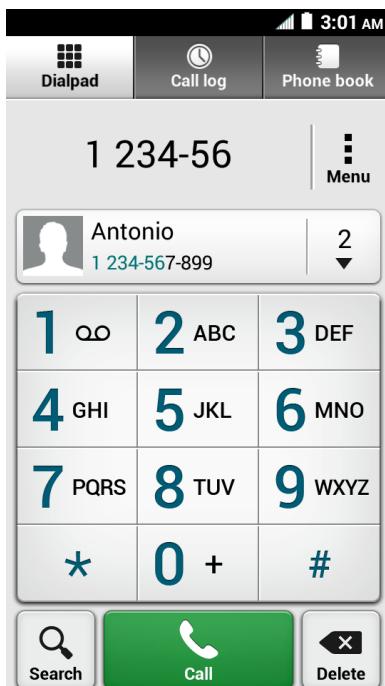

Make Phone Calls

There are several convenient ways to place calls from your phone.

Call Using the Phone Dialer

The most "traditional" way to place a call is by using the phone's dialer screen.

1. Touch  >  > Dialpad tab to display the phone dialpad.
2. Touch the number keys on the dialpad to enter the phone number.

3. Touch  to call the number.
4. To end the call, touch .

Call from Call Logs

The Call logs list lets you quickly place calls to recent incoming, outgoing, or missed numbers.

1. Touch  >  to display the phone app.

2. Touch **Call log** tab to display the Call log list.
3. Touch the phone icon  next to the number or contact to place a call.
 - For additional options, touch the name or number.

Call from Contacts

You can place phone calls directly from entries in your Contacts list.

1. Touch  >  to display the phone app.
2. Touch the **Phone book** tab to display the Contacts list. Your frequent contacts are displayed at the top of the list.
 - Touch  to search for your contact.
3. Touch the contact you want to place a call.
 - For additional information on Contacts, see [Contacts](#).

Call a Number in a Text Message

While viewing a text message or email message, you can place a call to a number that is in the body of the message.

1. Touch  >  > **Messaging** . If necessary, select a messaging or email account.
2. Touch the message with the phone number.
3. The Dialpad screen then opens, with the phone number automatically filled in and ready to be dialed. To place the call, touch .

Call Emergency Numbers

You can place calls to 9-1-1 even if the phone's screen is locked or your account is restricted.

To call the 9-1-1 emergency number:

1. Touch  >  > **Dialpad** tab to display the phone dialpad.
2. Touch .

To call the 9-1-1 emergency number when the pattern screen lock, the facial screen lock, the PIN screen lock or the password screen lock is on:

1. Touch **Emergency call** at the bottom of the lock screen.
2. Touch .

Once an emergency call is placed, your phone will be in Emergency mode where non-emergency calls cannot be made.

To exit Emergency mode:

- Touch > **Exit Emergency mode** > **Yes**.

Enhanced 9-1-1 (E911) Information

This phone features an embedded Global Positioning System (GPS) chip necessary for utilizing E911 emergency location services where available.

When you place an emergency 9-1-1 call, the GPS feature of your phone seeks information to calculate your approximate location. Depending on several variables, including availability and access to satellite signals, it may take up to 30 seconds or more to determine and report your approximate location.

Important: Always report your location to the 9-1-1 operator when placing an emergency call. Some designated emergency call takers, known as Public Safety Answering Points (PSAPs), may not be equipped to receive GPS location information from your phone.

Call Numbers with Pauses

You can dial phone numbers with pauses for use with automated systems, such as voicemail or credit card billing numbers.

There are two types of pauses available on your phone:

- **Add 2-sec pause:** Automatically sends the next set of numbers after two seconds.
 - **Add wait:** Sends the next set of numbers when you touch **Yes** in the pop-up window.
1. Touch > > **Dialpad** tab to display the phone dialpad.
 2. Enter all or part of a number.
 3. Touch > **Add 2-sec pause** or **Add wait**.
 4. Enter additional numbers.
 5. Touch to dial the number.

Call Using the Plus (+) Code

When placing international calls, Plus Code Dialing automatically enters the international access code for your location (for example, 011 for international calls made from the U.S.).

1. Touch > > **Dialpad** tab to display the phone dialpad.

2. Touch and hold  + until you see a “+” on the display screen.
3. Enter the country code and phone number, and then touch . The phone automatically prepends the access code for international dialing, followed by the country code and phone number.

Call Using Internet Calling

When Wi-Fi network is available, you can make and receive calls through an Internet calling account.

Important: Calling a phone number using Internet calling may incur additional charges.

Add an Internet Calling Account

1. Touch  >  to display the phone app.
2. Touch  > Call settings > SIP Accounts > ADD ACCOUNT.
3. Enter your account details and touch **SAVE**.
4. To set your phone to receive Internet calls on your added account, touch  and select the **Receive incoming calls** check box.

Note: This requires the phone to maintain a connection with a Wi-Fi data network, which reduces the life of your phone's battery.

Make an Internet Call

1. Touch  >  > .
2. Touch a contact and then touch **Internet call**.

Internet Calling Setting

1. Touch  > Phone .
2. Touch  > Call settings > Use Internet calling.
3. Select an option:
 - **For all calls when data network is available** to use Internet calling for all calls when Wi-Fi network is available
 - **Only for Internet calls** to use Internet calling only for calls to Internet calling addresses.

- Ask for each call to ask each time you make a call.

Receive Phone Calls

The following information lets you know how to answer incoming calls, mute the ringer on incoming calls, reject incoming calls, and more.

When you receive a phone call from a contact, the Incoming call screen appears and displays the caller ID icon, name, and phone number of the calling party. When you receive a phone call from someone who is not stored in People, only the default caller ID icon and phone number appear on the Incoming call screen.

Note: If your phone is turned off, all calls automatically go to voicemail.

Answer an Incoming Call

- On the Incoming call screen, swipe the Answer icon .

Mute the Ringing Sound

- Press the volume button down.

Reject an Incoming Call

- Swipe the Ignore icon  . The call will be sent directly to voicemail.

Reject a Call and Send a Text Message

You can reject an incoming call and automatically send a text message to the caller.

- Swipe the Ignore & Text icon  to ignore the call and send a message to the caller.
 - You can edit the text messages through the Call settings menu. From the phone app, touch  > **Call settings > Quick responses** and touch a preset text message to edit it.

Voicemail

The following topics outline your phone's voicemail service.

Note: Your phone also supports the Visual Voicemail app. For information on setting up and using Visual Voicemail, see [Visual Voicemail](#).

Voicemail Setup

You should set up your voicemail and personal greeting as soon as your phone is activated.

- For information on setting up your voicemail, see [Set Up Voicemail](#).

Tip: For information on using the Visual Voicemail app, see [Visual Voicemail](#).

VoiceMail Notification

There are a couple of different ways your phone alerts you to a new voicemail message.

- By sounding the assigned notification sound.
- By vibrating the phone when the vibrate setting is on.
- By displaying  within the Notifications area of the Status bar when a new unheard voicemail message(s) is received. The figure is the number of new messages. This icon means you have ten unheard new messages.

Note: When you are roaming off the network, you may not receive notification of new voicemail messages. It is recommended that you periodically check your voicemail by dialing 1 + area code + your wireless phone number. When your voicemail answers, touch and enter your password. Roaming rates apply when you access voicemail while roaming off the network.

Note: Your phone accepts messages even when it is turned off. However, your phone notifies you of new messages only when it is turned on and you are in a network service area.

Retrieve Your Voicemail Messages

You can review your messages directly from your wireless phone (using either traditional voicemail or Visual Voicemail) or from any other touch-tone phone.

Use Traditional Voicemail to Access Your Messages

1. Touch  >  > Dialpad tab to display the phone dialpad.
2. Touch and hold  1 . If prompted, enter your voicemail password.
3. Follow the voice prompts to listen to and manage your voicemail messages.

Use Visual Voicemail to Access Your Messages

1. Touch  >  > **Voicemail** .
2. Touch an entry to listen to the message.

Note: You are charged for airtime minutes when you access voicemail from your wireless phone.

Use Another Phone to Access Messages

1. Dial your wireless phone number.

2. When your voicemail answers, press the asterisk key on the phone (*).
3. Enter your password.

Use Visual Voicemail to Delete Your Messages

1. Touch  >  > **Voicemail** .

2. Open a message and touch .

Tip: You can restore messages you have sent to the trash folder. Touch **Inbox** > **Trash**, touch and hold the message you want to restore to the inbox, and then touch the restore icon .

Visual Voicemail

Visual Voicemail gives you a quick and easy way to access your voicemail. Now you can find exactly the message you are looking for without having to listen to every voicemail message first. This new feature periodically goes out to your voicemail, and gathers the caller information from all of the current voicemails. It then populates a list with the caller name and number, along with the length of time and priority level of the voicemail message.

Set Up Visual Voicemail

Setting up Visual Voicemail follows many of the same procedures as setting up traditional voicemail. You should set up your voicemail and personal greeting as soon as your phone is activated. Your phone automatically transfers all unanswered calls to your voicemail, even if your phone is in use or turned off.

Note: To set up your traditional voicemail box, see [Voicemail Setup](#).

1. Touch  >  > **Voicemail** . You'll see a Personalize your voicemail prompt.
2. Touch **Personalize now** and follow the system prompts to:
 - Create a password (part of standard voicemail).
 - Record your name announcement.
 - Record your greeting.

Important: Voicemail Password – It is strongly recommended that you create a password when setting up your voicemail to protect against unauthorized access. Without a password, anyone who has access to your phone is able to access your voicemail messages.

3. Touch the **Welcome to Voicemail** message on the screen to play a brief explanation of the voicemail services.

Review Visual Voicemail

Visual Voicemail lets you easily access and select which messages you want to review.

1. Touch > > **Voicemail** . You will see the voicemail inbox.

2. Touch a message to review it.

Tip: There are several icons at the bottom of the review screen for maintenance, storage, messaging, and other options. For an explanation of all your options, touch > **Help** > **Visual Voicemail Menu** > **Visual Voicemail Menu**.

Listen to Multiple Voicemail Messages

When you are done listening to a voicemail message, you can easily access other voicemail messages without returning to the main voicemail screen.

1. Listen to the current voicemail message.
2. Swipe your finger left or right to display the next or previous message. (It will begin playing automatically.)

You can navigate through voicemail messages as frequently as you'd like. You can even move to the next or previous message before you're finished listening to the current one.

Compose a Visual Voicemail Message

Record a voice message and share or send it.

1. Touch  >  > **Voicemail** .
2. Touch  to access the recording screen and touch  to start recording.
3. Touch  to stop recording.
4. Touch  to review the recorded message.
 - Touch  > **Re-record** to discard the current message and start a new recording.
5. Touch  to select a method to share the recorded message and follow the onscreen instructions.
 - You will be asked to set a **Display name** if it is not set.

– or –

Type the recipient in the **To** field or touch  and select the recipient from your contacts, and then touch  to send the message.

Visual Voicemail Options

Your visual voicemail options appear as icons at the bottom of the voicemail review screen.

1. Touch  >  > **Voicemail** .
2. Touch a message to review it. The following options are available while reviewing a voicemail message:
 -  **Play** to start playing.
 -  **Pause** to pause the playback.
 -  **Speaker on** to turn the speakerphone on or off during playback.
 -  **Speaker off** to turn the speakerphone off during playback.
 -  **Delete** to delete the current voicemail message. The message will be moved to the trash folder.

-  **Call** to call the number the message came from.
-  **Share** to share the message. Select an available method and follow the onscreen instructions.
-  **Reply** to reply to the message via text or voice message.
- The bar  00:11 provides a visual timeline for the current message. Touch and drag this bar to scrub through the message to different points.

Configure Visual Voicemail Settings

The Visual Voicemail settings menu lets you access settings for notifications, pictures, greetings, and more.

1. Touch  >  > **Voicemail** .
2. Touch  > **Settings**. Select an option to change its settings.
 - **Manage subscription** to verify your Voicemail-to-Text account information.
 - **Auto forward to email** to send a copy of new messages to an email address of your choice.
 - **Personalize voicemail** to change your voicemail greeting for incoming calls and update password. See [Change Your Main Greeting via the Voicemail Menu](#).
 - **Notifications** to determine how you are notified of new voicemails.
 - **Delete messages** to set the timing to permanently delete the messages in the trash folder.
 - **Display name** to enter a name that is attached to your outgoing voicemails as part of an identification string. See [Edit the Display Name via the Voicemail Menu](#).
 - **Speakerphone** to set the speakerphone setting.
 - **Transcriptions displayed** to allow text to be transcribed and displayed on the phone.
 - **Themes** to select a theme for the Visual Voicemail.
 - **View quick tips tutorial** to display some quick tips for using Visual Voicemail.
 - **Help** to go to the help page of Visual Voicemail.
 - **Send feedback** to send your feedback on the Visual Voicemail.

- **Updates** to search for an update to your Visual message software.
- **About Voicemail** to view build information about the current Visual Voicemail application.

Tip: You can restore messages you have sent to the trash folder. Touch **Inbox > Trash**, touch and hold the message you want to restore to the inbox, and then touch the restore icon .

Note: Voicemail settings can also be accessed by touching  >  >  > **Call settings > Voicemail**.

Change Your Main Greeting via the Voicemail Menu

Your main greeting can be changed directly via the Visual Voicemail system. This direct access saves you from having to navigate within the voicemail menu.

1. Touch  >  > **Voicemail** .
2. Touch  > **Settings > Personalize voicemail**.
3. Touch **OK** to connect to the voicemail system. Follow the prompts to change your current greeting.

Edit the Display Name via the Voicemail Menu

From your Visual Voicemail menu, you can quickly change the name or number attached to your voice messages.

1. Touch  >  > **Voicemail** .
2. Touch  > **Settings > Display name**.
3. Touch the existing identification field and enter a new identifying name or number (used to identify you to recipients of your voice messages).
4. Touch **OK** to save your information.

Phone Call Options

Your phone application provides many useful features and options to help you make the most of your calling experience.

In-call Options

While you're on a call, you will see a number of onscreen options. Touch an option to select it.

Add call End call Dialpad

Speaker

Mute

Bluetooth

OFF ON

OFF ON

OFF ON

- **Add call:** Touch and hold to initiate a conference call (3-way call).
- **End call:** End the current call.
- **Dialpad/Hide:** Toggle the appearance of the onscreen dialpad to enter additional numbers such as an extension or access code.
 - For example: When you call your bank's 800 number, use your dialpad to enter your account number and PIN.
- **Speaker:** Route the phone's audio through the speaker (ON) or through the earpiece (OFF).

Warning: Because of higher volume levels, do not place the phone near your ear during speakerphone use.

- **Mute:** Mute the microphone during an active call. Touch the ON/OFF button to mute or unmute your microphone.

Note: If Mute is activated, the speaker mode is deactivated.

- **Bluetooth:** Route the phone's audio through a connected Bluetooth headset (ON) or through the speaker (OFF).

Caller ID

Caller ID identifies a caller before you answer the phone by displaying the number of the incoming call. If you do not want your number displayed when you make a call, follow these steps.

1. Touch  >  > Dialpad tab to display the phone dialpad.
2. Touch   
3. Enter a phone number.
4. Touch .

Call Waiting

When you're on a call, Call Waiting alerts you to incoming calls by sounding two beeps. Your phone's screen informs you that another call is coming in and displays the caller's phone number (if it is available).

To respond to an incoming call while you're on a call:

- Swipe  . This puts the first caller on hold and answers the second call.

To switch back to the first caller:

- Touch **Switch calls**.

Note: For those calls where you don't want to be interrupted, you can temporarily disable Call Waiting by touching    before placing your call. Call Waiting is automatically reactivated once you end the call.

3-Way Calling

With 3-way calling, you can talk to two people at the same time. When using this feature, the normal airtime rates will be charged for each of the two calls.

1. On the Dialpad screen, enter a number and touch  (or place a call from Log or Contacts).
2. Once you have established the connection, touch **Add call**, and dial the second number (or place the call from Logs or Contacts). This puts the first caller on hold and dials the second number.
3. When you're connected to the second party, touch **Merge calls**. Your conference call is now in session.

4. To end the 3-way call, touch .

Note: If one of the people you called hangs up during your call, you and the remaining caller stay connected. If you initiated the call and are the first to hang up, all callers are disconnected.

Call Forwarding

Call Forwarding lets you forward all your incoming calls to another phone number, even when your phone is turned off. You can continue to make calls from your phone when you have activated Call Forwarding.

Note: You are charged a higher rate for calls you have forwarded.

To activate Call Forwarding:

1. Touch  >  > Dialpad tab to display the phone dialpad.
2. Touch 
3. Enter the area code and phone number to which you want your calls forwarded.
4. Touch .

To deactivate Call Forwarding:

1. Touch  >  > Dialpad tab to display the phone dialpad.
2. Touch 
3. Touch .

Call Logs

The Logs tab of the Phone application lists all recent incoming, outgoing, and missed calls.

View Call Logs

1. Touch  >  to display the phone app.
2. Touch the **Call log** tab to display the Call log list.
 - You can determine if an entry was an incoming, outgoing, or a missed call from the icons shown below.

 = Incoming Call

 = Outgoing Call

 = Missed Call

Call Log Options

- To make a call from the call log, see [Call from Call Logs](#).

For additional options:

- Touch  >  to display the phone app.
- Touch the **Call log** tab to display the Call log list.
- Touch  to display the call log options menu:
 - Show all calls** to display all calls (does not display if all calls are currently being shown).
 - Show missed only** to only show missed calls.
 - Show outgoing only** to only show outgoing calls.
 - Show incoming only** to only show incoming calls.
 - Clear call log** to clear your call logs.
 - Call settings** to show the Call settings menu.

Clear Call Logs

Use the menu option to clear your call log.

- Touch  >  to display the phone app.
- Touch the **Call log** tab to display the Call log list.
- Touch  > **Clear call log** > **OK**.

Call Settings

Your phone's Call Settings menu lets you configure your voicemail options and a number of other settings for the phone application.

Voicemail Settings

If you need to adjust your voicemail provider or access settings, use the Voicemail settings menu.

1. Touch  >  to display the phone app.
2. Touch  > **Call settings** > **Voiceicemail**.
3. Configure options for voicemail.

North American Dialing

1. Touch  >  to display the phone app.
2. Touch  > **Call settings**.
3. Select the **North American dialing** check box when placing international calls while in the United States or Canada. See [Call Using the Plus \(+\) Code](#).

International Dialing

1. Touch  >  to display the phone app.
2. Touch  > **Call settings**.
3. Clear the **North American dialing** check box and touch **International dialing** to set the international dialing code when placing international calls from outside the United States or Canada.

TTY Mode

A TTY (teletypewriter, also known as a TDD or Text Telephone) is a telecommunications device that allows people who are deaf, hard of hearing, or who have speech or language disabilities, to communicate by telephone.

Your phone is compatible with select TTY devices. Please check with the manufacturer of your TTY device to ensure that it supports digital wireless transmission. Your phone and TTY device will connect using a special cable that plugs into your phone's headset jack. If this cable was not provided with your TTY device, contact your TTY device manufacturer to purchase the connector cable.

To turn TTY Mode on or off:

1. Touch  >  to display the phone app.
2. Touch  > **Call settings** > **TTY mode**.
3. Touch **TTY Full**, **TTY HCO**, or **TTY VCO** to turn TTY mode on.

– or –

Touch **TTY Off** to turn TTY mode off.

Note: When enabled, TTY mode may impair the audio quality of non-TTY devices connected to the headset jack.

Warning: 9-1-1 Emergency Calling

It is recommended that TTY users make emergency calls by other means, including Telecommunications Relay Services (TRS), analog cellular, and landline communications. Wireless TTY calls to 9-1-1 may be corrupted when received by public safety answering points (PSAPs), rendering some communications unintelligible. The problem encountered appears related to TTY equipment or software used by PSAPs. This matter has been brought to the attention of the FCC, and the wireless industry and the PSAP community are currently working to resolve this.

Contacts

The People application lets you store and manage contacts from a variety of sources, including contacts you enter and save directly in your phone, as well as contacts synchronized with your Google Account, your PC, compatible email programs (including Exchange Server), and your Facebook® friends.

Get Started with People

Before using the People app, it's best to learn a few basics.

Your phone automatically sorts the Contacts entries alphabetically. You can create a Google contact, a phone contact, or a Corporate (Microsoft® Exchange ActiveSync®) contact.

- **Google** contacts are synchronized between your phone and a Google Account you set up on your phone.
- **Corporate** (Microsoft Exchange ActiveSync) contacts are synchronized between your phone and an Exchange Server or Microsoft Outlook® account set up on your phone.
- **Phone** contacts are stored locally on the phone.

Note: If the phone is ever reset to its factory default parameters, locally stored contacts (phone contacts) can be lost.

Access Contacts

There are a few ways to display Contacts.

- Touch  >  > **People** .

– or –

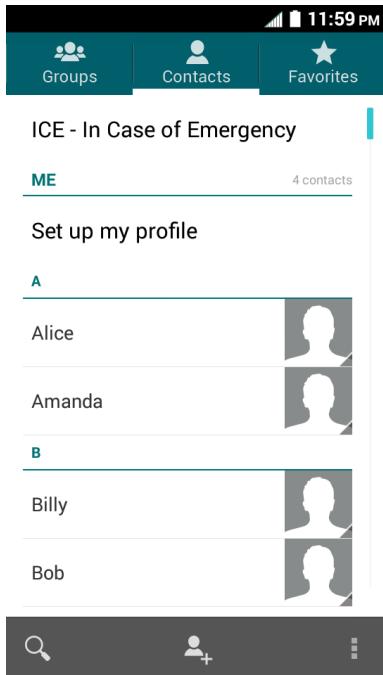

Touch  (the people shortcut) on the home screen.

- To add contacts shortcut to the home screen, touch and hold an empty spot on one of the home screens, touch the **Apps** tab. Touch and hold **People** , drag the icon to the home screen, and release the icon to place it.

The Contacts List

Learn how to view and navigate through your phone's Contacts list.

- Touch  >  > Contacts tab. You will see the Contacts list

-  **Groups:** Touch to display the group contacts.
-  **Contacts:** Touch to display the individual contacts.
-  **Favorites:** Touch to display your favorite contacts.
-  **Search:** Touch to search a contact.
-  **Add contact:** Touch to add a contact. See [Add a Contact](#).
-  **Add group:** Touch to add a group contact. See [Add a Group Contact](#).

Scroll through the list to view all your contacts. To see a specific entry, scroll to it and touch it.

Tip: If you have a lot of contacts stored, you'll see a slider on the right when you're flicking up or down the list. To go directly to a letter, touch and hold the slider and drag it to a letter.

Contacts List Options

The Menu key () provides access to optional features in the Contacts list.

- From the Contacts list, touch  to display the main contacts list options.

- **Contacts to display:** Selects contacts to be displayed on People.
- **Speed dial setup:** Allows you to assign a speed dial number to a selected contact.
- **Delete:** Erases the currently selected contact or contacts.
- **Import/export:** Imports/exports contacts from/to the microSD card or shares your visible contacts.
- **Accounts:** Opens the sync options for accounts.
- **Settings:** Opens the Display options page. You can select how your contacts are displayed.

Display Options

Select which contacts to display on People.

1. Touch  >  > Contacts tab.
2. Touch  > **Contacts to display**.
3. Select one of the following options:
 - **All contacts** to display all the contacts you save.
 - **Phone** to display all the contacts saved in your phone.
 - An account (for example, **Google**) to display only its contacts.
 - **Customize** whether to display all the contacts saved in your phone, or to select contact types for each account. Touch Phone or an account name, make your selection, and then touch **OK**.

You can also select how your contacts are displayed.

1. Touch  >  > Contacts tab.
2. Touch  > **Settings**.
3. Set the following options:
 - **Sort list by** to choose how your contacts are sorted.
 - **View contact names** to choose how your contacts name is displayed.

Add a Contact

You can add contacts from the People application. Enter details such as name, phone numbers, email addresses, mailing addresses, and more.

1. Touch  >  > Contacts tab.
2. Touch  to add a contact.
3. If you have multiple account types associated with your phone, select a contact type.
 - Select **Phone** if you want your contacts on your phone only; they will not be synced with your Google Account.
 - Select **Google** if you want to save contacts to your Google Account; these will be synced automatically with your Google Account online.
4. Use the keyboard to enter as much information as you want.
 - : Touch the picture icon to assign a picture to the contact. See [Assign a Stored Picture to a Contact](#) or [Assign a New Picture to a Contact](#).
 - **Name**
 - **Add organization**
 - **PHONE**
 - **EMAIL**
 - **ADDRESS**
 - **Add another field:** Touch to include additional information such as **Phonetic name**, **IM**, **Notes**, **Nickname**, **Website**, etc.

Note: To select a type (label) for a phone number, email address, or postal address (such as MOBILE, HOME, WORK, etc.), touch the type to the left of the field and select the appropriate type.

Note: To add more phone numbers, email addresses, etc., touch **Add new** under the current numbers or addresses.

5. When you have finished adding information, touch **SAVE**.

Save a Phone Number

You can save a phone number to Contacts directly from the phone dialpad.

1. Touch  >  > Dialpad tab to display the phone dialpad.
2. Enter a phone number and touch **Add to contacts**.
3. To add the number to an existing contact, touch the contact, select a number type for the new number, and then touch **OK**.
-or-

To add the number as a new contact, touch **CREATE NEW CONTACT**, enter the name and any additional information, and then touch **SAVE**. See [Add a Contact](#).

Edit a Contact

Once you've added a contact, you can add or edit any of the information in the entry, assign a caller ID picture, customize with a unique ringtone, and more.

Add or Edit Information for a Contact

Use the Edit contact menu to add or edit information for an existing contact.

1. Touch  >  > Contacts tab.
2. Touch a contact to display it, and then touch  > **Edit**.
3. Touch any field you want to change or add. See [Add a Contact](#).
4. Add or edit the information, and then touch **SAVE**.

Note: To select a type (label) for a phone number, email address, or postal address (such as MOBILE, HOME, WORK, etc.), touch the type to the right of the field while on the edit contact menu.

Note: To add more phone numbers, email addresses, etc., touch **Add new** under the current numbers or addresses.

Assign a Stored Picture to a Contact

The Edit contact menu lets you assign a picture stored in your phone's memory or SD card to a contact.

1. Touch  >  > Contacts tab.
2. Touch a contact to display it, and then touch  > **Edit**.
3. Touch the contact icon to the right of the name.
4. Touch **Choose photo from Gallery** and select a location.

5. Touch a picture to select it.
 - You may be prompted to size the picture for use with contacts. Touch and drag the square to frame the portion of the picture to use. Touch and drag the side of the square to resize the square.
6. Touch **SAVE** to save the contact.

Assign a New Picture to a Contact

Follow the instructions to take a new picture and assign it directly to an existing contact.

1. Touch  >  > **Contacts** tab.
2. Touch a contact to display it, and then touch  > **Edit**.
3. Touch the contact icon to the right of the name.
4. Touch **Take photo**.
5. Touch  to take a picture. If you're satisfied with the picture, touch **OK** to continue.
 - You may be prompted to size the picture for use with contacts. Touch and drag the square to frame the portion of the picture to use. Touch and drag the side of the square to resize the square and touch **SAVE**.
6. Touch **SAVE** to save the contact.

Assign a Ringtone to a Contact

Know who's calling without looking at your phone by assigning a specific ringer to a contact.

1. Touch  >  > **Contacts** tab.
2. Touch a contact to display it, and then touch  > **Set ringtone**.
3. Touch an available ringtone.
 - When you touch a ringtone, you will hear a sample.
4. Touch **OK** to assign the ringtone.

Assign a Vibration to a Contact

You can assign a specific vibration pattern to a contact.

1. Touch  >  > **Contacts** tab.

2. Touch a contact to display it, and touch  > **Set vibrate**.
3. Touch an available vibration.
 - When you touch a vibration, you will feel a vibration.
4. Touch **OK** to assign the vibration.

Add a Contact to Favorites

The Favorites tab of the Phone menu is a listing that can help you access your frequent or preferred contacts entries.

1. Touch  >  > **Contacts** tab.
2. Touch a contact.
3. Touch the star at the upper right corner. The star turns to white.

Send a Contact's Call to Voicemail

You can transfer your contact's voice call to voicemail anytime you receive it.

1. Touch  >  > **Contacts** tab.
2. Touch a contact to display it, and then touch .
3. Select the **All calls to voicemail** check box.

Add a Contact Widget to the Home Screen

You can place your favorite contacts on the home screen.

1. Touch  >  > **Contacts** tab.
2. Touch a contact to display it, and then touch  > **Place on Home screen**. The contact widget is added to your home screen.

Tip: To remove a contact widget from the home screen, touch and hold a contact widget and drag it over "X Remove" at the top of the screen and release it when it turns red.

Delete a Contact

You can delete a contact from the contacts details page.

1. Touch  >  > **Contacts** tab.

2. Touch a contact to display it, and then touch  > **Delete**.
3. Touch **OK**.

Add a Group Contact

Create a group contact with your personal contact entries in People.

Note: In order to create a group contact, you may first sync your phone with a Google or Corporate account. See [Synchronize Contacts](#) for instructions on how to sync your phone to an account.

1. Touch  >  > **Groups** tab.
2. Touch  to add a group contact.
3. Select the account in which you want to create a group contact.
4. Enter the group's name.
5. Touch **Add new** and check the entries that you want to add to the group contact.
6. Touch **DONE**, and touch **SAVE** after confirming the group contact information.

Edit a Group Contact

Manage the group contacts you create.

Add or Remove the Group Contact, or Rename the Group

1. Touch  >  > **Groups** tab.
2. Touch a group contact and touch  > **Edit**.
3. The following options are available:
 - Touch the group's name to rename it.
 - Touch **Add new** to add an entry to the group contact. Check the entries that you want to add, touch **DONE**, and confirm the group contact information.
 - Touch  next to the entry you want to remove from the group.
4. Touch **SAVE**.

Delete a Group Contact

1. Touch  >  > Groups tab.
2. Touch a group contact and touch  > Delete > OK.

ICE (In Case of Emergency)

Registering ICE information might help rescue workers, such as paramedics and police officers, as well as hospital personnel, identify your primary contact or special medical need you might have in case of emergency.

ICE Contacts

You can register up to five emergency contacts.

To add an ICE contact:

1. Touch  >  > ICE .
- or –
- Touch  >  > Contacts tab, and then touch ICE- In Case of Emergency.
2. Touch +. You can register up to five emergency contacts.

Note: You will be prompted to enable the Location access settings if they are disabled. Read the onscreen information and follow the instructions.

3. Touch the entry to register.

To remove an ICE contact:

1. Touch  >  > ICE .
2. Touch  and touch the contact to remove.
3. Touch OK.

Personal Information

You can register your own information, medical information, etc.

1. Touch  >  > ICE .
- or –

Touch  >  > Contacts tab, and then touch ICE- In Case of Emergency.

2. Touch My emergency information > .
3. Enter or edit the necessary information and touch **SAVE**.

Synchronize Contacts

Syncing data from your managed accounts lets you add and manage new or existing contacts from your online or remote accounts to your phone. Prior to syncing, you must have an active Google or Corporate account with associated contacts, and be signed into your account with the phone.

With syncing, any contacts (with phone numbers, email addresses, pictures, etc.) are updated and synced with your phone.

For more information about syncing existing managed accounts, see [Manage Existing Accounts](#).

1. Touch  >  > Settings .
2. Touch **Corporate, Google**, etc. under ACCOUNTS.
3. Touch the account you want to sync your contacts with.
4. Select the **Contacts** check box.

Note: The process of updating your contacts tab can take several minutes. If after 10-20 minutes, your list has not been updated, repeat steps 3 and 4.

Your People then reflects any updated contact information.

- This update process works both ways. For example, any changes on the phone are updated to your Gmail contacts list after sync.

Share a Contact

You can quickly share contacts using Bluetooth, email, Gmail, or text messaging.

1. Touch  >  > Contacts tab.
2. Touch a contact to display it, and then touch  > **Share**.
3. In the **Share contact via** menu, select a method:
 - **Bluetooth** to send the information via Bluetooth. See [Bluetooth](#) for information on pairing and sending via Bluetooth.

- **Email** to send the information as an email attachment. Select a contact or enter an email address, enter any additional information, and then touch **Send ➤**. See [Compose and Send Email](#) for details on sending email.
- **Gmail** to send the information as a Gmail attachment. Address the message, add a subject and a message, and then touch **Send ➤**. See [Send a Gmail Message](#) for details.
- **Messaging** to send the information in a text message. Select a contact or enter a wireless phone number or email address, enter any additional information, and then touch  . For more information on text messaging, see [Text and Multimedia Messaging](#).

Accounts and Messaging

With wireless service and your phone's messaging capabilities, you have the opportunity to share information through many different channels and accounts, including Gmail (Google), personal and corporate email, text and multimedia messaging, and social networking accounts.

Gmail / Google

You will need a Google Account to access several phone features such as Gmail, Google Maps, YouTube™, and the Google Play applications. Before you are able to access Google applications, you must enter your account information. These applications sync between your phone and your online Google Account.

Create a Google Account

If you do not already have a Google Account, you can create one online or using your phone.

Note: Although you need a Gmail account to use certain features of your phone, such as Google Play, you do not need to use Gmail as the default account for your phone.

Create a Google Account Online

1. From a computer, launch a Web browser and navigate to google.com.
2. On the main page, click **Sign-in > Create an account now**.
3. Follow the onscreen prompts to create your free account.
4. Look for an email from Google in the email box you provided, and respond to the email to confirm and activate your new account.

Create a Google Account Using Your Phone

1. Touch  >  > **Settings**  > **Add account**.
2. Touch **Google** and then touch **New**.
3. Enter your **First** name and **Last** name, and then touch .
4. Enter a desired **Username**, and then touch .
5. When prompted, enter and reenter a password, and then touch .
6. Enter a secondary email address to help you recover your password if you ever lose it, and then touch .

Note: When setting up a new Google Account, either on your phone or online, you will be prompted to add a secondary email address. Enter a second Gmail address or any other email address from which you currently send and receive email. This address is used to authenticate your account should you ever encounter problems or forget your password. It is strongly encouraged for Android users so you can regain access to Google services and purchases on your phone.

7. Follow the onscreen prompts to create your free account.

Sign In to Your Google Account

If you have a Google Account but have not yet signed in with your phone, follow these instructions to sign in to your Google Account.

1. Touch  >  > **Settings**  > **Add account**.
2. Touch **Google**, and then touch **Existing**.
3. Enter your Gmail username and password, and then touch .
4. Read and accept the Google Terms of Service, and then touch **OK**.
5. Select the Google services options, and then touch .

Access Gmail

Access your personal Gmail account directly on your phone.

1. Touch  >  > **Gmail** .
2. Do any of the following:
 - View more email messages: If the inbox is full, swipe your finger up the screen to view more messages and conversations.
 - Read a new email message: Touch the unread message or the conversation with an unread message (just-arrived items display in bold).
 - Select messages and conversations: Touch the box before the email or conversation.
 - View the inbox of your other Gmail account:
 - Touch the account name at the top of the inbox, and then touch the account you want to view.
 - Refresh the inbox: Swipe down to refresh the inbox.

Send a Gmail Message

Use your phone to send Gmail messages.

1. Touch  >  > 
2. In any folder, touch .
3. Enter the message recipient's email address in the **To** field. If you are sending the email message to several recipients, separate the email addresses with a comma. As you enter email addresses, any matching addresses from your contacts list are displayed. Touch a match to enter that address directly.
4. If you want to send a carbon copy (Cc) or a blind carbon copy (Bcc) of the email to other recipients, touch  > **Add Cc/Bcc**.
5. Enter the email subject, and then compose your email.

Note: If you want to attach a picture, touch  > **Attach picture**. Locate and then touch the picture you want to attach.

6. After composing your message, touch **Send ➤**.

Note: While composing the message, touch  > **Save draft** to save it as a draft. To view your draft messages, in the inbox, touch **Inbox** (top of the Gmail screen), and then touch **Drafts**.

Note: To view your sent messages, in the inbox, touch **Inbox** and then touch **Sent**.

Read and Reply to Gmail Messages

Your phone allows you to access, read, and reply to all your Gmail messages.

1. Touch  >  > .
2. Touch a message to display it.
3. To reply to or forward a message:
 - Touch  to reply to the message.
 - Touch  > **Reply all** to reply to all recipients.
 - Touch  > **Forward** to forward the message.

4. After composing your message, touch **Send ➤**.

Email

Use the Email application to send and receive email from your webmail or other accounts, using POP3 or IMAP, or access your Exchange ActiveSync account for your corporate email needs.

Add an Email Account

You can add several types of personal email accounts, such as POP3 and IMAP accounts, on your phone.

Add an Email Account from the Settings Menu

1. Touch  >  > **Settings**  > **Add account** > **Email**.
2. Enter the **Email address** and **Password** for the email account and then touch **Next**.
 - Touching **Next** prompts your phone to attempt a "regular" email setup and test the incoming and outgoing servers.
 - If you have custom settings you need to configure, touch **Manual setup** and enter your settings. These may include mail type, user name, password, server, security type, etc.
3. Select your sync settings and then touch **Next**.
4. Enter the name to be displayed on your outgoing messages and touch **Next**. The inbox of the account is displayed.

Important: If the account type you want to set up is not in the phone database, you will be asked to enter more details. You should get all pertinent information for the email account, such as incoming and outgoing server settings, before you proceed.

Add an Email Account from the Email App

You can also set up email accounts directly from the Email app.

1. Touch  >  > **Email** .
2. Do one of the following:
 - If you have already added an email account, in your email inbox, touch  > **Settings**, and then touch **ADD ACCOUNT**.
3. Enter the **Email address** and **Password** for the email account and then touch **Next**.

- Touching **Next** prompts your phone to attempt a "regular" email setup and test the incoming and outgoing servers.
 - If you have custom settings you need to configure, touch **Manual setup** and enter your settings. These may include mail type, user name, password, server, security type, etc.
4. Select your sync settings and then touch **Next**.
 5. Enter an account name and a display name and touch **Next** to complete setup.

Important: If the account type you want to set up is not in the phone database, you will be asked to enter more details. You should get all pertinent information for the email account, such as incoming and outgoing server settings, before you proceed.

Add a Corporate Account

If you synchronize your phone with your corporate account, you can read, manage, and send email in the same easy way as with a POP3/IMAP account. However, you can also access some powerful Exchange features.

Important: Before setting up a Microsoft Exchange ActiveSync Account, contact your company's Exchange Server administrator for required account settings information.

1. Touch  >  > **Settings**  > **Add account** > **Corporate**.
2. Enter the **Email address** and **Password** information and then touch **Next**. Consult your company's network administrator for further details:
 - **Email address:** your corporate email address.
 - **Password:** typically your network access password (case-sensitive).
3. Enter the **Username**, **Password**, **Server**, and **Domain** information:
 - **Username:** enter your network login username.
 - **Password:** typically your network access password (case-sensitive).
 - **Server:** your exchange server remote email address. Typically it is in the form mail.XXX.com. Obtain this information from your company's network administrator.
 - **Domain:** enter your network domain.
4. If your network requires SSL encryption, select the **Use secure connection (SSL)** check box and activate this additional level of security. If your exchange server requires this feature, leaving this field unchecked can prevent connection.
5. Touch **Next**.

6. If the onscreen activation disclaimer is displayed, touch **Next**.
7. Configure your **Incoming checking frequency**, **Days to sync** (days to synchronize between your phone and server), and activate any other email settings, then touch **Next**.

Note: Signal interruptions or incorrect user name or password information can cause completion issues.

8. Identify your new account with a unique name and touch **Next**.

Note: You can have multiple corporate email (Microsoft Exchange ActiveSync) accounts active on your phone.

Compose and Send Email

Compose and send email using any account you have set up on your phone. Increase your productivity by attaching files such as pictures or videos to your email messages.

1. Touch  >  > **Email** .
2. In any folder, touch .

Tip: Touch the account name at the top of the screen to switch to a different email account.

3. Fill in one or more recipients. You can:
 - Enter email addresses directly in the **To** field. If you're sending the email to several recipients, separate the email addresses with a comma. As you enter email addresses, any matching addresses from your contacts list are displayed. Touch a match to enter the address directly.

Tip: If you want to send a CC or a BCC of the email to other recipients, touch  > **Add Cc/Bcc**.

4. Enter the subject, and then compose your message.
5. To add an attachment, touch  > **Attach file**. You can choose from **Pictures, Videos, Audio, or Others**.
 - Touch  to delete a selected attachment from your current email.
6. Touch  to send the message immediately, or touch  > **Save draft** to save it as a draft.

Note: To open a draft email, touch **Inbox** (top of the Email screen) and then touch **Drafts**.

View and Reply to Email

Reading and replying to email on your phone is as simple as on your computer.

1. Touch  >  > .
 2. On the email account inbox, touch the message you want to view.
- Tip:** Touch the account name at the top of the screen to switch to a different email account.
3. Touch , or touch  > **Reply all**, to reply to the message.

Manage Your Email Inbox

Your email inbox provides management options for viewing and deleting your email messages.

View Your Email Inbox

1. Touch  >  > .
2. Touch the email account at the top of the screen to select a different inbox.

Refresh an Email Account

Whatever your automatic synchronization settings are, you can also synchronize your sent and received email messages manually at any time.

- While viewing the account you want to synchronize, touch .

Delete an Email Message

1. On the email account inbox, touch and hold the message you want to delete.
2. Touch .

Delete Multiple Email Messages

1. On the email account inbox, touch the check box next to the messages you want to delete.
2. Touch .

General Email Settings

You can edit the general settings of your email.

1. Touch  >  > .

2. Touch  > **Settings** > **General**. The following options are available:
 - **Auto-advance:** Choose which screen to show after you delete a message.
 - **Message text size:** Select the message text size.
 - **Reply all:** Check if you want to display “Reply all” option as default.
 - **Ask to show pictures:** Touch if you want to be asked before pictures in messages are displayed.

Email Account Settings

You can edit settings for your individual email accounts, such as email address and password, name display and signature, frequency of retrieval, and more.

Note: Available settings depend on the type of email account.

1. Touch  >  > **Email** .
2. Touch  > **Settings**.
3. Select the email account you want to edit.
4. Set the following options. Some options are available to corporate accounts only:
 - **Account name:** Edit your account name.
 - **Your name:** Edit the name displayed on your emails.
 - **Signature:** Create an email signature for your outgoing emails.
 - **Quick responses:** Edit the text you frequently insert when composing emails.
 - **Inbox view:** Select how the inbox is displayed from Normal view and Conversation view.
 - **Default account:** Check to assign this account as the default email used for outgoing messages.
 - **Inbox check frequency:** Select the time interval used by your phone to check your new emails from **Automatic (Push)**, **Never**, **Every 5 minutes**, **Every 10 minutes**, **Every 15 minutes**, **Every 30 minutes**, and **Every hour**.
 - **Enable Peak-Time:** Set the two sets of time intervals to check your new emails – one for peak time and the other for off peak-time.
 - **Frequency during Peak-Time:** Select the time interval used by your phone to check your new emails during peak time.

- **Frequency during Off Peak-Time:** Select the time interval used by your phone to check your new emails during off peak time.
- **Peak-Time schedule:** Set a period of time to be the peak time according to the days of the week.
- **Days to sync:** Set a period of time to synchronize your account.
- **Sync email:** Check to synchronize your email.
- **Sync contacts:** Check to synchronize your contacts.
- **Sync calendar:** Check to synchronize your calendar.
- **Download attachments:** Check if you want to automatically download attachments via Wi-Fi.
- **Email notifications:** Check to display the email notification icon on the status bar when a new mail is received.
 - **Choose ringtone:** Select a ringtone for new email messages.
 - **Vibrate:** Select a vibration pattern for new email messages.
- **Incoming settings:** Adjust the incoming email parameters, such as username, password, and other incoming connection parameters (ex: IMAP server).
- **Outgoing settings:** Adjust the outgoing email parameters, such as username, password, and other outgoing connection parameters (ex: SMTP server).
- **Out of office settings:** Set your current status and your message to reply automatically while you are out of the office.
- **Remove account:** Touch to remove the account.

Delete an Email Account

If you no longer want an email account on your phone, you can delete it through the mail settings menu.

1. Touch  >  > .

2. Touch  > **Settings**.

3. Select the account you want to delete.

4. Touch **Remove account > OK**.

Text and Multimedia Messaging

With Text Messaging (SMS), you can send and receive instant text messages between your wireless phone and another messaging-ready phone.

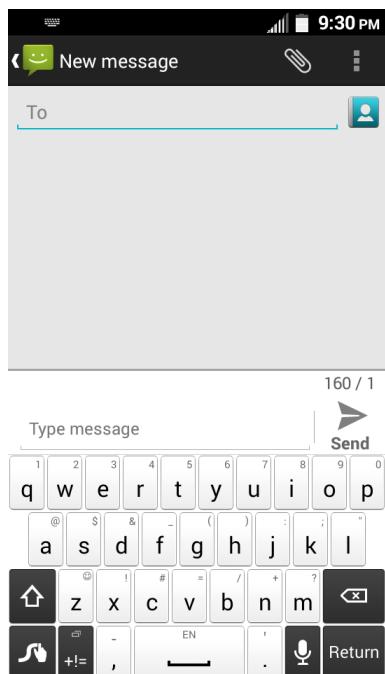

Multimedia messages, or MMS, can contain text and pictures, recorded voice, audio or video files, picture slideshows, contact cards (vCard), or appointments (vCalendar).

See your service plan for applicable charges for messaging.

Send a Text Message

Quickly compose and send text messages on your phone.

1. Touch > > **Messaging** .
2. On the Messaging screen, touch +. The Compose screen opens.
3. Fill in one or more recipients. You can:
 - Enter phone numbers directly in the Enter recipient field. If you're sending the message to several phone numbers, separate the phone numbers with a comma. As you enter information, any matching phone numbers from your contacts list are displayed. Touch a match to enter that number or address directly.
4. Touch the "Type message" box and then start composing your message.

5. When done, touch to send the text message.

Send a Multimedia Message (MMS)

When you need to add a little more to a text message, you can send a multimedia message (MMS) with pictures, recorded voices, audio or video files, or slideshows.

1. Touch  >  > **Messaging** .
2. On the Messaging screen, touch +. The Compose screen opens.
3. Fill in one or more recipients. You can:
 - Enter phone numbers directly in the Enter recipient field. If you're sending the message to several phone numbers, separate the phone numbers with a comma. As you enter information, any matching phone numbers from your contacts list are displayed. Touch a match to enter that number or address directly.

Note: You can add a subject line by touching  > **Add subject**.

4. Touch the "Type message" box, and then start composing your message.
5. Touch  and select from the following file attachments:
 - **Pictures:** Selects an app and then select a stored picture to attach.
 - **Capture picture:** Takes a picture to attach.
 - **Videos:** Selects an app and then select a stored video to attach.
 - **Capture video:** Records a video to attach.
 - **Audio:** Selects an app and then select an audio file to attach.
 - **Record audio:** Records an audio file to attach.
 - **Slideshow:** Opens the Edit slideshow screen. See [Create a Slideshow](#) for details.
 - **Contact (vCard):** Opens People to select one or more contact entries and attach them.
 - **Event (vCalendar):** Opens Calendar to select an event entry and attach it.
6. To make changes to your attachment, touch .
7. When done, touch  ^{MMS} to send the MMS message.

Create a Slideshow

In a multimedia message, you can add slides, each containing a picture, video, or audio.

1. In the multimedia message you're composing, touch  > **Slideshow**.
2. To compose your slideshow, do any of the following:
 - Touch **Add slide** to create a new slide. (This is a placeholder for new images to be added, similar to a playlist.)
 - Touch the created slide (example, Slide 1), touch **Add picture**, select an app to use, and then select the picture you want to add to the slide.
 - Touch the “Type message, or leave blank” box to add a caption.
 - Touch **Preview** to preview the slide, **Replace picture** to delete the currently selected picture or **Remove slide** to remove the selected slide.
 - Touch  for more options.
3. When you have finished composing the multimedia message, touch .

Save and Resume a Draft Message

While composing a text or multimedia message, touch  > **Yes** to save your message as a draft.

To resume composing the message:

1. Touch  >  > **Messaging** .
2. On the Messaging screen, touch the message to resume editing. “Draft” in red appears at the right of the message in the list.
3. When you finish editing the message, touch  or .

New Messages Notification

Depending on your notification settings, the phone will play a ringtone, vibrate, or display the message briefly in the status bar when you receive a new text or multimedia message. To change the notification for new text and multimedia messages, see [Text and MMS Options](#) for details.

A new message icon () also appears in the notifications area of the status bar to notify you of a new text or multimedia message. The Messages application icon (if shown on the Home screen) also displays the number of new messages .

To open the message, touch and hold the status bar, and then slide the status bar down to open the Notifications panel. Touch the new message to open and read it. For information on reading and replying to messages see “Manage Message Conversations” in this chapter.

Manage Message Conversations

Text and multimedia messages that are sent to and received from a contact (or a number) are grouped into conversations or message threads in the Messaging screen. Threaded text or multimedia messages let you see exchanged messages (similar to a chat program) with a contact on the screen.

Read a Text Message

- Do one of the following:
 - On the Messaging screen, touch the text message or message thread to open and read it.
 - If you have a new message notification, drag the status bar down to open the Notifications panel. Touch the new message to open and read it.

To return to the Messaging screen from a text message thread, touch .

Note: To view the details of a particular message, in the message thread, touch and hold the message to open the options menu, and then touch **View details**.

Note: If a message contains a link to a Web page, touch the message and then touch the link to open it in the Web browser.

Note: If a message contains a phone number, touch the message to dial the number or touch and hold the message to add it to your contacts.

Note: If a message contains an email address, touch the message to compose a new email message or touch and hold the message to add it to your contacts.

Combine and Uncombine Messages

When you receive segmented SMS messages, you can combine them into a single message. You can also uncombine a combined message.

To combine segmented messages:

1. Touch  >  > **Messaging** .

2. On a message thread, touch  > **Combine all**.

– or –

To combine specific messages only, on a message thread, touch and hold the message and then touch **Combine**.

Tip: If you want to receive your messages combined, enable the **Long Message Re-assembly** feature. See [Text and MMS Options](#).

To uncombine the combined message:

1. Touch  >  > **Messaging** .
2. On a message thread, touch  > **Uncombine all**.

– or –

To uncombine specific messages only, on a message thread, touch and hold the message and then touch **Uncombine**.

View a Multimedia Message (MMS)

1. Touch  >  > **Messaging** .
2. On the Messaging screen, touch a multimedia message or message thread to open it.
3. Touch the attachment to open it.
4. To save the attachment to the storage card, touch and hold the message, and then touch **Save attachment** on the options menu.

Note: When Auto-retrieve in MMS settings is disabled, only the message header is downloaded. To download the entire message, touch the **Download** button at the right side of the message. For details, see [Text and MMS Options](#).

Note: If you are concerned about the size of your data downloads, check the multimedia message size before you download it.

Reply to a Message

1. Touch  >  > **Messaging** .
2. On the Messaging screen, touch a text or multimedia message thread to open it.

3. Touch the text box at the bottom of the screen, enter your reply message, and then touch  or .

Note: To reply to a text message with a multimedia message, open the text message and touch . The text message is automatically converted into a multimedia message

Delete a Message Thread

1. Touch  >  > **Messaging** .
2. On the Messaging screen, touch and hold the message thread that you want to delete.
 - The thread is highlighted and the number of the selected thread appears next to **Choose conversations**. Touch another thread to select multiple threads.
3. Touch .
4. When prompted to confirm, touch **Delete**.

Delete All Message Threads

1. Touch  >  > **Messaging** .
2. On the Messaging screen, touch  > **Delete all threads**.
3. Touch **Delete**. Any locked messages will not be deleted.

Delete a Single Message

1. While viewing a message thread, touch and hold the message that you want to delete.
2. From the options menu, touch **Delete**.
3. When prompted to confirm, touch **Delete**.

Delete Multiple Messages

1. While viewing a message thread, touch  > **Delete Message** > **Select message(s)**.
 - Select **All messages** to delete all messages.
2. Touch the message you want to delete.
 - The thread is highlighted and the number of the selected thread appears next to **Select message(s)**. Touch another message to select multiple messages.

3. Touch .

4. When prompted to confirm, touch **Delete**.

View Contact Information from a Message

When you have received a message from someone in your stored contacts, you can touch the contact's picture in the message thread to open a menu of options. Depending on the stored contact information, you can view the contact details, phone or send an email message to the contact, and more.

Text and MMS Options

The messages settings menu lets you control options for your text and MMS messages including message limits, size settings, and notifications.

1. Touch  >  > **Messaging** .

2. On the Messaging screen, touch  > **Settings**. You can set the following:

Storage

- **Delete old messages:** Automatically delete older messages when the set limits are reached.
- **Text message limit:** Choose the maximum number of text messages to store in each conversation thread.
- **Multimedia message limit:** Choose the maximum number of MMS messages to store in each conversation thread.

Signature

- **Signature:** Select this option if you want to create a signature at the end of your outgoing text messages.

Text Message

- **Long Message Re-assembly:** Select this option to reassemble multi-segmented messages and receive it as a single message.

MMS

- **Group messaging:** Select this option to use MMS to send a single message when there are multiple recipients.
- **Auto-retrieve:** Select this option to automatically retrieve all your multimedia messages completely. When selected, the multimedia message header plus the message body and

attachments will automatically download to your phone. If you clear this check box, only the multimedia message header will be retrieved and shown in your Messaging screen.

- **Roaming auto-retrieve:** Automatically retrieve all your messages completely when roaming. This may incur significant phone charges.

Notifications

- **Notifications:** Select this option if you want to receive a notification in the status bar when a new text or multimedia message arrives.
- **Sound:** Select a ringtone that is specific to new text and multimedia messages. Note that the ringtone briefly plays when selected.
- **Vibrate:** Select this option if you want the phone to vibrate when a new text or multimedia message arrives.

Set Emergency Alerts

Your phone is compatible with federally supervised cell phone alert services to send out broadcast SMS messages for public warning.

1. Touch  >  > Emergency Alerts .

– or –

Touch  >  > Messaging , and then touch  > Emergency Alerts.

2. Touch  > **Settings**. You can set the following:

- **Presidential:** Receives an emergency presidential alert. (Presidential is always grayed out [not selectable] and cannot be excluded.)
- **Imminent Threat - Extreme:** Select this option if you want to receive emergency alerts of extreme emergency situations (extraordinary threats to life or property).
- **Imminent Threat - Severe:** Select this option if you want to receive emergency alerts of severe emergency situations (significant threats to life or property).
- **Amber:** Select this option if you want to receive alerts related to missing or endangered children.
- **Emergency Alerts Test:** Select this option if you want to receive a test message to make sure that the alert messages can be successfully received.
- **Emergency Alerts Exercise:** Select this option if you want to receive a test message to make sure that the alert messages can be successfully received.

- **Help:** Displays the help information for Emergency Alerts.
- **Notifications:** Select this option if you want to receive a notification in the status bar when an emergency alert is received.
- **Sound:** Set a notification sound to play when an emergency alert is received.
- **Vibrate:** Select this option to set your phone to vibrate when an emergency alert is received.
- **Alert reminder:** Select the alert reminder time from **Once**, **Every 2 minutes**, **Every 15 minutes**, or **Off**.
- **Emergency notification preview:** Select this option to play a sample emergency alert tone.
- **Speak alert message:** Select this option to use the text-to-speech feature on your phone to read the emergency alert out when it is received.

3. When you are done, touch  to return to the Emergency Alerts main screen.

Social Networking Accounts

Stay in touch on the go with all your social networking accounts. Post updates on Facebook and Twitter®, review your LinkedIn contacts, see what everyone's talking about from YouTube, and more.

Facebook

Post updates, read what your friends are up to, upload pictures and check-ins, and more with on-the-go Facebook access.

Install the Facebook App on Your Phone

Before you use Facebook on your phone, you must download and install the app from the Google Play Store app.

1. Touch  >  > **Play Store** .
2. Touch the Search icon and search for "facebook".
3. Touch **Facebook** from the results list.
4. Touch **INSTALL**, and then touch **ACCEPT**.
5. When the download has completed, touch **OPEN**. To open the app from the home screen, touch  > **Facebook** .

Sign in to Your Facebook Account from Account Settings

1. Touch  >  > **Settings**  > **Add account**.
2. Touch **Facebook**.
3. Touch **Sign Up for Facebook** on the main Facebook home page.
4. Enter your Facebook details and touch **Sign Up**.
5. Follow the onscreen prompts to complete.

Google+

With Google+ you can check your friends' updates, post updates of your own, and chat with friends in your Google+ circles.

1. Sign in to your Google Account. See [Create a Google Account](#).
2. Touch  >  > **Google+** .
3. If you are signed into more than one Google Account, select the account you would like to use with Google+.
4. Follow the onscreen instructions to use Google+.

YouTube

YouTube is a video sharing website on which users can upload and share videos. The site is used to display a wide variety of user-generated video content, including movie clips, TV clips, and music videos, as well as video content such as video blogging, informational shorts and other original videos.

Open YouTube

- Touch  >  > **YouTube** .

Note: Terms of Service may appear. Touch **Accept**, if you agree to the Terms of Service.

Watch YouTube Videos

1. On the YouTube screen, touch a video.
2. Touch the screen to show the progress bar at the bottom. Touch the screen while the bar is displayed to pause/play the video. Move the slider on the bar to the left or right to rewind or fast-forward the video.

Search for Videos

1. On the YouTube screen, touch  at the upper right of the screen to open the search box.
2. Enter the keyword to search. Search results appear below the search box.
3. Touch one of the results, or touch  on the keyboard.
 - Scroll through the results and touch a video to watch it

Apps and Entertainment

All your phone's features are accessible through the Apps list.

Note: Available applications and services are subject to change at any time.

Google Play Store

Google Play™ is the place to go to find new Android apps, books, movies, and music for your phone. Choose from a wide variety of free and paid content ranging from productivity apps and games to bestselling books and blockbuster movies and music. When you find what you want, you can easily download and install it on your phone.

To access the Google Play store app, you must first connect to the Internet using your phone's Wi-Fi or 3G or 4G LTE data connection and sign in to your Google Account. See [Web and Data](#) and [Sign In to Your Google Account](#) for details.

Important: Our policies often do not apply to third-party applications. Third-party applications may access your personal information or require us to disclose your customer information to the third-party application provider. To find out how a third-party application will collect, access, use, or disclose your personal information, check the application provider's policies, which can usually be found on their website. If you aren't comfortable with the third-party application's policies, don't use the application.

Find and Install an App

When you install apps from Google Play app and use them on your phone, they may require access to your personal information (such as your location, contact data, and more) or access to certain functions or settings of your phone. Download and install only apps that you trust.

1. Touch  >  > **Play Store** .
2. When you open the Google Play Store app for the first time, the Terms of Service window will appear. Touch **OK** to continue if you agree to the Terms of Service.
3. Browse through the categories (**APPS**, **GAMES**, **MOVIES & TV**, or **BOOKS**), find an app you're interested in, and touch the name.

Note: The Google Play Store screen shots and options may vary depending on the version installed on your phone. Your Google Play Store app will update automatically when available.

4. Touch an app to read a description about the app and user reviews.

Tip: Once you've find the ones you like, you can add it to your wishlist by touching the Wishlist icon  at the top area of the screen for future reference.

5. Touch **INSTALL** (for free applications) or the price button (for paid applications).

Note: You need a Google Wallet account to purchase items on Google Play. See [Create a Google Wallet Account](#) to set up a Google Wallet account if you do not have one.

6. The subsequent screen notifies you whether the app will require access to your personal information or access to certain functions or settings of your phone. If you agree to the conditions, touch **ACCEPT** to begin downloading and installing the app.

- If you selected a paid app, after touching **ACCEPT**, follow the onscreen instructions to add a payment method and complete your purchase.

Warning: Read the notification carefully! Be especially cautious with applications that have access to many functions or a significant amount of your data. Once you touch **OK** on this screen, you are responsible for the results of using this item on your phone.

Create a Google Wallet Account

You must have a Google Wallet account associated with your Google Account to purchase items from the Google Play Store app.

Do one of the following:

- On your computer, go to google.com/wallet to create a Google Wallet account.
– or –
- The first time you use your phone to buy an item from Google Play, you're prompted to enter your billing information to set up a Google Wallet account.

Warning: When you've used Google Wallet once to purchase an application from the Google Play Store app, the phone remembers your password, so you don't need to enter it the next time. For this reason, you should secure your phone to prevent others from using it without your permission. (For more information, see [Screen Lock](#).)

Google Play Store Menu Options

The Google Play store app offers additional menu options for you to use.

- In the Google Play Store main page, touch the three-line icon  to display the following options:
 - **Store home** to return you to the Play Store main page.
 - **My Apps** to display the content you have installed in Google Play Store.
 - **My Wishlist** to view apps that you have previously added to your wishlist.
 - **Redeem** to redeem Google Play gift cards.

Note: The available options will vary depend on which area of the Google Play Store you are in.

Request a Refund for a Paid App

If you are not satisfied with an app, you can ask for a refund within 24 hours of the purchase. Your credit card is not charged and the app is uninstalled from your phone.

If you change your mind, you can install the app again, but you can't request a refund a second time.

1. Touch  >  > Play Store .
2. Touch  > My apps.
3. Touch the app to uninstall for a refund. The details screen for the app opens.
4. Touch **Refund**. Your app is uninstalled and the charge is cancelled.

Open an Installed App

There are options for opening an installed app.

1. Touch  > 
2. Locate the app, and then touch the icon.
– or –
1. Touch  >  > Play Store .
2. Touch  > My apps > INSTALLED tab.
3. Touch the app and then **OPEN** to open it.

Uninstall an App

You can uninstall any app that you have downloaded and installed from Google Play.

1. Touch  >  > Play Store .
2. Touch  > My apps > INSTALLED tab.
3. Touch the app you want to uninstall, and then touch **UNINSTALL**.
4. When prompted, tap **OK** to remove the app from your phone.
– or –

1. Touch  >  > **Settings**  > **Apps** > **DOWNLOADED** tab.
2. Touch the app you want to uninstall, and then touch **Uninstall**.
3. When prompted, touch **OK** to remove the app on your phone.

Get Help with Google Play

The Google Play store app offers an online help option if you have questions or want to know more about the app.

- In the Google Play Store, touch  > **Help**. The Web browser will take you to the Google Play Help Web page.

Navigation

Your phone offers a number of location-based navigation programs to help you figure out where you are and get you where you're going.

Enable Location Access on Your Phone

Before using any location-based services, you must enable your phone's GPS location feature.

1. Touch  >  > **Settings**  > **Location access**.
2. Touch the on/off slider to turn Access to my location feature on.
3. Read the message and touch **Agree** to enable **GPS satellites**.
4. Read the second message and touch **Agree** to enable **Wi-Fi & mobile network location**.

You also need to enable Google's location settings when you use any Google apps for location-based services.

To let Google apps access your location:

1. Touch  >  > **Settings**  > **Google** > **Location settings**.
- or –
- From the Maps main screen (see [Google Maps](#)), touch  > **Settings** > **Location settings** if you have not set up a Google Account.
2. Touch the on/off icon next to **Access my location** to enable the feature.

Google Maps

Use the Google Maps app to determine your location, find directions, browse local businesses and attractions, rate and review places, and more.

Enable Location Access on Your Phone

Before using any location-based services, you must enable your phone's GPS location feature. For more information about location access, see [Location Access](#).

1. Touch  >  > **Settings**  > **Location access**.
2. Touch **Access to my location** to turn location access on. Read the onscreen disclaimer and touch **Agree**.
3. Select the check boxes for your location options.
 - **GPS satellites** uses GPS to provide location accurate to street level.
 - **Wi-Fi & mobile network location** uses Wi-Fi and mobile networks to determine location.

Use Google Maps

1. Touch  >  > **Maps** .
2. When you open the Google Maps apps for the first time, the Welcome to Google Maps screen will appear. Touch **Accept & continue** if you agree to the Terms of Service and Privacy Policy.
 - If you are not signed in to a Google Account, sign in to or create a Google Account by touching **Sign in** > **Add Account** > **Existing** or **New** and following the onscreen instructions. See [Sign In to Your Google Account](#).
 - If you are signed in to a Google Account, touch **Skip** when you are prompted to select whether to enhance your Google Maps experience.
3. Do any of the following:
 - To move in any direction, drag or flick the map.
 - Use the spread and pinch gestures to zoom in and out on the map. To zoom in, double-touch the target place on the map.

Find Your Current Location

Note: Don't forget to set your location sources.

On the Google Maps screen, touch . A blue mark indicates your current location on the map. This feature is available when location settings are enabled. See [Move or Remove Items on the Home Screen](#).

Search Maps

1. On the Google Maps screen, touch  on the search box.
2. Type the place that you want to search. You can enter an address, a city, or type of establishment.
3. Touch a matching result on the drop-down list. A red callout label appears on the map to indicate the location.
4. Touch the red callout to open the menu for the location.

– or –

1. On the Google Maps screen, touch  on the search box.
2. Touch the Explore nearby banner and choose places to eat, drink, play, shop and sleep.
 - Below the Explore nearby banner, find other services such as convenience stores, post offices, petrol stations, and more.
3. Touch a location to see it on the map or get directions.
 - To clear your search, touch  to the right of the search box.

Layer and Additional Options

Layers allow you to view locations and additional info overlaid on the map.

- To access available layer and additional options menu, touch the three-line icon  in the bottom-left corner of the Maps screen.
 - A menu with available layers for your map will appear. Touch the name of the layer that you'd like to turn on for your map (e.g. **Traffic**).
 - For additional options, touch **Settings**, **Help**, or **Send feedback**.

Get Directions

1. On the Google Maps screen, touch .
2. Do one of the following:

- Select the way to get to the destination (by car, by train, by bicycle, or by foot).
- The starting point is set to your current location as default. Touch **My Location** to change your starting point place.
- Touch **Choose destination...** and type your destination or touch the destination from your history list.
- Touch  to switch the starting point and destination.
- Touch one of the offered route options to get more details.

Music

Your phone lets you discover, download, and listen to your favorite music through a variety of applications.

Google Play Music App

The Google Play Music app lets you browse, shop, and play back songs purchased from Google Play as well as songs you have loaded from your own music library. The music you choose is automatically stored in your Google Play Music library and instantly ready to play via streaming or download.

For more information about Google Play Music, visit play.google.com/about/music.

Note: For information about loading music onto your phone, see [Transfer Files Between Your Phone and a Computer](#).

Note: If you have signed up for Google Music™, the first time you open the Play Music application you will be prompted to select the account whose online music library you want to access from the Google Play Music application. Follow the onscreen instructions to continue.

Play Music with Google Play

1. Touch  >  >  **Play Music**.

2. The **Listen Now** screen appears. Find music based on what you've recently listened to, artists you like, and music that you've purchased recently.

3. Touch the Menu icon  next to the featured music for playback options:

- **Add to queue** to add an album or song to the end of your current playback queue.
- **Keep on device** to save music to your phone so that you can listen to music even when you don't have a data connection.
- **Add to playlist** to add the song to the playlist.

- **Go to artist** to visit your library to find music by the same artist.

Shop for Music from Google Play Music

1. Touch  >  > **Play Music** .
2. Touch the search icon  in the top right-hand corner of the screen to search through your available songs.
3. Type the name of an artist, album, song, or playlist. Matching songs are displayed in a list below the search box.
4. Touch a matching song to play it, touch a matching album, artist or playlist to view a list of its songs.

Google Play Music Tab Options

1. Touch  >  > **Play Music** .
2. Touch the three-line icon  in the top bar to open the side menu.
3. Touch one of the following tabs to manage and navigate through Play Music:
 - **Listen Now:** Makes it easy to figure out what to play next.
 - **My Library:** Lets you browse through your music categories (**GENRES**, **ARTISTS**, **ALBUMS**, and **SONGS**).
 - **Playlists:** Lets you create your own playlist and play it back.

Google Play Music Options

1. Touch  >  > **Play Music** .
2. On the Play Music main screen, touch  and choose from the following options:
 - **SETTINGS** to access your Google Play Music settings.
 - **HELP** to display application help information.

Google Play Movies & TV App

The Google Play Movies & TV app lets you connect to Google Play, download a movie or TV show, and then watch it instantly. Choose from thousands of movies and TV shows, including new releases and HD titles, and stream them on your Android phone. Previously rented or purchased titles are automatically added to your library across your phones or other Android devices.

For more information about Google Play Movies & TV, visit play.google.com/about/movies.

1. Touch  >  > Play Movies & TV 
 - Sign in to your Google Account if you have not already done so.
2. Follow the onscreen instructions for viewing movies.
3. In the top bar, touch an option to see what's available.
 - Touch the **Watch Now** tab to see a selection of movies available for purchase.
 - Touch the **My Movies** tab to view movies you have on your phone or memory card.
 - Touch the **My TV Shows** tab to view TV shows you have on your phone or memory card.
 - Touch the **Shop** tab to open the Play Store app and find items.

Google Play Books App

With Google Play Books, you can shop the world's largest selection of e-books and read them anywhere you like. Search and preview millions of books online.

1. Touch  >  > Play Books 
 - 2. Follow the onscreen instructions.
 - 3. In the top bar, touch an option to see what's available.
 - Touch the **Read Now** tab to see a selection of books available for purchase.
 - Touch the **My Library** tab to read books you have on your phone or memory card.
 - Touch **Shop** tab to open the Play Store app and find items.

Google Play Newsstand App

Google Play Newsstand allows you to discover more of the news and have them available to read on your phone at any time or any place.

1. Touch  >  > Play Newsstand 
 - 2. Follow the onscreen instructions.
 - 3. In the top bar, touch an option to see what's available.
 - Touch the **Read Now** tab to find articles recommended.
 - Touch the **My News** tab to organize your subscriptions and categories.

- Touch the **Bookmarks** tab to retrieve previously saved news items.
- Touch the **Explore** tab to search for new publications and articles based around their category.

ID

ID Packs are bundles of applications, ringtones, wallpapers, settings, and more. ID Packs are installed using an application called ID.

You can install as many as five ID Packs at any one time in addition to the default My ID Pack. You can easily switch from one ID Pack to another without losing any applications already installed.

Install Your ID Pack

A variety of ID Packs are available. Select your favorite pack and install it.

Note: Your phone must be activated, your battery should be fully charged, and you should be in a network coverage area before you install an ID Pack.

1. Touch  >  > .
2. Touch **Get New ID Packs** on the **Choose Your ID** screen.
3. Touch an ID Pack on the **Get New ID Packs** screen.
4. Read the information screen for a description of the ID Pack and touch **Install**.
5. Read the Terms & Conditions and touch **Agree** to begin the download.
6. Wait for the download to finish and the ID Pack will then begin installation automatically.

– or –

Touch **Continue** to continue using your phone. When the notification icon appears, slide the status bar down, and touch ID ready to install to complete the installation.

Switch ID Packs

You can switch to an installed ID Pack or install a new one.

1. Touch  >  > .
2. Touch an ID Pack to replace your current pack.

– or –

Touch **Get New ID Packs** to install a new ID Pack and follow steps 3-6 of [Install Your ID Pack](#).

Note: Certain features of ID are subject to change. For the most up-to-date information about using ID, please visit com.

Zone

Zone is a free application which helps you manage your account, get tips and tricks for your phone, find recommended apps, and more.

1. Touch  >  > 
2. From the Zone Web page, scroll up or down and touch an item to check your account, read the latest news about your phone, load an application, and more.

Currently, various applications, such as NASCAR Mobile '13, Scout GPS Navigation & Traffic, and TV & Movies are available through Zone. Access Zone for the latest information.

Web and Data

Your phone's data capabilities let you wirelessly access the Internet or your corporate network through a variety of connections, including Wi-Fi, 4G LTE, 3G, and Virtual Private Networks (VPN).

The following topics address your phone's data connections and the built-in Web browser. Additional data-related features can be found in [Accounts and Messaging](#), [Apps and Entertainment](#), and [Tools and Calendar](#).

Wi-Fi

Wi-Fi provides wireless Internet access over distances of up to 300 feet. To use your phone's Wi-Fi, you need access to a wireless access point or "hotspot."

The availability and range of the Wi-Fi signal depends on a number of factors, including infrastructure and other objects through which the signal passes.

Turn Wi-Fi On and Connect to a Wireless Network

Use the Wireless & networks setting menu to enable your phone's Wi-Fi radio and connect to an available Wi-Fi network.

1. Touch  >  > **Settings**  > **Wi-Fi**.
2. Touch the Wi-Fi slider to turn Wi-Fi on.
3. Touch **Wi-Fi**. The network names and security settings (open network or secured with WEP/WPA/WPA2 PSK) of detected Wi-Fi networks are displayed.
4. Touch a Wi-Fi network to connect. If you selected an open network, you will be automatically connected to the network. If you selected a network that is secured with a password, enter the password and then touch **Connect**.

Depending on the network type and its security settings, you may also need to enter more information or choose a security certificate.

When your phone is connected to a wireless network, the Wi-Fi icon () appears in the status bar and tells you the approximate signal strength. (The above icon indicates maximum signal strength.)

If **Network notification** in Advanced Wi-Fi settings is enabled, this icon () appears in the status bar whenever the phone detects an available open wireless network within range.

Note: The next time your phone connects to a previously accessed secured wireless network, you will not be prompted to enter the password again, unless you reset your phone to its factory default settings or you instruct the phone to forget the network.

Note: Wi-Fi networks are self-discoverable, which means no additional steps are required for your phone to connect to a Wi-Fi network. It may be necessary to provide a user name and password for certain closed wireless networks.

Check the Wireless Network Status

Check the status of your current wireless network, including speed and signal strength, through the Wi-Fi settings menu.

1. Touch  >  > **Settings**  > **Wi-Fi**.
2. Touch the wireless network that the phone is currently connected to. You will see a message box showing the Wi-Fi network name, status, speed, signal strength, and other details.

Note: If you want to remove the phone's wireless network settings, touch **Forget** on this window. You need to enter the settings again if you want to connect to this wireless network.

Connect to a Different Wi-Fi Network

Use the Wireless & networks settings to scan for and connect to a different Wi-Fi network.

1. Touch  >  > **Settings**  > **Wi-Fi**. Detected Wi-Fi networks are displayed in the Wi-Fi networks section. To manually scan for available Wi-Fi networks, on the Wi-Fi settings screen, touch  > **Scan**.
2. Touch another Wi-Fi network to connect to it.

Note: If the wireless network you want to connect to is not in the list of detected networks, touch  . Enter the wireless network settings and touch **Save**.

Connections Optimizer

The Connections Optimizer is a tool that automatically selects the best mobile network for your phone, including "remembered" Wi-Fi networks.

About Connections Optimizer

The Connections Optimizer helps you manage and enhance your data experience by finding and connecting to "remembered" Wi-Fi networks on your phone. Remembered Wi-Fi networks are networks with which you have previously chosen to connect. Active Wi-Fi connections may offer improved performance and generally improve battery life while allowing you to talk on the phone and use data at the same time.

The Connections Optimizer works by searching for available "remembered" Wi-Fi networks. If you do not leave your Wi-Fi antenna on all the time, you will only notice the Connections Optimizer operating at certain times of the day in a small number of locations on the network. Your Wi-Fi antenna will conserve battery by scanning for connections periodically (not continuously), and if no connection is achieved, the antennas will be turned off. You may also manually turn the antennas off during the scan period.

To facilitate quality assurance and enable feature enhancements, information is collected about your battery levels, Wi-Fi and network connections and usage. No personal information is collected.

Enable Connections Optimizer

1. Touch  >  > **Settings**  > **More...** > **Mobile networks** > **Connections Optimizer**. You will see a disclaimer.
2. Read the disclaimer and touch **I Agree** to turn Connections Optimizer on.

Disable Connections Optimizer

1. Touch  >  > **Settings**  > **More...** > **Mobile networks** > **Connections Optimizer**.
2. Uncheck the box on the Connections Optimizer page.

Data Services

The following topics will help you learn the basics of using your data services, including launching a data connection, and navigating the Web with your phone.

Important: Certain data services requests may require additional time to process. While your phone is loading the requested service, the touchscreen keyboard may appear unresponsive when in fact they are functioning properly. Allow the phone some time to process your data usage request.

Launch a Web Connection

Launching a Web connection is as simple as opening the browser on your phone.

- Touch  >  > **Browser** . (Your data connection starts and you see the home page.)

Note: Internet connections can be made either through 3G or 4G LTE service or via Wi-Fi (configured within the **Settings > Wi-Fi** page).

While connecting, you may see an animation. Once complete, you are connected to the default home page.

Tip: To change the phone's default launch page to your current page, touch  > **Settings** > **General** > **Set homepage** > **Current page**. See [Set the Browser Home Page](#) for details.

Note: The Browser automatically launches when a Web link is touched from within either an email or text message.

Data Connection Status and Indicators

Your phone displays the current status of your data connection through indicators at the top of the screen. The following symbols are used:

Icon	Description
	Your phone is connected to the 4G LTE network.
	Your phone is connected to the 3G network.

If you do not see an indicator, your phone does not have a current data connection. To launch a connection, see [Launch a Web Connection](#).

Virtual Private Networks (VPN)

From your phone, you can add, set up, and manage virtual private networks (VPNs) that allow you to connect to and access resources inside a secured local network, such as your corporate network.

Prepare Your Phone for VPN Connection

Depending on the type of VPN you are using at work, you may be required to enter your login credentials or install security certificates before you can connect to your company's local network. You can get this information from your network administrator.

Before you can initiate a VPN connection, your phone must first establish a Wi-Fi or data connection. For information about setting up and using these connections on your phone, see [Launch a Web Connection](#) and [Turn Wi-Fi On and Connect to a Wireless Network](#).

Set Up Secure Credential Storage

Your network administrator may instruct you to download and install security certificates to connect to the network.

1. Download and install the certificates needed to access your local network into a microSD card. Your network administrator can tell you how to do this.
2. Insert the microSD card into your phone. See [Insert a microSD Card](#).
3. Touch  >  > **Settings**  > **Security** > **Install from SD card**, and install the necessary security certificates.

Add a VPN Connection

Use the Wireless & networks settings menu to add a VPN connection to your phone.

1. Touch  >  > **Settings**  > **More...** > **VPN**.
 - If you are asked to set up a screen lock, touch **OK** and set up a required type of lock. To set up a screen lock, see [Screen Lock](#).
2. Touch **Add VPN profile**, and then enter the information for the VPN you want to add.
 - Information may include Name, Type, Server address, PPP encryption (MPPE), and advanced options.
 - Set up all options according to the security details you have obtained from your network administrator.
3. Touch **Save**.

The VPN is then added to the VPNs section of the VPN settings screen.

Connect to or Disconnect from a VPN

Once you have set up a VPN connection, connecting and disconnecting from the VPN is easy.

Connect to a VPN

1. Touch  >  > **Settings**  > **More...** > **VPN**.
2. In the VPN section, touch the VPN that you want to connect to.
3. When prompted, enter your login credentials, and then touch **Connect**. When you are connected, a VPN connected icon appears in the notification area.
4. Open the Web browser to access resources such as intranet sites on your corporate network. (For more information about browsing the Web, see [Learn to Navigate the Browser](#).)

Disconnect from a VPN

1. Drag the status bar down to open the Notifications panel.
2. Touch the VPN notification and then touch **Disconnect**.

When your phone has disconnected from the VPN, the VPN connected icon disappears from the notification area of the title bar.

Browser

Your phone's Web browser gives you full access to both mobile and traditional websites on the go, using 3G, 4G LTE, or Wi-Fi data connections.

Launch the Web Browser

Launching the browser is as easy as touching an icon.

- Touch  >  > **Browser** .

Tip: Your phone may support additional Web browsers, such as Google Chrome.

Learn to Navigate the Browser

Navigating through menus and websites during a data session is easy once you have learned a few basics.

Note: Before you access the default home page, you may be asked to enter your 10-digit wireless phone number and touch **OK**. Entering your phone number is not required for access to other Web pages.

Scrolling

As with other parts of your phone's menu, you'll have to drag up and down to see everything on some websites.

To scroll through a website's page:

- In a single motion, touch and drag across or up and down a page.

Selecting

To select onscreen items or links:

- Drag across a page, and then touch an item or touch an onscreen link to select the link.

Links, which are displayed as underlined text, allow you to jump to Web pages, select special functions, or even place phone calls.

Pinching and Zooming

Zooming in and out on a Web page can be done by using your fingers to pinch in or spread out on the screen.

To zoom in:

1. Place your thumb and index finger on the screen.
2. Expand them outward (spread) to zoom in.

To zoom out:

1. Place your thumb and index finger on the screen.
2. Bring them together (pinch) to zoom out.

Go Back

To go back one page:

- Touch  on your phone. Repeat this process to keep going back through your Web page history of recently visited pages.

Go to a Web Page

1. Touch the Address field (top of the browser window) and enter a new Web address.
 - As you enter the address, possible matches are displayed within an onscreen list. Touch an entry to launch the desired website.
2. Touch **Go** on the keyboard to launch the new page.

Browser Menu

The browser menu offers additional options to expand your use of the Web on your phone.

Open the Browser Menu

The browser menu may be opened anytime you have an active data session, from any page you are viewing.

1. Touch  >  > **Browser** .
2. From any open Web page, touch . You will see the browser menu.

Options available within the browser menu may include:

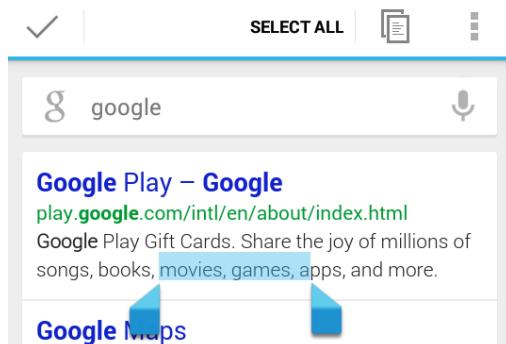

- **Stop:** Stops loading the current Web page. (This option will only display while a page is loading.)
- **Refresh:** Reloads the current Web page.
- **Forward:** Returns you to a previously viewed page.
- **Homepage:** Returns you to the home page.
- **Bookmarks:** Allows you to access and manage your bookmarks.
- **Save to bookmarks:** Adds the currently viewed page to bookmarks.

- **Share page:** Allows you to share the URL via Gmail, SMS, Email, Bluetooth, etc.
- **Find on page:** Allows you to search in the current page.
- **Request desktop site:** Allows you to assign the browser to display the current page in the desktop view (to closely mimic the display as it would appear on a Desktop computer).
- **Save for offline reading:** Saves the Web page so you can read it later even when offline.
- **Settings:** Allows you to modify your Web settings. For more information, see [Adjust Browser Settings](#).

Select Text on a Web Page

You can highlight text on a Web page and copy it, search for it, or share it.

1. Touch > > **Browser** , and navigate to a Web page.
2. Touch and hold to the area of the page containing the desired text.
3. Touch and drag the blue markers across the screen to highlight the desired text.

- **SELECT ALL:** Touch to select all text on the Web page.
- **Copy** : Touch to copy the selected text.
- **Menu** : Touch to select one of the following:
 - **Share** to share the selected text via Bluetooth, Gmail, or messaging, etc.
 - **Find** to search for all instances of the selected text in the current Web page.
 - **Web Search** to launch a Web search for the selected text.

Go to a Specific Website

Follow the instructions to go to a particular website by entering a URL (website address).

1. Touch the **URL** field and enter a website address.
 - As you type the address, if your desired website appears within the suggested sites list, touch the entry to begin surfing.
2. Touch **Go**.

Note: Not all websites are viewable on your phone.

Adjust Browser Settings

You can control many of the settings for your browser through the browser settings menu, including general page settings, privacy and security, accessibility settings, advanced settings such as Javascript and plug-ins, bandwidth management, and labs settings.

1. Touch  >  > **Browser** .
2. From any open Web page, touch  > **Settings**. You will see the browser settings menu.
3. You can access the following settings menus:
 - **General**
 - **Set homepage:** Sets the current home page for the Web browser.
 - **Form auto-fill:** Fills out Web forms with a single touch.
 - **Auto-fill text:** Sets up text to auto-fill in Web forms.
 - **Privacy & security**
 - **Clear cache:** Deletes all currently cached data. Touch **OK** to complete the process.
 - **Clear history:** Clears the browser navigation history. Touch **OK** to complete the process.
 - **Show security warnings:** Notifies you if there is a security issue with the current website. Clear the check mark to disable this function.
 - **Accept cookies:** Allows sites that require cookies to save and read cookies from your phone.
 - **Clear all cookie data:** Clears all current browser cookie files.

- **Remember form data:** Allows the phone to store data from any previously filled-out forms. Clear the check mark to disable this function.
 - **Clear form data:** Deletes any stored data from previously filled out forms. Touch **OK** to complete the process.
 - **Enable location:** Allows sites to request access to your current location (using the built-in GPS function).
 - **Clear location access:** Clears location access for all websites. Touch **OK** to complete the process.
 - **Remember passwords:** Stores user names and passwords for visited sites. Clear the check mark to disable this function.
 - **Clear passwords:** Deletes any previously stored usernames or passwords. Touch **OK** to complete the process.
- **Accessibility**
 - **Force enable zoom:** Overrides a website's request to control zoom behavior.
 - **Text scaling:** Changes text size as you see on its preview screen.
 - **Zoom on double-tap:** Sets the zoom magnification when you double-tap the screen.
 - **Minimum font size:** Sets the minimum font size on the Web as you see on its preview screen.
 - **Inverted rendering:** Inverts the screen image. Black becomes white and vice versa.
 - **Contrast:** When **Inverted rendering** is enabled, you can set the contrast using the slider.
 - **Caption Settings:** Changes the appearance of text captions.
 - **Caption Language:** Selects the caption language to display.
 - **Advanced**
 - **Set search engine:** Sets the search engine.
 - **Open in background:** New pages are launched in a separate page and displayed behind the current one. Clear the check mark to disable this function.
 - **Enable JavaScript:** Enables JavaScript for the current Web page. Without this feature, some pages may not display properly. Clear the check mark to disable this function.

- **Allow multiple tabs per app:** Allows you to use multiple navigation tabs per application.
 - **Enable plug-ins:** Allows you to determine the way your phone handles program enhancements. Select **Always on**, **On demand**, or **Off**.
 - **Website settings:** Allows you to configure advanced settings for individual websites.
 - **Default zoom:** Sets the default browser viewing size. Choose from: **Far**, **Medium**, or **Close**.
 - **Open pages in overview:** Provides an overview of the recently opened pages.
 - **Auto-fit pages:** Allows Web pages to be resized to fit as much of the screen as possible.
 - **Block pop-ups:** Prevents pop-up advertisements or windows from appearing onscreen. Clear the check mark to disable this function.
 - **Text encoding:** Adjusts the current text encoding.
 - **Reset to default:** Resets the browser settings to default.
- **Bandwidth management**
 - **Search result preloading:** Allows browser to preload high confidence search results in the background.
 - **Web page preloading:** Allows browser to preload linked Web pages in the background.
 - **Load images:** Displays images on Web pages.
 - **Labs**
 - **Quick controls:** Opens the Quick controls and hide application and URL bars.
 - **Fullscreen:** Enables the full screen mode and hide the status bar.

Create Website Settings

You can create settings for individual websites.

1. Touch  >  > **Browser** .
2. From any open Web page, touch  > **Settings** > **Advanced** > **Website settings**.
3. Select the settings you want to configure for the current website.

Reset the Browser to Default

You always have the option to restore your browser to its default settings.

1. Touch  >  > **Browser** .
2. From any open Web page, touch  > **Settings** > **Advanced** > **Reset to default**.
3. Touch **OK** to complete the process.

Set the Browser Home Page

Customize your Web experience by setting your browser's home page.

1. Touch  >  > **Browser** .
2. From any open Web page, touch  > **Settings** > **General** > **Set home page**.
3. Select an option to set your browser's home page.
 - **Current page** to set the current page as the home page.
 - **Blank page** to set a blank page as the home page. It helps new Browser windows to open more quickly.
 - **Default page** to set a factory default URL as home page.
 - **Most visited sites** to select a home page from a list of recently visited sites.
 - **Other** to enter a specific website address for your home page. Touch **OK** to complete the process.

Create Bookmarks

Make browsing easier by setting up and using custom bookmarks.

1. From any open Web page, touch  > **Bookmarks**. Three tabs are revealed:
 - **BOOKMARKS:** Displays a list of your current Web bookmarks.
 - **HISTORY:** Displays a record of your browsing history. These records are organized into folders such as: **Today**, **Yesterday**, **Last 7 days**, and **Most visited**.
 - **SAVED PAGES:** Displays a list of websites you saved for offline reading. Touch an entry to launch the selected page.
2. Touch **Add bookmark** (first entry in the Bookmarks tab).

3. Enter a descriptive name for the new bookmark and touch **OK** to store the new entry to your Bookmarks list.

Create Bookmarks from Other Tabs

1. From any open Web page, touch > **Bookmarks**.
2. Touch either the **HISTORY** or **SAVED PAGES** tab.
3. Touch and hold an entry from the list to display an onscreen popup menu.
4. Touch **Save to bookmarks** to add the selected entry to your current list of bookmarks.
– or –
 1. Repeat steps 1 and 2 above.
 2. Touch the star icon adjacent to a website address. Edit the necessary info and touch **OK**. The star now turns white. This adds the “starred” website to your current Bookmarks list.

Create a New Homepage

Select any previously visited Web page to display as your home page.

1. From any open Web page, touch > **Bookmarks**.
2. Touch your desired tab.
3. Touch and hold an entry from the list to display an onscreen popup menu.
4. Touch **Set as homepage** to assign the selected entry as your new homepage.

Add Bookmarks to Your Home Screen

You can add Web bookmarks to your phone’s home screen for quick access.

1. From any open Web page, touch > **Bookmarks**.
2. Touch and hold an existing entry from the list to display an onscreen popup menu.
3. Touch **Add shortcut to Home screen** to add the selected entry to your Home screen.

Portable Wi-Fi Hotspot

Portable Wi-Fi Hotspot allows you to turn your phone into a Wi-Fi hotspot.

Set Up Portable Wi-Fi Hotspot

1. Touch > > **Portable Wi-Fi hotspot** .

2. Touch **OK** on the introduction screen.
3. Touch the **Portable Wi-Fi hotspot** checkbox to activate the service.

– or –

1. Touch  >  > **Settings**  > **More...** > **Tethering & portable hotspot**.
2. Touch the **Portable Wi-Fi hotspot** checkbox to activate the service.

Note: Using both 4G LTE service and hotspot drain your phone's battery at a much faster rate than when using any other feature combination. The best way to keep using the phone as a hotspot is to have it connected to a power supply.

Important: Write down the passkey (password) for this communication (shown onscreen).

Connect to Portable Wi-Fi Hotspot

1. Enable Wi-Fi (wireless) functionality on your target device (laptop, media device, etc.).
2. Scan for Wi-Fi networks from the device and select your phone hotspot from the network list.
 - The name for your phone hotspot can be changed by touching  >  > **Portable Wi-Fi hotspot**  > **Network SSID**.
3. Select this device and follow your onscreen instructions to enter the passkey (provided on the Portable Wi-Fi hotspot page).
4. Launch your Web browser to confirm you have an Internet connection.

Configure Portable Wi-Fi Hotspot

1. Touch  >  > **Portable Wi-Fi hotspot** .

– or –

Touch  >  > **Settings**  > **More...** > **Tethering & portable hotspot** > **Set up Wi-Fi hotspot**.

2. Set the following options:
 - **Network SSID:** Sets your network name.
 - **SSID broadcast:** Selects the check box to broadcast the SSID.
 - **Security:** Sets the security level.

- **Password:** Sets a password if necessary.
- **Maximum Wi-Fi clients:** Sets the maximum Wi-Fi clients that can connect to your phone.
- **Auto off:** Sets the length of time to elapse when your hotspot feature is disabled if there is no device connected.
- **Channel:** Selects the channel you want to use.
- Touch  > **Advanced:** Sets the advanced settings, such as local router IP settings or DHCP server settings.

When the portable Wi-Fi hotspot is active and is ready to share its connection, the hotspot icon  appears on the status bar.

Phone as Modem

You can tether your phone to your computer with a USB cable, to share your phone's Internet connection with your computer.

1. Touch  >  > **Settings**  > **More...** > **Tethering & portable hotspot**.
2. Select the **Phone as Modem** check box to turn on the tethered mode.

When the tethered mode is active, the tethered mode icon  appears on the Notifications panel.

If you want to use your phone in tethered mode whenever it is connected to a PC, select Phone as modem in Default connection type of PC connection. See [PC Connection Settings](#).

Bluetooth Tethering

You can share your phone's Internet connection with Bluetooth devices via Bluetooth.

1. With your phone connected to the Internet, touch  >  > **Settings**  > **More...** > **Tethering & portable hotspot**.
2. Select the **Bluetooth tethering** check box.
3. Pair your phone with a Bluetooth device. If they are already paired, establish their connection. See [Connect a Bluetooth Headset or Car Kit](#) or [Reconnect a Headset or Car Kit](#) for details.

When the Bluetooth tethered mode is active, the Bluetooth tethered icon  appears on the Notifications panel and the paired Bluetooth device is connected to the Internet.

Camera and Video

You can use the camera or video camera to take and share pictures and videos. Your phone comes with a 8.0 megapixel main camera with an autofocus feature that lets you capture sharp pictures and videos.

Take Pictures

The following topics teach you how to take pictures with your phone's camera.

Open or Close the Camera

You can open the camera through the applications list. In addition to using the applications list to open the camera, you may be able to launch the camera from within other applications such as Contacts or Messaging.

Open the Camera

- Press and hold the **Camera** button on the lower right side of the phone.

– or –

Touch  (the camera shortcut) on the home screen.

– or –

Touch  >  > Camera .

Tip: If you have set the Camera shortcut on the lock screen, you can directly access to camera. From the lock screen, swipe the screen towards **Camera** .

Close the Camera

- On the camera screen, touch  or .

Viewfinder Screen

The Viewfinder screen lets you view your subject and access camera controls and options.

- **Settings:** Opens the camera settings menu and lets you change the camera settings. For more information, see [Camera and Video Camera Settings](#).
- **Switch to:** Switches between the back-facing camera lens and the front-facing camera lens (for self portraits, video chatting, etc.).
- **Zoom slider:** Allows you to adjust your zoom level. Touch to zoom in and out of an image.
- **Thumbnail:** Displays the thumbnail of the latest image. Touch to view and manage.
- **Battery Icon:** Displays how full the battery is.
- **Storage Area:** Displays where the pictures you take will be saved; the phone's internal storage or optional microSD card.
- **Focus settings:** Displays your focus settings. You can select the focus setting from **Continuous AF**, **Face detection**, **Macro**, and **Infinity**.
- **Shutter Button:** Takes a picture.
- **Record Button:** Records a video.

Take a Picture

You can take high-resolution pictures using your phone's camera.

1. Press and hold the **Camera** button on the lower right side of the phone.

– or –

Touch  >  > Camera .

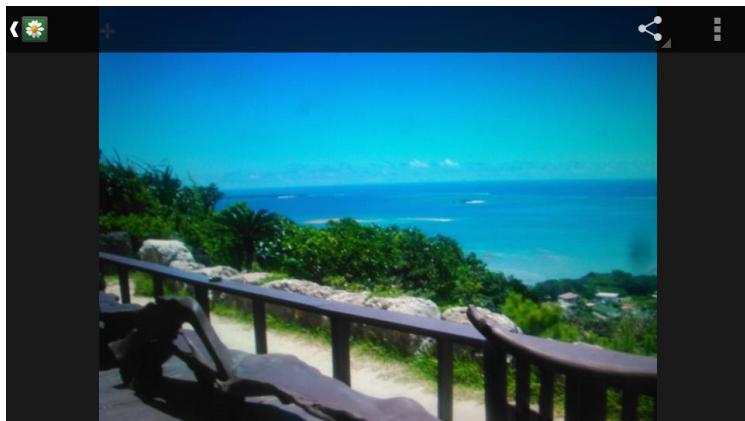

2. Before taking the picture, touch onscreen icons to access various camera options and settings. See [Camera and Video Camera Settings](#).
3. Frame your subject on the screen.

Tip: Hold the phone vertically when taking portrait shots or hold the phone horizontally when taking landscape shots.

4. Touch  to take the picture.
5. Choose what you want to do with the picture you've just taken. See [Camera Review Screen](#) for details.

Camera Review Screen

After capturing a picture, touch the thumbnail image to see the item on the review screen. From there, you can access options such as share, delete, and more.

-  **Gallery:** Opens the Gallery application. See [View Pictures and Videos Using Gallery](#).
-  **Share:** Displays the available applications to share your image.
-  **Menu:** Displays additional picture or video options. These options may include:
 - **Delete** to delete the currently displayed image. Confirm the deletion by touching **OK**.
 - **Slideshow** to start the slideshow of the images stored.
 - **Rotate left/Rotate right** to rotate the view of the currently displayed image.

- **Crop** to crop the currently displayed image.
- **Set picture as** to set the currently displayed image as the contact photo or wallpaper.
- **Details** to show the detailed information of the currently displayed image.

Record Videos

Record high-quality videos using your phone's video camera.

1. Press and hold the **Camera** button on the lower right side of the phone.

– or –

Touch  >  > Camera .

2. Frame your subject on the screen.

3. Touch  to start capturing video.

4. Touch  to stop recording.

Camera and Video Camera Settings

Follow the steps below to change the advanced settings on your camera.

1. Press and hold the **Camera** button on the lower right side of the phone.

– or –

Touch  >  > Camera .

2. Choose camera or video mode. Touch **Settings**  to display the advanced settings menu. You can change the following settings from the Settings menu:

-  **Mode:** Select from **Normal**, **Color effect**, **Continuous shooting**, **Smile shutter**, **HDR**, **Panorama**, or **Quick shot**.
 - **Normal:** Takes a normal picture.
 - **Color effect:** Adds a color effect to the picture.
 - **Continuous shooting:** Takes up to 30 pictures continuously while touching and holding the shutter button.
 - **Smile shutter:** Detects a smile on a face and automatically takes a picture without your touching the shutter button.
 - **HDR:** Takes three pictures at different exposure levels and combines them into one picture. It compensates the loss of detail at each exposure level and helps produce a clear and detailed picture. The shutter sounds only once while taking the three pictures.
 - **Panorama:** Takes a panorama picture as you pan the phone sideways.
 - **Quick shot:** Allows you to take pictures with a minimum shutter lag time.
-  **Scene:** Selects from **Auto**, **Portrait**, **Landscape**, **Night portrait**, **Night landscape**, or **Action**.
-  **WB:** Allow you to set white balance. Selects from **Auto**, **Daylight**, **Cloudy**, **Incandescent**, or **Fluorescent**.
-  **Flash:** Selects from **Auto**, **On**, or **Off**.
-  **More:** Displays additional camera and video camera settings. You can change the following settings:
 -  **Picture size:** Selects from **8.0MP(3264x2448)**, **w6.0MP(3264x1836)**, **5.0MP(2560x1920)**, **3.2MP(2048x1536)**, **2.0MP(1600x1200)**, **0.8MP(1024x768)**, **qHD(960x540)**, or **VGA(640x480)**.
 -  **Video size:** Selects from **HD(1080p)**, **HD(720p)**, **DVD(480p)**, **VGA**, **QVGA**, or **MMS(30s)**.

-  **Focus settings:** Selects from **Continuous AF**, **Face detection**, **Macro**, or **Infinity**.
-  **Auto exposure:** Selects from **Center weighted**, **Frame average**, or **Spot metering**.
-  **Brightness:** Selects from **Auto** or **Manual**.
-  **Contrast:** Selects from **Auto** or **Manual**.
-  **Self-timer:** Selects from **Off**, **3 seconds**, **5 seconds**, or **10 seconds**.
-  **Select ISO:** Selects from **Auto**, **100**, **200**, **400**, or **800**.
-  **Auto review:** Selects from **off**, **2 seconds**, or **No limit**.
-  **Blink detection:** Lets you know right away whether one of your subjects blinked. Selects from **On** or **Off**.
-  **Picture quality:** Selects from **Super fine**, **Fine**, or **Normal**.
-  **Camera key:** Allows you to set the behavior of the camera button. Choose from: **Take a picture** or **Record a video**.
-  **Store location:** Stores the location information of the image. Selects from **On** or **Off**.
-  **Auxiliary line:** Selects from **Off** or **Grid**.
-  **Time lapse recording:** Allows you to capture in the interval shooting mode. Selects from **Off**, **1s**, **1.5s**, **2s**, **2.5s**, **3s**, **5s**, or **10s**.
-  **Audio recording:** Selects from **Unmute** or **Mute**.
-  **Video format:** Selects from **MPEG-4** or **3GPP**.
-  **Default settings:** Resets all the camera settings to the factory default settings. Touch **OK** to confirm.

Note: If you select items other than **Auto** for **Camera scene**, you cannot select **Flash mode**, **Focus settings**, **Auto exposure**, **Brightness**, **Select ISO**, and **White balance**.

Use Panorama Mode

Panorama mode allows you to create a panoramic picture by stitching multiple shots together.

1. Press and hold the **Camera** button on the lower right side of the phone.

– or –

Touch  >  > Camera .

2. Touch  > **Mode** > **Panorama**.

Shortcut: You can also touch  >  > **Panorama** to active the panorama mode.

3. Holding the phone in landscape mode, touch **START**.
4. The directional arrow and the red line will appear on the screen and you will be prompted to pan to the right in landscape view.
5. A blue line appears in the viewfinder, so you can use this to assist in maintaining correct vertical alignment.
6. Continue to move right as slowly as you can.
 - When you want to stop capturing, touch the **Finish** button.
7. Once you reach maximum panorama length, you will see a message. Touch **OK**. The camera will automatically stitch together consecutive shots.
8. Touch **Done**.

Tip: You can change the picture size and GPS settings from the settings menu. While in panorama mode, touch **MENU** and select an option.

View Pictures and Videos Using Gallery

Using the Gallery application, you can view pictures and watch videos that you've taken with your phone's camera, downloaded, or copied onto your storage card or phone memory.

For pictures that are on your storage card or phone memory, you can do basic editing such as rotating and cropping. You can also easily assign a picture as your contact picture or wallpaper and share pictures with your friends.

Open or Close Gallery

The Gallery app opens in the Albums tab where your pictures and videos are organized by albums for easy viewing.

Open the Gallery App

1. Touch  >  > **Gallery** .

2. Touch a folder location (such as Camera), and then touch an image to view the picture.

If you stored your files in folders (directories) on the microSD card or phone memory, Gallery will display these folders as separate albums.

Folders in your storage card or phone memory that contain pictures and videos will also be treated as albums. The actual folder names will be used as the album names. If you have downloaded any pictures and videos, these will be placed in the **Download** album.

When viewing pictures in Gallery, you can touch   in the upper left corner to return to Album view. Touch an album to view the pictures or videos in that album.

Note: Depending on the number of pictures stored, it may take some time for Gallery to load all your pictures on the screen.

Close the Gallery App

■ To close the Gallery app and return to the home page, touch .

View Pictures and Videos

You can access and view all your stored pictures and videos from your phone's Gallery.

1. Touch  >  > **Gallery** .

2. Touch an album (such as Camera), and then touch an image to view the picture.

After selecting an album from the Albums tab, you can browse through the pictures and videos of that album. Touch a picture or video to view it in full screen. By default, the pictures and videos in an album are displayed in grid view.

Note: When viewing pictures in the Grid view, you can touch and hold on a picture or video to open a selection menu and choose what to do with the picture or video.

Note: If you want to select another album, touch  to return to the Albums tab.

Zoom In or Out on a Picture

There are two ways you can zoom in or out of a picture.

- Touch the screen twice quickly to zoom in, and then touch the screen twice quickly again to zoom out.

– or –

Use pinch and spread to zoom in or out. “Spread” the screen using your thumb and forefinger to zoom in when viewing a picture. “Pinch” the screen to zoom out. (Move fingers outward to zoom in and inward to zoom out.)

Watch Video

Use the onscreen controls to play, pause, or stop the video.

1. Touch  >  > **Gallery** .
2. Touch an album containing a video you want to watch, and then touch an image to view the video.
 - Touch  to play the video
 - Touch  to pause the video
 - Drag the dot on the timeline to rewind or forward the video.

Work with Pictures

Whether you’re browsing pictures in filmstrip or grid view in the Gallery application, you can touch and hold on a picture to open a selection menu and choose to delete the picture, rotate or crop it, and more.

Picture Options Menu

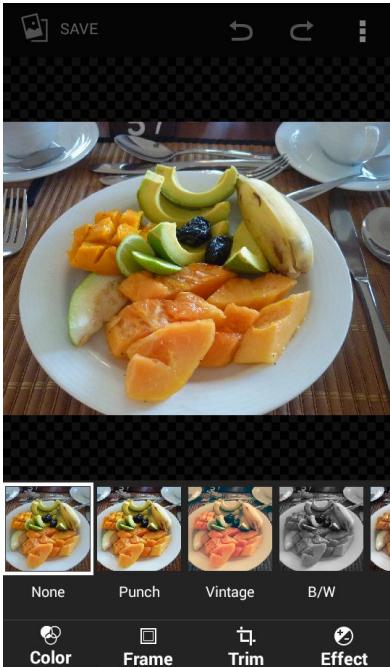

With a picture displayed, touch  to open a selection menu and choose what to do with it:

- **Delete** to erase the currently selected picture.
- **Slideshow** to start the slideshow of the pictures stored.
- **Edit** to edit the currently selected picture.
- **Rotate left/Rotate right** to rotate the view of the currently selected picture.
- **Crop** to crop the currently selected picture.
- **Set picture as** to set the picture as the contact photo or wallpaper.
- **Details** to show the detailed information of the image.

Edit a Picture

Your phone has a built in editing tool that allows you to easily alter the picture you just took.

1. Touch  >  > **Gallery** .
2. Touch an album and then touch a picture.
3. Touch .

4. Touch the following icon to edit the picture and scroll left and right to select your favorite effect.
 -  to change the color of the picture.
 -  to select a frame for the picture.
 -  to modify the picture.
 -  to add color effect to the picture.
 -  to undo the action.
 -  to redo the action.

-  to display the options menu.

5. When finished, touch **SAVE**.

Rotate and Save a Picture

When you open the picture in album, you can rotate and save the picture.

1. Touch  >  > .
2. Touch an album.
3. Touch the picture you want to rotate.
4. Touch  and select either **Rotate left** or **Rotate right**.

Crop a Picture

You can resize or crop your pictures according to your needs.

1. Touch  >  > .
2. Touch an album.
3. Touch the picture you want to crop.
4. Touch  > **Crop**. A crop box then appears on the picture.
5. To adjust the crop box size, touch and hold the edge of the box. When blue dots appear, drag your finger inward or outward to resize the crop box.
6. To move the crop box to the part of the picture that you want to crop, drag the crop box to the desired size and position.
7. Touch **SAVE** to apply the changes to the picture.

The cropped picture is saved in the album as a copy. The original picture remains unedited.

Share Pictures and Videos

The Gallery application lets you send pictures and videos using email or multimedia messages. You can share pictures on your social networks (such as Facebook, FlickrTM, PicasaTM, and Twitter) and share videos on YouTube. You can also send them to another phone or your computer using Bluetooth.

Send Pictures or Videos by Email

You can send several pictures, videos, or both in an email or Gmail message. They are added as file attachments in your email. For more information about using email and Gmail, see [Compose and Send Email](#) or [Send a Gmail Message](#).

1. Touch  >  > .
2. Touch the album that contains the pictures or videos you want to share.
3. Touch the pictures or videos you want to share.
 - To select multiple items, touch and hold an image to turn on multiple select. Touch all the items you want to include.
4. Touch  and then on the Share via menu, touch **Email** or **Gmail**.
5. Address and compose your message and then touch **Send** .

Note: If you selected **Email** and you have multiple email accounts, the default email account will be used.

For more information about using email and Gmail, see [Compose and Send Email](#) or [Send a Gmail Message](#).

Send a Picture or Video by Multimedia Message

Multimedia Messaging (MMS) lets you send pictures and videos using your phone's messaging app. Although you can send several pictures or videos in a multimedia message, it may be better to send one at a time, especially if the files are large in size.

1. Touch  >  > .
2. Touch the album that contains the pictures or videos you want to share.
3. Touch the pictures or videos you want to share.
 - To select multiple items, touch and hold an image to turn on multiple select. Touch all the items you want to include.
4. Touch  and then on the Share via menu, touch **Messaging**.
5. Compose your message and then touch .

For more information about sending multimedia messages, see [Send a Multimedia Message \(MMS\)](#).

Send Pictures or Videos Using Bluetooth

You can select several pictures, videos, or both and send them to someone's phone or your computer using Bluetooth.

1. Touch  >  > **Gallery** .
2. Touch the album that contains the pictures or videos you want to share.
3. Touch the pictures or videos you want to share.
 - To select multiple items, touch and hold an image to turn on multiple select. Touch all the items you want to include.
4. Touch  and then on the Share via menu, touch **Bluetooth**.
5. In the next few screens, you'll be asked to turn on Bluetooth on your phone and connect to the receiving Bluetooth device so the files can be sent. For more information, see [Bluetooth](#).

Share Pictures and Videos on Facebook

You can share pictures and videos from your phone directly to your Facebook account. You need to be logged in to your Facebook account to upload pictures and videos.

1. Touch  >  > **Gallery** .
2. Touch the album that contains the pictures or videos you want to share.
3. Touch the pictures or videos you want to share.
 - To select multiple items, touch and hold an image to turn on multiple select. Touch all the items you want to include.
4. Touch  and then on the Share via menu, touch **Facebook**.
5. Add a caption and then touch **Post**.
6. Check the status bar for the upload information.

Share Pictures and Videos on Google+

You need to be signed in to a Google Account to share pictures and videos on Google+.

1. Touch  >  > **Gallery** .
2. Touch the album that contains the pictures or videos you want to share.

3. Touch and hold the picture or video until you see a blue frame around it. Touch multiple pictures and videos to select them.
4. Touch  and then on the Share via menu, touch **Google+**.
5. Follow the instructions on the screen.

Share Pictures on Picasa

You need to be signed in to a Google Account to upload pictures to the Picasa™ picture organizing service.

1. Touch  >  > **Gallery** .
2. Touch the album that contains the pictures or videos you want to share.
3. Touch the pictures or videos you want to share.
 - To select multiple items, touch and hold an image to turn on multiple select. Touch all the items you want to include.
4. Touch  and then on the Share via menu, touch **Picasa**.
5. Select the online album where you want to upload the pictures, or touch  to create a new album.
6. Touch **Upload**. You can view the pictures online at picasaweb.google.com.

Share Videos on YouTube

You can share your videos by uploading them to YouTube. Before you do this, you must create a YouTube account and sign in to that account on your phone.

1. Touch  >  > **Gallery** .
2. Touch the album that contains the pictures or videos you want to share.
3. Touch the videos you want to share.
 - To select multiple videos, touch and hold an image to turn on multiple select. Touch all the videos you want to include.
4. Touch  and then on the Share via menu, touch **YouTube**.
5. Enter the prompted information, such as description and tags, and select a privacy option.
 - Touch .

Tools and Calendar

Learn how to use many of your phone's productivity-enhancing features.

Calendar

Use Calendar to create and manage events, meetings, and appointments. Your Calendar helps organize your time and reminds you of important events. Depending on your synchronization settings, your phone's Calendar stays in sync with your Calendar on the Web, Exchange ActiveSync calendar, and Outlook calendar.

Add an Event to the Calendar

Add events to your calendar directly from the Calendar application.

1. Touch  >  > Calendar .

2. On any Calendar view, touch .

3. If you have more than one calendar, select a calendar in which to add the event:

Note: You can create multiple Google Calendars only in Google Calendar on the Web. After creating them in Google Calendar on the Web, you'll be able to see them in the Calendar application on your phone. For more information about creating and managing multiple Google Calendars, visit the Google website: calendar.google.com.

Note: If you have synchronized your phone with an Exchange ActiveSync account or Outlook on your computer, you can also select these calendars.

4. Enter a name for the event.

5. Enter the event location.

6. To specify the date and time of the event, do one of the following:

- If there is a time frame for the event, touch the **FROM** and **TO** dates and times to set them.
- If the event is a special occasion such as a birthday or an all-day event, set the **FROM** and **TO** dates, and then select the **ALL DAY** check box.

7. Enter email addresses to invite guests to your event and add the event descriptions. See [Invite Guests to Your Calendar Event](#).

8. If the event occurs on a regular basis, touch the **REPETITION** box and then choose how often the event occurs.

9. Set the event reminder time and select how you are notified.
10. Select your status to be displayed on your calendar.
11. Set the privacy status of this event.
12. Touch **DONE**.

Invite Guests to Your Calendar Event

If you want to invite guests to your event, you need to create and add the event in your Google Calendar.

An email invitation will be sent to your guests using your Google Account.

1. Open Calendar and create a new event. Touch the Calendar field and then select your Google Account (or one of your other Google Calendars). See [Add an Event to the Calendar](#).
2. Add details about the event, such as date and time, location, and more.
3. In the **GUESTS** field, enter the email addresses of everyone you want to invite to the event. Separate multiple addresses with commas.
4. Add the description of the event to be displayed on the email to your guests.
5. Touch **DONE** to add the event to your Google Calendar.

If the people to whom you send invitations use Google Calendar, they'll receive an invitation in Calendar and by email.

Calendar Event Alerts

When your phone is turned on and you have an event alarm scheduled, your phone alerts you and displays the event summary. There are several ways your phone alerts you to scheduled events:

- By playing the assigned ringer or vibration type.
- By showing the  icon on the status bar.
- By showing the Alert pop-up screen.

Event Reminders

If you have set at least one reminder for an event, the upcoming event icon () will appear in the notifications area of the status bar to remind you of the upcoming event.

To view, dismiss, or snooze the reminder:

1. Touch the status bar, and then drag down the screen to open the Notifications panel.

2. Touch the upcoming event name to display the event.

Note: If you have other pending event reminders, these events will also appear on the screen.

3. Do one of the following:

- Touch **Snooze**  under the event name to postpone the event reminder for five minutes.

– or –

Touch the event name to access the reminder settings.

- View or edit the reminder settings.
- Touch  > **OK** to delete the event.
- Touch  to access the event settings.
- Touch  to assign a color to an event.
- Touch  to send the calendar event.

– or –

Touch  to keep the reminders pending in the notifications area of the status bar.

To set reminder settings:

- On any Calendar view, touch  > **Settings** > **General settings**, and set the items under **NOTIFICATIONS & REMINDERS**.

View Calendar Events

You can display the Calendar in daily, weekly, monthly, or agenda view. To change the Calendar view, touch the date displayed at the upper left corner, and touch **Day**, **Week**, **Month**, or **Agenda**.

The color of the events indicates the type of calendar that includes the event. To find out what each color represents, touch  > **Calendars to display**.

Day and Agenda Views

Day view displays a list of the events of one day. Agenda view shows a list of all your events in chronological order.

When in Day view, slide left or right across the screen to view earlier or later days.

Week View

Week view displays a chart of the events of one week.

When in Week view:

- You can touch and hold on a time slot to create a new event at that time.
- Touch an event to view its details.
- Slide left or right across the screen to view earlier or later weeks.

Month View

In Month view, you'll see markers on days that have events.

When in Month view:

- Touch a day to view the events of that day.
- Touch and hold a day to create a new event.
- Touch **PREV** or **NEXT** , or slide up or down the screen to view earlier or later months.

Erase Calendar Events

It's easy to erase scheduled events from your calendar.

1. Touch > > **Calendar**
 2. Open the calendar event details:
 - In Agenda, Day, and Week views, touch the calendar event you want to delete.
 - In Month view, touch the date where the calendar event occurs, and then touch the calendar event.
 3. Touch .
 4. In the confirmation box, touch **OK**.
- or –

If the calendar event is recurring, select **Only this event**, **This and future events**, or **All events** and touch **OK**.

Show or Hide Calendars

If you have more than one calendar available, you can choose to show or hide a calendar from your current view.

1. Touch  >  > Calendar .
2. In any Calendar view, touch  > **Calendars to display**, and then select or clear a calendar to show or hide it.

The calendars are kept synchronized on your phone, whether or not you hide them.

Choose Google Calendars to Synchronize With Your Phone

You can choose which Google Calendars to keep synchronized on your phone or which ones to stop synchronizing.

Stop Synchronizing a Google Calendar

1. Touch  >  > Calendar .
2. In any Calendar view, touch  > **Calendars to display** > **Calendars to sync**.
3. Remove the check mark next to the Google calendar you wish to stop synchronizing.
4. Touch **OK** and then touch  to update Calendar with the new changes and return to the Calendar view you were viewing.

The calendars that you remove from your calendars list will no longer be synchronized on your phone, but you remain subscribed to them and can work with them in Google Calendar on the Web.

Add a Google Calendar to Synchronize

Only the calendars that you've created or subscribed to on the Web, but previously removed from your calendars list, are shown in the list of calendars that you can add.

1. Touch  >  > Calendar .
2. In any Calendar view, touch  > **Settings** > **Calendars**.
3. Touch **ADD ACCOUNT**.
4. Touch an account type from the list and follow the steps to set up a new account. For details, see [Create a Google Account](#).

Synchronize a Corporate Calendar

If you have set up a corporate account on your phone, you can also synchronize corporate calendar events on your phone. Calendar events on your corporate account will also show in Calendar if you chose to synchronize with the Exchange ActiveSync Server.

Clock

Your phone has a clock app that lets you set alarms, view time in time zones around the world, use a stopwatch, set a timer, and use your phone as a desk clock.

Alarm

Set multiple alarms using your phone's Clock app.

Set an Alarm

1. Touch  >  > .
2. Touch the **Clock** tab and then touch **Alarms**  on the screen.
3. Touch an existing alarm to change the settings or touch  to add a new one and set the alarm time.
4. Set the hours and minutes you want, and select AM or PM and touch **OK**.
5. Touch **Add label** to enter a name for the alarm.
6. Select the **REPEAT** check box and choose the days of the week you want the alarm to repeat.
7. Touch  to select a ringtone that will play as an alarm.
8. Select the **VIBRATE** check box to add a vibration feature to the alarm.
9. When you're finished, touch the on/off slider to turn the alarm on  **ON**. Touch it again to turn it off .

Delete an Alarm

1. Touch  >  > .
2. Touch the **Clock** tab and then touch **Alarms**  on the screen.
3. From the Alarms screen, touch and hold a desired alarm, and then touch .

4. Touch **OK** to confirm the deletion.

Change Clock Settings

You can configure the settings of the clock feature.

1. Touch  >  > **Clock** .
2. Touch the **Clock** tab and then touch **Alarms**  on the screen.
3. From the Alarms screen, touch  > **Settings**.
4. Configure the following options.
 - **Style:** Select to change the clock style. Choose from **Analog** or **Digital**.
 - **Automatic home clock:** Check if you want to add a clock for home while traveling.
 - **Home time zone:** Select to set your home time zone.
 - **Silence after:** Select to set how long the alarm sounds.
 - **Snooze length:** Select to change the snooze interval.
 - **Alarm volume:** Select to set the alarm volume.
 - **Volume and Camera buttons:** Select to set the behavior of the volume and camera buttons when pressed while the alarm sounds. Choose from: **Silent**, **Snooze**, **Dismiss**, or **Do nothing**.

Stopwatch

You can record split times or lap times with the built-in stopwatch.

1. Touch  >  > **Clock** .
2. Touch the **Stopwatch** tab.
3. Touch **START** to start the stopwatch.
4. Do any of the following:
 - Touch **STOP** to stop timing.
 - Touch **Lap** to record the time.
 - Touch **Reset** to reset the stopwatch to zero.
 - Touch **Share** to share your results via Bluetooth, Google+, Messaging, and more.

Timer

This feature allows you to use your phone as a countdown timer to alert you when a specified period of time has elapsed.

1. Touch  >  > **Clock** .
2. Touch the **Timer** tab.
3. Enter the time you want and then touch **START**.
4. Do any of the following:
 - Touch **STOP** to pause the timer.
 - Touch **Add label** to add a label to a timer.
 - Touch **Reset** to reset the timer.
 - Touch **+1** to add an additional minute to a timer.
 - Touch **Delete** to delete the timer.

World Clock

World Clock can calculate and display the current time according to different time zones in the world.

1. Touch  >  > **Clock** .
2. Touch **World clock**  on the screen.
3. Scroll through the list with your finger or filter the list by typing a city name.
4. Touch the check box next to the cities you want to select so that a check mark displays.
5. Touch  to confirm. (An overview of the time zones you have added is displayed in the Clock screen.)

Calculator

Your phone's convenient built-in calculator lets you perform basic mathematical equations.

1. Touch  >  > **Calculator** .
2. Enter numbers by touching the onscreen keys.
3. Touch **DELETE** to clear a number. Touch and hold to clear an entire number.

- To access more advanced features, flick the screen left or touch  > **Advanced panel**.
- Touch  to close the calculator.

Flashlight

Your phone's camera flash can work as a flashlight.

Warning: Do not shine the flashlight into anyone's eyes, as doing so may compromise their vision and cause an accident.

- Touch  >  > **Flashlight** .
- Touch the screen to switch the light on and off.

Sound Recorder

The Sound Recorder allows you to record a sound and save it as a voice data on your phone. Recording time will vary based on the available memory within the phone.

Record Voice Data

- Touch  >  > **Sound Recorder** .
- To start recording, touch .
- To pause recording, touch . Touch  again to resume recording.
- To end the recording, touch .

Play Voice Data

- Touch  >  > **Sound Recorder** .
- Touch  to view all saved voice data.
- Touch the name of a voice data to play it. The following options are available:
 - Touch the rewind button  to rewind 5 seconds.
 - Touch  > **Rewind settings** to change the value of rewind.
 - To fast forward a recording to a specific location, drag the playback slider to the right.

- To rewind a recording to a specific location, drag the playback slider to the left.
- Touch  to share selected voice data via Bluetooth, Gmail, Messaging, etc.
- Touch  > **Delete** to delete selected voice data. Touch **OK** to confirm.

Voice Data List Options

Your phone offers several options for managing voice data you have recorded.

1. Touch  >  > **Sound Recorder** .
2. Touch  to view all saved voice data.
3. Touch  and choose from the following options:
 - **Share:** Allows you to share voice data via Bluetooth, Gmail, Messaging, etc.
 - **Delete:** Allows you to delete voice data.
 - **Edit file name:** Allows you to rename your voice data.
 - **Details:** Allows you to display information about voice data.

MagniFont

The MagniFont application allows enlargement of select text on screen for easy-to-read display. To use this font, you must activate the MagniFont mode first.

1. From any screen, slide down the status bar to display the notifications panel, and then touch **MagniFont mode**. (Once you activate this mode, you can access this application with the procedure mentioned below.)

– or –

Touch  >  > **MagniFont** .

2. Touch the **MagniFont** button to turn the MagniFont mode on.
 - To turn the MagniFont mode off, touch the button again, touch the font size you want from the Font size options, and then touch **OK**.

Voice Services

Your phone's voice services let you place calls using your voice, convert text into speech, and more.

Automatic Speech Recognition (ASR)

You can use your phone's built-in automatic speech recognition (ASR) software (Voice Dialer) to dial a phone number in your contacts or to launch phone functions. All you have to do is to talk into the phone, and ASR will recognize your voice and complete tasks by itself.

Activate the Voice Dialer

- Touch  >  > Voice Dialer .

The phone prompts you to say a command from the list displayed on the screen. To complete your task, simply follow the onscreen prompts or touch an onscreen option.

If the application does not recognize the number, name, or application name, it will find the most likely matches and display a list. Touch a selection or touch **Cancel** to exit the Voice Dialer.

Tip: Use ASR in a quiet environment so it can accurately recognize your commands.

Make a Voice Call with the Voice Dialer

1. Touch  >  > Voice Dialer .
2. When prompted to speak, say “**Call** [contact]” or “**Dial** [number].”
 - For example, say “**Call John Smith on mobile**,” to call John Smith’s mobile phone. Your phone dials the number stored for the contact “John Smith” with the label “Mobile.”

Open an Application with the Voice Dialer

1. Touch  >  > Voice Dialer .
2. When prompted to speak, say “**Open** [application name].”
 - For example, say “**Open Calendar**,” to open the Calendar. The application screen is displayed.

Open a Settings Menu with the Voice Dialer

1. Touch  >  > Voice Dialer .
2. When prompted to speak, say “**Open** [settings menu name].”
 - For example, say “**Open sound settings**.” The Sound settings menu screen is displayed.

Voice Search

Voice Search allows you to find information on the Web as well as items and information on your phone by speaking your search terms.

1. Touch  on the Google Search Bar.

– or –

Touch  >  > **Voice Search** .

2. Speak clearly into the phone's microphone when you see **Speak now** on the screen. If an error occurs, try again.
3. Touch a matching item from the onscreen list.

For more information about voice search settings, see [Voice Search](#).

Eco Mode

The Eco Mode allows you to save battery life while using your phone.

1. Touch  >  > **Eco Mode** .

2. Touch an option to enable or disable the Eco Mode:

- **On:** Enables the Eco Mode. The Eco Mode On icon  appears on the status bar when selected.
- **Auto On:** Enables the Eco Mode when the remaining battery level falls below the set level. Scroll and set the percentage. The Eco Standby icon  appears on the status bar when selected.
- **Off:** Disables the Eco Mode. The Eco Mode Off icon  briefly appears on the status bar when selected.

3. Configure the Eco settings. Touch the icon of the following items to select:

- **Sleep** to set the screen timeout to 15 seconds.
- **Brightness** to decrease the display brightness.
- **Wallpaper** to select the Eco wallpaper.
- **Vibrate on touch** to turn off the vibration feedback.
- **Auto-rotate screen** to disable the Auto-rotate screen feature.

Configured settings in the Eco Mode are automatically reflected in the respective Settings menu, and vice versa.

Bluetooth

Bluetooth is a short-range communications technology that allows you to connect wirelessly to a number of Bluetooth devices, such as headsets and hands-free car kits, and Bluetooth-enabled handhelds, computers, printers, and wireless phones. The Bluetooth communication range is usually approximately 30 feet.

Turn Bluetooth On or Off

Use the settings menu to enable or disable your phone's Bluetooth capabilities.

1. Touch  >  > **Settings**  > **Bluetooth**.
2. Touch the on/off slider to turn Bluetooth on. Touch it again to turn Bluetooth off .

Tip: An even easier way to turn Bluetooth on or off is with the toggle menu in the notifications screen. Drag the notifications bar down to display the notifications screen and then touch **Bluetooth** to turn Bluetooth on or off.

Note: Turn off Bluetooth when not in use to conserve battery power, or in places where using a wireless phone is prohibited, such as aboard an aircraft and in hospitals.

The Bluetooth Settings Menu

The Bluetooth settings menu gives you access to information and controls for your phone's Bluetooth feature.

- Touch  >  > **Settings**  > **Bluetooth**.
 - Touch **SEARCH FOR DEVICES** to search for other visible in-range Bluetooth devices.
 - Touch  > **Rename phone** to rename your phone for Bluetooth access.
 - Touch  > **Visibility timeout** to set your visibility timeout for Bluetooth.
 - Touch  > **Show received files** to view all files you have received via Bluetooth.

Change the Device Name

The device name identifies your phone to other devices.

1. Touch  >  > **Settings**  > **Bluetooth**.

2. If Bluetooth is not switched on, touch the on/off slider to turn Bluetooth on.
3. Touch  > **Rename phone**.
4. Enter the name for your phone in the dialog box, and then touch **Rename**.

Connect a Bluetooth Headset or Car Kit

You can listen to music over a Bluetooth stereo headset, or have hands-free conversations using a compatible Bluetooth headset or car kit. It's the same procedure to set up stereo audio and hands-free devices.

To listen to music with your headset or car kit, the headset or car kit must support the A2DP Bluetooth profile.

1. Touch  >  > **Settings**  > **Bluetooth**.
2. If Bluetooth is not switched on, touch the on/off slider to turn Bluetooth on.
3. Make sure that the headset is discoverable, so that your phone can find the headset. Refer to the instructions that came with the headset to find out how to set it to discoverable mode.
4. Touch **SEARCH FOR DEVICES**. Your phone will start to scan for Bluetooth devices within range.
5. When you see the name of your headset displayed on the **AVAILABLE DEVICES** list, touch the name. Your phone then automatically tries to pair with the headset.
6. If automatic pairing fails, enter the passcode supplied with your headset.

The pairing and connection status is displayed below the hands-free headset or car kit name in the Bluetooth devices section. When the Bluetooth headset or car kit is connected to your phone, the Bluetooth paired icon  is displayed in the status bar. Depending on the type of headset or car kit you have connected, you can then start using the headset or car kit to listen to music or make and receive phone calls.

Note: Due to different specifications and features of other Bluetooth-compatible devices, display and operations may be different, and functions such as transfer or exchange may not be possible with all Bluetooth-compatible devices.

Reconnect a Headset or Car Kit

When you have paired a headset with your phone, you should be able to reconnect it automatically by turning on Bluetooth on your phone and then turning on the headset. However, sometimes you will need to reconnect manually, for example if you have been using your headset with another Bluetooth device.

1. Touch  >  > **Settings**  > **Bluetooth**.
2. If Bluetooth is not switched on, touch the on/off slider to turn Bluetooth on.
3. Make sure that the headset is discoverable.
4. Touch the headset's name in the **PAIRED DEVICES** list.
5. If prompted to enter a passcode, try 0000 or 1234, or consult the headset or car kit documentation to find the passcode.
6. If you still cannot reconnect to the headset or car kit, follow the instructions in [Disconnect or Unpair from a Bluetooth Device](#), and then follow the instructions in [Connect a Bluetooth Headset or Car Kit](#).

Disconnect or Unpair from a Bluetooth Device

You can manually disconnect or unpair from a Bluetooth device through the Bluetooth settings menu.

Disconnect a Bluetooth Device

1. Touch  >  > **Settings**  > **Bluetooth**.
2. In the Bluetooth devices section, touch the device name to disconnect.
3. Touch **Disconnect**.

Unpair from a Bluetooth Device

You can make your phone forget its pairing connection with another Bluetooth device. To connect to the other device again, you may need to enter or confirm a passcode again.

1. Touch  >  > **Settings**  > **Bluetooth**.
2. On the **PAIRED DEVICES** list, touch  next to the device to unpair.
3. Touch **Unpair**.

Send and Receive Information Using Bluetooth

You can use Bluetooth to transfer information between your phone and another Bluetooth-enabled device such as a phone or notebook computer. The first time you transfer information between your phone and another device, you need to enter or confirm a security passcode. After that, your phone and the other device are paired, and you will not need to exchange passcodes to transfer information in the future.

Send Information from Your Phone to Another Device

You can send the following types of information, depending on the device you are sending to:

- Images and videos
 - Contacts
1. Set the receiving device to discoverable mode. You may also need to set it to “Receive Beams” or “Receive Files”. Refer to the device’s documentation for instructions on receiving information over Bluetooth.
 2. On the phone, open the application that contains the information or file you want to send.
For example, if you want to send a picture, touch  >  > **Gallery** .
 3. Follow the steps for the type of item you want to send:
 - **Picture or video** (in Camera). After capturing a picture, on the preview screen, touch  > **Bluetooth**.
 - **Pictures and videos** (in Gallery). On the **Albums** tab, touch an album. Touch the items you want to share and then touch  > **Bluetooth**.
 - **Contact**. Display a contact and then touch  > **Share** > **Bluetooth**.
 4. If you are prompted to turn on Bluetooth, touch **Turn on**.
 5. Touch the name of the receiving device.
 6. If prompted, accept the connection on the receiving device, and enter the same passcode on both your phone and the other device, or confirm the auto-generated passcode.
 7. On the receiving device, accept the file.

Receive Information from Another Device

Your phone is capable of receiving a wide variety of file types with Bluetooth, including pictures, music tracks, and documents such as PDFs.

To receive files from another device, you need to have a microSD card installed in your phone.

1. Touch  >  > **Settings**  > **Bluetooth**.
2. If Bluetooth is not switched on, touch the on/off slider to move it into the ON position to turn Bluetooth on.

3. Touch the check box next to your phone name to make your phone visible to unpaired devices.
4. On the sending device, send one or more files to your phone. Refer to the device's documentation for instructions on sending information over Bluetooth.
5. If prompted, enter the same passcode on both your phone and the other device, or confirm the auto-generated passcode. A Bluetooth authorization request is displayed on your phone.
6. Touch **Pair**.
7. When your phone receives a file transfer request notification, open the Notifications panel, touch the notification, and then touch **Accept**.
8. When a file is transferred, a notification is displayed. To open the file immediately, open the Notifications panel, and then touch the relevant notification.

When you open a received file, what happens next depends on the file type:

9. For a vCard contact file, if there are multiple vCard files on your storage card, you can choose to import one, several, or all of those contacts to your contacts list.

Near Field Communication (NFC) Technology

NFC (Near Field Communication) technology is a short-range, wireless technology that lets you quickly and wirelessly exchange information between your phone and other NFC-enabled smartphones, smart accessories, and NFC-enabled access points. You can also use NFC technology to save, view, create, or change smart tags.

Depending on the applications that you have added to your phone, you might be able to use your phone as a transit pass or as an access pass, by tapping the back of your phone against an NFC-enabled access point, subject to applicable terms and conditions from the particular vendor.

To use NFC technology on your phone, your phone must be within approximately 0.78 in. (2 cm) of the NFC-enabled smartphone, smart accessory, NFC-enabled access point, or smart tag that you want to exchange information with. When information is transferred over an NFC connection, your smartphone vibrates.

Turn NFC On or Off

Use the settings menu to enable or disable your phone's NFC capabilities.

1. Touch  >  > **Settings**  > **More....**
2. Select the **NFC** check box to turn it on.

– or –

Clear the **NFC** check box to turn it off.

microSD Card

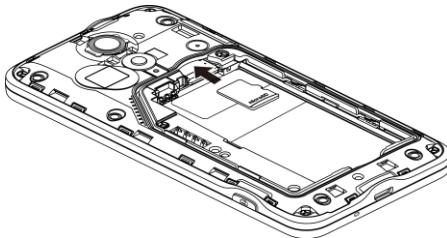

A microSD™ card is an optional accessory that allows you to store images, videos, music, documents, and voice data on your phone.

Note: Your phone also has some internal space for storing pictures, music, etc., just like the SD card. See [Primary Storage](#) for more information.

Insert a microSD Card

Remove the battery cover and the battery to insert a compatible microSD card into your phone.

1. Turn the phone off and remove the back cover. See [Set Up Your Phone](#).
2. Lift the battery and remove it from the battery compartment. You will find the microSD card slot right above the SIM card slot.
3. With the gold contacts facing down, slide the microSD card into the slot, pushing gently until it snaps into place.

4. Place the battery back into its compartment and replace the battery cover.

Remove a microSD Card

Before removing your phone's microSD card, use the Storage settings menu to unmount the card.

1. Touch > > **Settings** > **Storage** > **Unmount SD card**.
2. Read the disclaimer and touch **OK** to continue. Wait for "SD card safe to remove" to appear in the Status bar.
3. Turn the phone off and remove the back cover. See [Set Up Your Phone](#).
4. Lift the battery and remove it from the battery compartment.
5. Gently pull the microSD card out from the slot.

6. Place the battery back into its compartment and replace the battery cover.

Note: You can easily damage the microSD card by improper operation. Please be careful when inserting, removing, or handling the microSD card.

Note: Make sure your battery is fully charged before using the microSD card. Your data may become damaged or unusable if the battery runs out while using the microSD card.

View the microSD Card Memory

The Storage settings menu gives you access to your microSD card memory information.

- With the microSD card inserted, touch  >  > **Settings**  > **Storage**. (The total and available memory space will be displayed.)

Format the microSD Card

Formatting a microSD card permanently removes all files stored on the card.

- Touch  >  > **Settings**  > **Storage**.
- Scroll down the screen, touch **Erase SD card** > **Erase SD card**.
- Touch **Erase everything** to confirm the process.

Note: The formatting procedure erases all the data on the microSD card, after which the files CANNOT be retrieved. To prevent the loss of important data, please check the contents before you format the card.

Unmount the microSD Card

When you need to remove the microSD card, you must unmount the microSD card first to prevent corrupting the data stored on it or damaging the microSD card. Since you will remove the battery first before you can remove the microSD card, close all running applications on your phone and save any data first.

- Touch  >  > **Settings**  > **Storage**.
- Touch **Unmount SD card** > **OK**.
- Remove the microSD card. See [Remove a microSD Card](#).

Use the Phone's microSD Card as a USB Drive

To transfer music, pictures, and other files from your computer to your phone's microSD card, you need to set the phone's microSD card as a USB drive. For more details about transferring content between your phone and a computer, see [Transfer Files Between Your Phone and a Computer](#).

- Connect the phone to your computer using the supplied USB cable.

2. When the PC connection screen appears, touch **Mass Storage**, and then touch **Done > OK**.
3. On your computer, the connected phone is recognized as a removable disk. Navigate to this removable disk and open it.
4. Do one of the following:
 - Copy files from the computer to the root folder on the phone's storage card.
 - Copy files from the phone's storage card to a folder on your computer or computer desktop.
5. After copying the files, unmount the removable disk (that is, the connected phone) as required by your computer's operating system to safely remove your phone, and do either of the following:
 - Disconnect the phone from the computer.
 - If you want to keep the phone connected to the computer but want the phone to be able to access and use the storage card, open the Notifications panel, touch **Mass Storage**, select an option other than Disk drive, and then touch **Done**.

Note: The phone will not recognize the microSD card when it is connected to a computer as a disk drive. You will not be able to use some of the phone's applications such as the camera or Music.

Transfer Files Between Your Phone and a Computer

You can use the supplied USB connector to connect your phone directly to your computer and transfer music, pictures, and other content files. For example, if you have a music album stored on your computer that you want to listen to on your phone with any of the music apps, just attach your phone to the computer and copy the files to the music folder.

1. Connect your phone to your computer using the supplied USB/charging cable.
 - Insert the small end of the cable to the charger/accessory jack at the bottom of the phone.
 - Insert the USB end of the cable into an available USB port on your computer. You may need to remove the USB cable from the charging head to access it.
2. When  appears in the notifications area, touch the notifications bar to open the panel.
3. Touch **Media Transfer > DONE**.
 - To change the option, touch it in the notifications panel to open the PC connection setting window, and then touch the desired option.

4. On your computer, navigate to the detected device (such as through the My Computer menu) and open it.
5. If available, select a drive (**SD Card** for microSD card, **PHONE** for internal phone storage).
6. Select a folder (for example, **Music** for songs and albums) and copy files to it from your computer.
7. When you are done, disconnect your phone from your computer.

Update Your Phone

From time to time, updates may become available for your phone. You can download and apply updates through the System update menu.

Update Your Phone Firmware

You can update your phone's software using the Update firmware option.

Before Updating Your Firmware

Updating your phone firmware will erase all user data from your phone. You must back up all critical information before updating your phone firmware.

CAUTION! Make sure to back up all data prior to updating your phone as it may be erased.

To back up your account information:

1. Touch  >  > **Settings** .
2. Touch a category such as **Google** and **Email** under ACCOUNTS and then touch the account containing the data you want to back up now.
3. Select the check box of the items you want to back up.
4. Touch  > **Sync now**.

To back up stored text messages:

1. Touch  >  > **Messaging** .
2. Select the text message from the list to view the message thread.
3. Touch and hold on a portion of the text message from the string. The Message options context menu appears.

Note: You can back up stored text messages by forwarding them to your own phone number. Open the messages after you have updated your firmware.

4. Touch **Forward**.

5. Enter your phone number and touch  or .

As an added precaution, to preserve any data on your microSD card, please unmount it from your phone prior to starting the update process. Touch  >  > **Settings**  > **Storage** > **Unmount SD card**.

Update Your Phone Firmware

Once you have backed up all your data, use the **Update firmware** option to update your phone firmware.

1. Touch  >  > **Settings**  > **System update**.
2. Touch **Update firmware**. (Your phone automatically downloads and installs any available updates. You may be required to power your phone off and back on to complete the software upgrade.)

Confirm Your Current Phone Firmware

1. Touch  >  > **Settings**  > **About phone**.
2. Locate the version number.

Update Your Profile

This option allows you to automatically update your online user profile information. If you choose to change your user name and select a new one online, you must then update the user name on your phone.

1. Touch  >  > **Settings**  > **System update** > **Update profile**.
2. Follow the onscreen instructions.

Note: If your data services or account syncing ever seems to go out unexpectedly, use this feature to reconnect with the network.

Update Your PRL

This option allows you to download and update the PRL (preferred roaming list) automatically.

1. Touch  >  > **Settings**  > **System update** > **Update PRL**.
2. Follow the onscreen instructions.

Update Kyocera Software

This option provides you the latest Android Operating System (OS) and the phone firmware on your phone via an over-the-air connection.

1. Touch  >  > **Settings**  > **System update** > **Update Kyocera software**.
2. Follow the onscreen instructions.

Settings

The following topics provide an overview of items you can change using your phone's Settings menus.

Wi-Fi Settings

The Wi-Fi settings menu lets you turn Wi-Fi on or off, set up and connect to available Wi-Fi networks, and configure advanced Wi-Fi options.

For more information about Wi-Fi settings, see [Wi-Fi](#).

Access the Wi-Fi Settings Menu

- Touch  >  > **Settings**  > **Wi-Fi**.

Advanced Wi-Fi Settings

The advanced Wi-Fi settings menu lets you set up and manage wireless access points.

1. Touch  >  > **Settings**  > **Wi-Fi**.
2. Touch  > **Advanced**.
3. Configure your Wi-Fi settings, which may include:
 - **Network notification:** Notifies you when an open Wi-Fi network is available.
 - **Secure network notification:** Notifies you when a secure Wi-Fi network is available.
 - **Wi-Fi auto on:** Enables Wi-Fi automatically.
 - **Wi-Fi auto on schedule:** Enables Wi-Fi for the scheduled period.
 - **Keep Wi-Fi on during sleep:** Stays connected to Wi-Fi when the screen goes to sleep to conserve mobile data usage.
 - **Scanning always available:** Scans for networks even when Wi-Fi is off.
 - **Avoid poor connections:** Avoids using a Wi-Fi network unless it has a good Internet connection.
 - **Install certificates:** Installs encrypted certificates from your USB storage.
 - **Wi-Fi optimization:** Minimizes battery usage when Wi-Fi is on.

- **MAC address:** Displays the Media Access Control (MAC) address of your phone when connected to a Wi-Fi network.
- **IP address:** Displays the Internet Protocol (IP) address assigned to your phone by the Wi-Fi network you are connected to (unless you used the IP settings to assign it a static IP address).

Bluetooth Settings

Your phone's Bluetooth capabilities let you use wireless headsets, send and receive pictures and files, and more. For details on your phone's Bluetooth settings, see [The Bluetooth Settings Menu](#).

Access the Bluetooth Settings Menu

- Touch  >  > **Settings**  > **Bluetooth**.

MaxiMZR Settings

MaxiMZR allows you to conserve battery by blocking background data connections for any apps you haven't used in a week. It will ultimately help conserve battery power with minimal impact to the usability of your phone.

1. Touch  >  > **Settings**  > **MaxiMZR**.
2. Touch the on/off slider to enable MaxiMZR.

Note: Touch **Apps** to see the list of regulated applications

Data Usage Settings

The Data usage menu lets you view your phone's mobile and Wi-Fi data usage, set data limits, restrict hotspot usage, and more.

1. Touch  >  > **Settings**  > **Data usage**.
2. Touch the on/off slider to turn Mobile data usage on.
3. Touch **Set mobile data limit** to disable a data connection when a certain level is reached.
4. Touch **Alert me about data usage** to have your phone alert you when your mobile data usage reaches a certain amount.
5. Touch the **Data usage cycle** drop-down menu and select a date.
 - The data usage displays as a visual (chart) and displays a list of each application with a breakdown of how many MB were used per application.

6. Touch  for more options. Select one of the following:
 - Touch **Restrict background data** to restrict the background data usage. You can only enable this feature if you have set mobile data limits. Touch **Set mobile data limit** to add a checkmark and activate the feature.
 - Touch **Auto-sync data** to turn auto-sync data on. Any changes you make to your accounts on the Web will be automatically copied to your phone.
 - Touch **Show Wi-Fi usage** to display the Wi-Fi tab. You will see a chart with a list of apps stored by their data usage.
 - Touch **Mobile hotspots** to identify which Wi-Fi networks you have configured that are mobile hotspots so you can restrict background apps from using those networks.

More Settings

The More settings menu provides access to additional wireless and network options, such as hotspot settings, mobile networks, VPN, Roaming, NFC, and more.

Airplane Mode

Airplane Mode allows you to use many of your phone's features, such as Gallery, Camera, and Music, when you are on an airplane or in any other area where making or receiving calls or data is prohibited. When you set your phone to Airplane Mode, it cannot send or receive any calls or access online information.

To quickly turn Airplane Mode on or off:

- Press and hold the **Power** button, and then touch **Airplane mode**. While in Airplane Mode, the status bar will display .

To turn Airplane Mode on or off in Settings:

1. Touch  >  > **Settings**  > **More....**
2. Select the **Airplane mode** check box. While in Airplane Mode, the status bar will display .

VPN Settings

A virtual private network (VPN) is a network that uses a public telecommunication infrastructure, such as the Internet, to provide remote offices or individual users with secure access to their organization's network. For more information about VPN settings, see [Virtual Private Networks \(VPN\)](#).

Tethering & Portable Hotspot Settings

Use the settings menu to configure your Portable Wi-Fi Hotspot settings, which allow you to share your phone's data service with multiple Wi-Fi capable devices. For details on your phone's tethering and portable hotspot settings, see [Portable Wi-Fi Hotspot](#).

NFC Settings

NFC (Near Field Communication) allows data exchange when device touches another device. For more information about NFC settings, see [Near Field Communication \(NFC\) Technology](#).

Enable NFC

1. Touch  >  > **Settings**  > **More....**
2. Select the **NFC** check box.

Android Beam

With Android Beam you can beam files to another NFC-capable device by holding the devices close together. You can beam Browser pages, images and videos, People contacts, and more. Just bring the devices together (typically back to back) and then touch your screen.

Note: Make sure that NFC is turned on, before you turn on Android Beam.

1. Touch  >  > **Settings**  > **More... > Android Beam.**
2. Touch the on/off slider to turn Android Beam on.

To share app contents:

1. With Android Beam turned on, display the contents you want to share on your screen.
2. Bring your phone close to another NFC-enabled device, typically back to back aiming the NFC antenna, and then touch your screen. The app determines what gets beamed.

Note: The NFC antenna is located on the lower half of the back cover of your phone. Use center of the area to get best performance.

Mobile Networks

The Mobile networks options let you enable your phone's mobile data access, set your preferred network mode, configure Connections Optimizer, and select network operators for international use.

Enable Mobile Data

1. Touch  >  > Settings  > More... > Mobile networks.
2. Select the **Data enabled** check box.

Network Mode

1. Touch  >  > Settings  > More... > Mobile networks > Network mode.
2. Select **LTE/CDMA** or **CDMA only**. The phone will scan for the 4G LTE network and will automatically connect to it when it is available.

When your phone is connected to the 4G LTE network, the 4G LTE icon () appears in the status bar.

Note: The 4G LTE network is self-discoverable, which means no additional steps are required for your phone to connect to it.

Connections Optimizer

Your phone can be set to automatically select the best mobile network. For the details on Connections Optimizer, see [Connections Optimizer](#).

Roaming

Roaming is the ability to make or receive calls and access data services when you're off the Nationwide Network.

Roaming Icon

Your display screen always lets you know when you're off the Nationwide Network. Anytime you are roaming, the phone displays the roaming icon ()

Roaming on Other Networks

When you're roaming on other networks, your call quality and security will be similar to the quality you receive when making calls on the Nationwide Network. However, you may not be able to access certain features, such as data services, depending on the available network.

Note: If you're on a call when you leave the Nationwide Network, your call is dropped. If your call is dropped in an area where you think service is available, turn your phone off and on again to reconnect to the network.

Check for Voicemail Messages While Roaming

When you are roaming off the Nationwide Network, you may not receive on-phone notification of new voicemail messages. Callers can still leave messages, but you will need to periodically check your voicemail for new messages if you are in a roaming service area for an extended period of time.

1. Dial your area code + your phone number.
2. When you hear your voicemail greeting, touch  * .
3. Enter your password at the prompt and follow the voice prompts.

When you return to the Nationwide Network, voicemail notification will resume as normal.

Roaming Mode

Your phone allows you to control your roaming capabilities. By using the Roaming menu option, you can determine which signals your phone accepts. Choose from different settings on your phone to control your roaming experience.

1. Touch  >  > **Settings**  > **More...** > **Mobile networks** > **Roaming** > **Roaming mode**.
2. Select an option:
 - **Home only** to access only the Nationwide Network and prevent roaming on other networks for both voice and data communications.
 - **Automatic** to seek service on the Nationwide Network. When service is unavailable, the phone searches for an alternate service. If you select this option, select the type(s) of communication for which roaming should be allowed.

Roaming Settings

When the roaming mode is set to **Automatic**, you can specify which services are available while roaming.

1. Touch  >  > **Settings**  > **More...** > **Mobile networks** > **Roaming**.
2. Select an option:
 - **Domestic voice** to allow voice communication only on domestic roaming systems.

- **Domestic data** to allow data communication only on domestic roaming systems.
- **International voice** to allow voice communication on international roaming systems.
- **International data** to allow data communication on international roaming systems.

3. If required, touch **Yes**.

Note: Data service is not available without voice service for both domestic and international settings. Disabling voice service automatically disables its data service.

Roaming Guard

Your phone alerts you when you are roaming off the Nationwide Network by requiring an extra step before you can place or answer a call, or try to access data while roaming.

1. Touch  >  > **Settings**  > **More...** > **Mobile networks** > **Roaming** > **Roaming guards**.
2. Select each service you want to enable Roaming guards for:
 - **Voice** to display a prompt that will require you to respond anytime you attempt to access voice service while roaming in the selected region (**DOMESTIC** or **INTERNATIONAL**).
 - **Data** to display a prompt that will require you to respond anytime you attempt to access data service while roaming in the selected region (**DOMESTIC** or **INTERNATIONAL**). The prompt will not appear again while you are in the data session you allowed.
 - **Outgoing SMS** to display a prompt that will require you to respond anytime you attempt to send a text message while roaming internationally.

Tip: If you prefer not to use the Roaming guards feature, touch the **Never ask** check box and then touch **OK** or **Roam** while the alert dialog is displayed. You will not be notified of your roaming status until you enable Roaming guards again.

To place roaming calls with Roaming guards on:

1. Touch  >  > **Dialpad** tab.
2. Touch the area code + the seven-digit number and touch .
3. Read the message and touch **OK**.

To answer roaming calls with Roaming guards on:

- Read the message and touch **OK**.

To access data services while roaming with Roaming guards on:

- Read the message and touch **Roam**.

To send a text message while roaming with Roaming guards on:

- Read the message and touch **Send now**. Touch **Save as draft** to save the message as draft and send it later.

Home Screen Mode

The Home mode options let you set your display to the familiar Android appearance of Standard mode or provide an easier user experience for the first-time smartphone users using Easy mode.

1. Touch  >  > **Settings**  > **Home mode**.
2. Touch one of the following options:
 - **Easy mode**: provides easier user experience for first-time smartphone users on the home screens.
 - **Standard mode**: provides conventional layout for the apps and widgets on your home screens.
3. Touch **Apply** > **OK**.

Sound Settings

The Sound settings menu lets you control your phone's audio, from ringtones and alerts to touch tones and notifications.

Volumes

Configure your phone's volume settings.

1. Touch  >  > **Settings**  > **Sound**.
2. Touch **Volumes** and use the sliders to set the volume level for **Music, video, games, & other media**, **Ringtone & notifications**, or **Alarms**.
3. Touch **OK** to save your settings.

Tip: You can adjust the ringer volume in standby mode (or the earpiece volume during a call) by using the volume button on the left side of your phone.

Phone Ringtone

Assign a ringtone to your incoming calls.

1. Touch  >  > **Settings**  > **Sound** > **Phone ringtone**.

2. Touch a ringtone from the available list. The ringtone briefly plays when selected.
3. Touch **OK** to assign the ringtone.

Vibration Pattern

Configure the vibration pattern for your phone's ringtones, notifications, and touch feedback.

1. Touch  >  > **Settings**  > **Sound** > **Vibrate pattern**.
2. Touch a vibrate pattern from the available list. Your phone briefly vibrates when selected.
3. Touch **OK** to assign the vibrate pattern.

Vibrate when Ringing

You can set your phone to ring and vibrate simultaneously.

1. Touch  >  > **Settings**  > **Sound**.
2. Select the **Vibrate when ringing** check box.

Persistent Alerts

Set alerts, such as beep, vibration, or LED blinking for notifications.

1. Touch  >  > **Settings**  > **Sound** > **Persistent alerts**.
2. Check the following:
 - **Audible tone** to beep when notification is on the notification bar.
 - **Vibrate** to vibrate when notification is on the notification bar.
 - **Blink LED** to blink the LED indicator when notification is on the notification bar.
3. Read a message and touch **OK**.
4. Touch **OK** to assign a persistent alert type.

Default Notification Sound

Select a default sound for notifications

1. Touch  >  > **Settings**  > **Sound** > **Default notification sound**.
2. Touch a notification sound from the available list. The sound briefly plays when selected.
3. Touch **OK** to assign the sound.

Dial Pad Touch Tones

Play tones when using the dialpad.

1. Touch  >  > **Settings**  > **Sound**.
2. Select the **Dial pad touch tones** check box.

Touch Sounds

Play sounds when making an onscreen selection.

1. Touch  >  > **Settings**  > **Sound**.
2. Select the **Touch sounds** check box.

Screen Lock Sound

Play sounds when locking and unlocking the screen.

1. Touch  >  > **Settings**  > **Sound**.
2. Select the **Screen lock sound** check box.

Vibrate on Touch

Vibrate the keys when typing the keyboards.

1. Touch  >  > **Settings**  > **Sound**.
2. Select the **Vibrate on touch** check box.

Hearing Aid

Use the hearing aid device effectively.

1. Touch  >  > **Settings**  > **Sound**.
2. Select the **Hearing aid** check box.

Display Settings

Adjusting your phone's display settings not only helps you see what you want, it can also help increase battery life.

Brightness

Adjust your screen's brightness to suit your surroundings.

1. Touch  >  > **Settings**  > **Display** > **Brightness**.

2. Use the slider to set the brightness.
 - Select the **Automatic brightness** check box to set the brightness automatically.
3. Touch **OK**.

Wallpaper

Select and assign your phone's background wallpaper.

1. Touch  >  > **Settings**  > **Display** > **Wallpaper**.
2. Touch an option to set the wallpaper.
 - **Gallery** to set a saved picture in Gallery. Select an album, select an image and use the crop tool to resize it. Touch **SAVE** when you are finished.
 - **Live Wallpapers** to set a live wallpaper. Select an image and touch **Set wallpaper**.
 - **Wallpapers** to set a preset wallpaper. Slide the small image on the screen sideways to see available options. Select an image and touch **Set wallpaper**.
 - **ID wallpapers** to set an ID wallpaper. Select an image included in your ID pack and touch **Set wallpaper**.
 - **Photos** to use saved or taken pictures on your phone. Touch to select a picture, and crop it before setting it as wallpaper. Touch **Done** when you are finished.

Auto-Rotate Screen

Your phone is capable of automatically changing the orientation of some onscreen content. With this feature, you can view the screen in either portrait or landscape orientation by turning the phone sideways. By default, the screen orientation automatically changes when the phone is rotated.

1. Touch  >  > **Settings**  > **Display**.
2. Select the **Auto-rotate screen** check box. A blue checkmark indicates the feature is enabled.

Sleep

Select the delay time before the screen automatically turns off.

1. Touch  >  > **Settings**  > **Display** > **Sleep**.
2. Select a delay time.

Daydream

When Daydream is on, your phone displays photos, colors, and more while it is charging or docked.

1. Touch  >  > **Settings**  > **Display** > **Daydream**.
2. Touch the on/off slider to turn Daydream on.
3. Choose from the following options:
 - **Clock** displays the phone's digital or analog clock. Touch  next to Clock to change the clock style or select the Night mode option.
 - **Colors** shows changing colors on the screen.
 - **Google Photos** presents a slideshow of photos on your phone or Google+ account. Touch  next to Google Photos to select what photos are displayed.
 - **Photo Frame** presents a slideshow of photos on your phone. Touch  next to Photo Frame to select what photos are displayed.
 - **Photo Table** scatters photos on your phone across your screen. Touch  next to Photo Table to select what photos are displayed.
 - Touch **WHEN TO DAYDREAM** to select when to Daydream. Choose from **While docked**, **While charging**, or **Either**.
 - Touch **START NOW** to see a preview of your selection.

Font Size

Choose the font size of the screen as you like.

1. Touch  >  > **Settings**  > **Display** > **Font size**.
2. Select your favorite size.

Key Backlight

Select the delay time before the key backlight automatically turns off.

1. Touch  >  > **Settings**  > **Display** > **Key backlight**.
2. Select a delay time.

Display Battery Percentage

This feature allows you to display the battery percentage next to the battery icon at the top right of your screen.

1. Touch  >  > **Settings**  > **Display**.
2. Select **Display battery percentage** check box. A blue checkmark indicates the feature is enabled.

Wireless display

Wireless Display feature lets you directly stream video, pictures and other multimedia content on your phone to a variety of displays and other devices that support Miracast.

1. Touch  >  > **Settings**  > **Display** > **Wireless display**.
2. Touch the on/off slider to turn wireless display on.
 - Touch **SEARCH FOR DISPLAYS** to search for available wireless displays.

Note: For more information about wireless display, see the documentation that comes with the Miracast-certified device you wish to use with your phone.

Screen Proximity Safety

Set the distance between your phone and your face that triggers your phone's proximity sensor to work.

Note: If you disable the proximity sensor, it may cause accidental key presses during a call.

1. Touch  >  > **Settings**  > **Display** > **Screen proximity safety**.
2. Use the slider to set the distance from your face and touch **OK**.

Storage Settings

The Storage settings menu lets you manage internal storage on your phone and provides options for your microSD card.

Phone Memory

The internal storage menu lets you view your phone's internal storage capability and available space.

- Touch  >  > **Settings**  > **Storage**.
 - View your phone's memory storage total space and space used by specific features.
 - Touch an itemized category for additional details.

Primary Storage

You can change the primary storage of your phone.

1. Touch  >  > **Settings**  > **Storage** > **Select primary storage**.
2. Select **Phone** or **SD card**.
3. Read the message and touch **OK**.

SD Card

The SD card options let you view the card's size and available space, unmount the card for safe removal from the phone, and format (erase) the SD card.

Unmount SD Card

1. Touch  >  > **Settings**  > **Storage**.
2. Scroll down the screen and touch **Unmount SD card**.
3. Read the message and touch **OK**.

Format SD Card

1. Touch  >  > **Settings**  > **Storage**.
2. Scroll down the screen and touch **Erase SD card**.
3. Read the message and touch **Erase SD card**.
4. Read the message and touch **Erase everything**.

Note: The formatting procedure erases all the data on the microSD card, after which the files CANNOT be retrieved. To prevent the loss of important data, please check the contents before you format the card.

Battery Settings

Monitor your phone's battery usage through this settings menu. View which functions are consuming your battery's charge and at what percentage.

1. Touch  >  > **Settings**  > **Battery**.
2. View your phone's battery usage statistics.
3. For additional details and settings options, touch a usage category.

PC Connection Settings

Set your phone's default connection mode when connected to the USB port of a computer.

1. Touch  >  > **Settings**  > **PC connection**.
2. Touch **Default connection type** and select an option:
 - **Charge Only** to let your PC charge your phone only.
 - **Mass Storage** to let your phone function as a removable disk when connected to the USB port of a computer.
 - When a microSD card is inserted, it is also recognized as a separate removable disk from the phone.
 - **Media Transfer** to let your phone function as a media device when connected to the USB port of a computer.
 - **Phone as Modem** to let your phone function as a modem when connected to the USB port of a computer.
3. Select the **Ask me** check box if you want to display the selection screen whenever you connect your phone to a computer.

If the **Ask me** check box is selected, the selection screen is displayed whenever you connect your phone to a computer. If you want this selection set as default, check **Remember this choice** > **Done** on the selection screen.

Apps Settings

This menu lets you view applications on your phone.

1. Touch  >  > **Settings**  > **Apps**.
2. Touch one of the following tabs to select the applications to be displayed:
 - **DOWNLOADED** to display the downloaded applications. You can also see the storage status on your phone on the bottom of the screen.
 - **ON SD CARD** to display the applications stored on the microSD card and the phone's internal storage space. You can also see the status of the primary storage on the bottom of the screen.
 - **RUNNING** to display currently the running applications. You can also see the RAM status on your phone at the bottom of the screen. Touch  > **Show cached processes** to see the cached processes of the application.

- **ALL** to display all applications on your phone and the installed SD card.

Location Access

Your Location Access settings menu lets you select how your phone determines its location (using the wireless network, GPS satellites, both, or neither).

1. Touch  >  > **Settings**  > **Location access**.
2. Touch the on/off slider next to **Access to my location** to turn location on.
3. Read the message and touch **Agree** to enable GPS satellites
4. Select the check boxes for your location options.
 - **GPS satellites** uses GPS to provide location accurate to street level.
 - **Wi-Fi & mobile network location** uses Wi-Fi and mobile networks to determine location.
 - **Qualcomm® IZat™ location services** helps your phone determine its location and conserve battery power when you use location-based apps.

Lock Screen Settings

The lock screen settings let you set your method for unlocking your phone, customize lock screen options, determine whether to show pop-up tips for unlocking the phone, and enter your owner information to be displayed on the lock screen.

Screen Lock

You can increase the security of your phone by creating a screen lock. When enabled, you have to draw the correct unlock pattern on the screen, enter the correct PIN, or enter the correct password to unlock the phone's control keys, buttons, and touchscreen.

In order from no secure to most secure, the available screen lock options are:

- None
- Swipe
- Face Unlock
- Pattern
- PIN
- Password

Important: To protect your phone and data from unauthorized access, it is recommended that you use the highest security level available (Password protection). It is also recommended you frequently change your password to ensure the safety of your phone and personal data.

Use Swipe

1. Touch  >  > Settings  > Lock screen > Screen lock.
2. Touch **Swipe** to save the setting.

Note: You can customize the swipe patterns. See [Swipe Options](#).

Use Face Unlock

1. Touch  >  > Settings  > Lock screen > Screen lock.
2. Touch **Face Unlock**.
3. Read a message and touch **Set it up**.
4. Find an indoor location not too bright and not too dark, and then touch **Continue**.
5. Using the front-facing camera, adjust the phone so that your face fits in the area outlined with dots on the screen.
6. The message “**Face captured.**” appears when the Face Unlock set up was successful.
7. Touch **Continue** and create a security pattern or PIN. You will be prompted to set up a backup lock. Select **Pattern** or **PIN** and set it up.
8. Touch **OK** to save the setting.
 - To unlock, turn on the phone and look at the front-facing camera so that it recognizes you. If it fails to recognize you, a backup lock screen appears. Enter a pattern or PIN to unlock.

Use a Screen Unlock Pattern

1. Touch  >  > Settings  > Lock screen > Screen lock.
2. Touch **Pattern**.
3. Draw the screen unlock pattern by connecting at least four dots in a vertical, horizontal, or diagonal direction. Lift your finger from the screen when finished.
4. The phone records the pattern. Touch **Continue**.
5. When prompted, draw the screen unlock pattern again, and then touch **Confirm**.

6. Enter a backup PIN, touch **Continue**, re-enter the PIN, and touch **OK** to save your screen unlock pattern.

Note: Clear the **Make pattern visible** check box if you do not want the unlock pattern to display on the screen when you unlock it.

Note: To change your unlock screen pattern, touch  >  > **Settings**  > **Lock screen** > **Screen lock**.

Use a Screen Unlock PIN

1. Touch  >  > **Settings**  > **Lock screen** > **Screen lock**.
2. Touch **PIN**.
3. Enter a PIN, touch **Continue**, re-enter your PIN, and touch **OK** to save the setting.

Use a Screen Unlock Password

1. Touch  >  > **Settings**  > **Lock screen** > **Screen lock**.
2. Touch **Password**.
3. Enter a password, touch **Continue**, and then enter your password again to confirm it.

Important: To protect your phone and data from unauthorized access, it is recommended that you use the screen unlock password (highest security). It is also recommended that you frequently change your password to ensure the safety of your phone and personal data.

Disable the Screen Lock

Follow the instructions below to turn off your current screen lock.

1. Touch  >  > **Settings**  > **Lock screen** > **Screen lock**.
2. Draw your unlock screen pattern, enter your PIN, or enter your password.
3. Touch **None** or **Swipe**.

Improve Face Matching

Capture your face in different conditions to improve the face matching ability of the Face Unlock feature.

1. Touch  >  > **Settings**  > **Lock screen** > **Improve face matching**.
2. Enter a pattern or PIN.
3. Read the instructions and touch **Continue**.

4. Capture your face.
5. When the message "Face captured." appears, touch **Done**.

Liveness Check

Enabling this option requires you to blink when unlocking the screen with the Face Unlock feature.

1. Touch  >  > **Settings**  > **Lock screen**.
2. Select the **Liveness check** check box.
3. To unlock, blink your eyes when "**Blink now**" appears on the screen.

Automatically Lock

Set the delay time the screen lock feature activates after it goes to sleep.

1. Touch  >  > **Settings**  > **Lock screen** > **Automatically lock**.
2. Select the delay time to lock the screen.

Power Button Instantly Locks

Activate the screen lock feature by pressing the **Power** button.

1. Touch  >  > **Settings**  > **Lock screen**.
2. Select the **Power button instantly locks** check box.

Owner Information

You can display the owner information on the lock screen.

1. Touch  >  > **Settings**  > **Lock screen** > **Owner info**.
2. Type text to display on the lock screen. The text will be displayed on the lock screen when the **Show owner info on lock screen** check box is selected except when any battery information is displayed at the same area.

Swipe Options

When the Screen lock is set to Swipe, you can set options for a quick start of the phone. When using this feature, you can go right to your favorite apps from your lock screen.

1. Touch  >  > **Settings**  > **Lock screen** > **Swipe settings**.
2. Select the desired swipe patterns:

- **Start only:** Sets the Start icon only.
 - **Start + 1 app:** Sets the Start icon and one app shortcut.
 - **Start + 2 apps:** Sets the Start icon and two app shortcuts.
 - **Start + 3 apps:** Sets the Start icon and three app shortcuts.
 - If you select an option to add app shortcuts, select the pattern for icon layout, touch any add icon  to assign the Start icon  and touch **Next**. Then touch the remaining add icons  and assign apps.
3. Touch **OK** to confirm.

Lock Screen Widgets

You can add widgets to your phone's lock screen and swipe between them. This feature allows you to access many of your favorite features straight from the lock screen.

Note: You can only use the Widgets option of the lock screen if you set it up to start with Swipe.

Add a Widget to the Lock Screen

1. When the Screen lock is set to Swipe, slide the screen from right to left until you get to the page with a Plus icon on it.
2. Touch . A list of widgets appears.
3. Touch the widget you want to add. You can add one widget to each page.

Tip: You can add up to five widgets to your lock screen. To reorder locations, touch and hold a widget, and then drag it to a new location you want.

Remove a Lock Screen Widget

- Touch and hold the widget you want to remove, and then drag it to "X Remove" at the top of the screen, and then release it when it turns red.

Security Settings

The Security settings menus let you set encryption options, password visibility, administrator settings, and credential storage options.

Encrypt & Decrypt Data

You can encrypt your phone and the SD card installed in your phone. For both encryption and decryption, you need to enter a PIN or password for the screen lock. To set up a PIN or password, see [Screen Lock](#).

Warning: Refrain from using the phone, including removing the battery and the SD card, during the encryption process as some or all of your data will be lost if the encryption process is interrupted.

1. Charge the battery first.
2. With your phone connected to the power source, touch  >  > **Settings**  > **Security** > **Encrypt & Decrypt data**.
3. Select the target to be encrypted from **Phone & SD card**, **Phone**, or **SD card**.
4. Read the message and touch **Next**.
5. Enter a PIN or password and touch **Next**.
6. Read the message and touch **Encrypt**.

Make Passwords Visible

You can hide your password or PIN number as you type it.

1. Touch  >  > **Settings**  > **Security**.
2. Clear the **Make passwords visible** check box.

Device Administrators

You can disable the authority to be a device administrator of certain applications. If disabled, you will typically lose some functionality in those applications, such as the ability to sync new email or calendar events to your phone.

1. Touch  >  > **Settings**  > **Security** > **Device administrators**.
2. Touch an application you want to disable the authority to be a device administrator.

Unknown Sources

Follow the steps below to allow installation of apps from unknown sources.

1. Touch  >  > **Settings**  > **Security** > **Unknown sources**.
2. Read the information on the screen and touch **OK**.

Verify Apps

You can choose to be warned before installing harmful apps.

1. Touch  >  > **Settings**  > **Security**.
2. Select the **Verify apps** check box.

Credential Storage

These options let you control how your phone accesses and stores secure certificates, passwords, and other credentials.

Trusted Credentials

You can see the trusted credentials on your phone's system.

1. Touch  >  > **Settings**  > **Security** > **Trusted credentials**.
2. Touch an item to read the information.

Install from SD Card

You can install encrypted certificates from the SD card.

1. Touch  >  > **Settings**  > **Security** > **Install from SD card**.
2. Touch an available certificate.
3. Follow the onscreen instructions.

Clear Credentials

You can remove all the credentials on your phone.

1. Touch  >  > **Settings**  > **Security** > **Clear credentials**.
2. Touch **OK**.

Language & Input Settings

Your phone's language and input settings let you select a language for the phone's menus and keyboards, select and configure keyboard settings, configure speech input settings, and more. For details, see [Enter Text](#).

Language

The language settings menu lets you select an onscreen language and add custom words to your phone's user dictionary.

1. Touch  >  > **Settings**  > **Language & input** > **Language**.
2. Touch an available language (**English** or **Español**).

Spell Checker

This feature allows you to spell check text as you type it.

1. Touch  >  > **Settings**  > **Language & input**.
2. Touch the check box next to **Spell checker** to enable the spell checking.
 - Touch  to set the spell checker options.
 - Touch  to select the language from the list that you want to use.

Personal Dictionary

Your phone lets you add words to a personal phone dictionary to improve word suggestion and spell check when entering text. You can use the user dictionary option to add new words to the dictionary.

1. Touch  >  > **Settings**  > **Language & input** > **Personal dictionaries**.
2. Select a language.
3. Touch  at the top right of the screen to enter a word or phrase, as well as a shortcut to easily use that word or phrase.
4. Choose a language for that word or phrase if you want.
5. Touch  to save. (A list of words you have added to the dictionary is displayed.)
 - Touch a word to edit it.
 - To delete a word, touch a word, and then touch .

Default Text Input

You can select the default input method you will use when accessing the keyboard.

1. Touch  >  > **Settings**  > **Language & input** > **Default**.
2. Select **Google Keyboard** or **Swype**.

Google Keyboard Settings

You can customize the Google Keyboard settings as you like.

1. Touch  >  > **Settings**  > **Language & input**, and then touch  next to **Google Keyboard**.
2. Choose from the following options.
 - **Input languages:** Touch to select the input language. The dictionary for the selected language will be enabled.

- **Auto-capitalization:** Check to automatically set the first letter of a sentence to upper case where available.
- **Vibrate on keypress:** Check to activate vibration when a key is touched.
- **Sound on keypress:** Check to activate a clicking sound when a key is touched.
- **Popup on keypress:** Check to display a larger image of the key above it when you touch it.
- **Voice input key:** Touch to select where the Voice Input key is displayed.
- **Personal dictionary:** Touch to access and manage your personal dictionary.
- **Add-on dictionaries:** Touch to select the dictionary you want to use.
- **Block offensive words:** Check to block potentially offensive words.
- **Auto-correction:** Touch to allow the space bar and punctuation to automatically correct mistyped words.
- **Show correction suggestions:** Touch to select when correction suggestions are displayed.
- **Enable gesture typing:** Check to input a word by sliding through the letters.
- **Dynamic floating preview:** Check to see the suggested word while using the gesture typing feature.
- **Show gesture trail:** Check to display the gesture path of the word as you slide across the keyboard.
- **Phrase gesture:** Check to input spaces during gestures by sliding to the space key.
- **Next-word suggestions:** Check to have your phone predict the next word based on what you have already typed.
- **Advanced settings:** Touch to open the settings for expert users.
- **Send feedback:** Touch to submit your feedback or suggestion.
- **About Google Keyboard:** Touch to display the version information of Google Keyboard and view legal and licensing information.

Swype Keyboard Settings

You can customize the Swype settings as you like.

1. Touch  >  >  > **Language & input**, and then touch  next to **Swype**.

2. Choose from the following options:

- **Settings:** Touch to show the following settings menus for Swype.
 - **Vibrate on keypress:** Select to activate vibration when a key is touched.
 - **Sound on keypress:** Select to play tones when a key is touched.
 - **Pop-up on keypress:** Select to display a larger image of the key above it when you touch it.
 - **Long-press delay:** Select to set the time needed to select alternate characters.
 - **Show complete trace:** Select to display the complete Swype path.
 - **Auto-correction:** Select to automatically correct mistyped words.
 - **Auto-capitalization:** Select to automatically capitalize the first letter of sentence-initial words where available.
 - **Auto-spacing:** Select to automatically insert spaces between words.
 - **Next word prediction:** Select to predict words based on the previously entered text.
 - **Smart editor:** Select to underline the words that may be incorrect.
 - **Show Voice key:** Select to display the voice key on the Swype keyboard.
 - **Enable handwriting:** Select to enable the handwriting function.
- **Themes:** Touch to select the theme for the Swype keyboard.
- **My Words:** Touch to configure the dictionary management and the data management settings.
- **Languages:** Touch to select the language to use on Swype.
- **Gestures:** Touch to learn some useful shortcuts on the Swype keyboard.
- **Help:** Touch to see some helpful information, such as how to use the Swype keyboard and the version information, or enable the tip function.
- **Updates:** Touch to perform an update.

Google Voice Typing Settings

The Google voice typing settings menu lets you change the input languages and block offensive words.

1. Touch  >  > **Settings**  > **Language & input**, and then check the **Google voice typing** check box.
2. Touch  next to **Google voice typing** to configure its settings:
 - **Choose input languages** to select languages for Google voice typing. Removing the check mark from the Automatic field allows you to select other languages.
 - **Block offensive words** to replace recognized offensive words in transcriptions with [*] when entering text by speaking.
 - **Offline speech recognition** to download the languages you want to use offline.

Voice Search

You can configure the settings of the voice search feature.

1. Touch  >  > **Settings**  > **Language & input** > **Voice Search**.
2. Choose from the following options:
 - **Language** to set the language used when entering text by speaking.
 - **Speech output** to select when to use voice search.
 - **Block offensive words** to replace recognized offensive words in transcriptions with [*] when entering text by speaking.
 - **Hotword detection** to launch voice search by saying "Google."
 - **Offline speech recognition** to download the speech recognition data for offline use.
 - **Bluetooth headset** to record audio through Bluetooth headset if available.

Text-to-Speech Output

Your phone can convert text into audible speech in some reading apps such as TalkBack (see [TalkBack](#)). You may select the language you hear or adjust its speed.

1. Touch  >  > **Settings**  > **Language & input** > **Text-to-speech output**.
2. Select your engine. Touch  to configure the settings of the selected engine.
3. Touch **Speech rate** and select a speed.
4. Touch **Listen to an example** to play a short demonstration of the set speech synthesis.

Pointer Speed

You can increase the speed of your mouse pointer movement according to your needs.

1. Touch  >  > **Settings**  > **Language & input** > **Pointer speed**.
2. Use the slider to set the speed and touch **OK**.

Back Up and Reset Phone

Your phone's Backup & reset menu lets you back up your phone's data and settings to Google servers before resetting your phone to the original factory settings. The Factory data reset erases all data from the phone's application storage, including:

- Your Google Account
- All other email and social networking accounts
- System and application data and settings
- Downloaded applications

Backup and Restore

To set your backup and restore options:

1. Touch  >  > **Settings**  > **Backup & reset**.
2. Select your backup and restore options.
 - **Back up my data:** This option lets you back up your app data, Wi-Fi passwords, and other settings to Google servers.
 - **Backup account:** Select a Google Account for your phone backup.
 - **Automatic restore:** This option lets you restore backed up settings and data when reinstalling an application after a factory data reset.

Factory Data Reset

Tip: Before performing a factory data reset on your phone, you may want to unmount the microSD card to avoid losing any data you may have stored on it. Touch  >  > **Settings**  > **Storage** > **Unmount SD card** to unmount the storage card.

1. Touch  >  > **Settings**  > **Backup & reset**.
2. Touch **Factory data reset**.

3. Read the factory data reset information, select the **Erase SD card** check box if necessary, and touch **Reset phone**.
4. Touch **Erase everything**. Your phone will power down and reset itself, which may take up to 10 minutes.

Accounts

The Accounts settings menu lets you add and manage all your email, social networking, and picture and video sharing accounts.

Set Up a New Account

1. Touch  >  > **Settings**  > **Add account**.
2. Touch an account type.
 - Corporate, Email, Google, etc.
3. Follow the instructions on the screen to set up an account.
 - Depending on the account type, you may need to enter an email address or user address, password, domain name, or other information. For Corporate Sync accounts, contact your server administrator to determine what information you will need.

Manage Existing Accounts

1. Touch  >  > **Settings** .
2. Select an account type, such as Corporate, Google, Email.
3. Manage the settings or select an account. Available settings menus vary according to the account type.
 - Select a check box next to the item to sync.
 - Touch  > **Sync now** to sync immediately.
 - Touch  > **Remove account** to delete the account from your phone.

Date & Time Settings

Use the Date & Time settings menu either to automatically use the network-provided date and time or manually set these values, as well as select time and date format options.

1. Touch  >  > **Settings**  > **Date & time**.

2. Clear the **Automatic date & time** check box if necessary.
3. Clear the **Automatic time zone** check box if necessary.
4. Touch **Set date**. Adjust the date, month, and year by scrolling each value vertically. Touch **Done** when finished.
5. Touch **Set time**. Adjust the hour and minute, and select AM or PM by scrolling each value vertically. Touch **Done** when finished.
6. Touch **Select time zone**, and then select a time zone from the onscreen list. Scroll down the list to view additional time zones.
7. Touch **Use 24-hour format** to toggle between 12-hour or 24-hour format.
8. Touch **Choose date format** to select how the date information is displayed on your phone.

Accessibility Settings

The Accessibility menu lets you enable and manage accessibility-related applications.

TalkBack

TalkBack provides spoken feedback to help visually impaired users.

1. Touch  >  > **Settings**  > **Accessibility** > **TalkBack**.
2. Touch the on/off slider to turn TalkBack on.
3. Touch **SETTINGS** to configure its settings.

Magnification Gestures

Magnification gestures menu lets you zoom in and out by triple-tapping the screen.

1. Touch  >  > **Settings**  > **Accessibility** > **Magnification gestures**.
2. Touch the on/off slider to turn Magnification gestures on.

Note: The triple-tap magnification gesture will work everywhere on your phone except for the keyboard.

Large Text

You can make text appear bigger on the screen.

1. Touch  >  > **Settings**  > **Accessibility**.
2. Select the **Large text** check box.

Power Button Ends Call

This feature allows you to use the power button to end the call.

1. Touch  >  > **Settings**  > **Accessibility**.
2. Select the **Power button ends call** check box.

Auto-Rotate Screen

With this feature, you can view the screen in either portrait or landscape orientation by turning the phone sideways.

1. Touch  >  > **Settings**  > **Accessibility**.
2. Select the **Auto-rotate screen** check box.

Tip: You can also select this option from  >  > **Settings**  > **Display** > **Auto-rotate screen**.

Speak Passwords

Let your phone speak the password you enter.

1. Touch  >  > **Settings**  > **Accessibility**.
2. Select the **Speak passwords** check box.

Accessibility Shortcut

Accessibility shortcut allows you to quickly turn on accessibility features.

1. Touch  >  > **Settings**  > **Accessibility** > **Accessibility shortcut**.
2. Touch the on/off slider to turn Accessibility shortcut on.
 - To use the gesture, press and hold the power button until you hear a sound or feel a vibration, and then touch and hold two fingers on the screen until you hear an audio confirmation.

Text-to-Speech Output

Let your phone speak the password you enter. See [Text-to-Speech Output](#).

Touch & Hold Delay

You can set the delay time when the screen recognizes the touch and hold operation.

1. Touch  >  > **Settings**  > **Accessibility** > **Touch & hold delay**.

2. Select **Short**, **Medium**, or **Long**.

Activate This Device

The Activate this device menu lets you activate a new device or use additional self-service options such as checking the status of an in-service device.

1. Touch  >  > **Settings**  > **Activate this device**.
2. Follow the onscreen instructions.

About Phone

The About Phone menu lets you access important phone information, search for and apply updates, and view legal and safety information.

4G settings

The 4G settings menu displays the network provider and the IP address.

- Touch  >  > **Settings**  > **About phone** > **4G settings**.

Status

The Status menu displays important information about your phone, including battery status, phone number, network, and signal strength.

- Touch  >  > **Settings**  > **About phone** > **Status**.

Legal Information

Access the Legal Information menu to view important license and legal information.

1. Touch  >  > **Settings**  > **About phone** > **Legal information**.
2. Select the information you wish to review:
 - Open source licenses
 - Google legal
 - Privacy Alert

System Update

The System update menu lets you update your PRL (preferred roaming list), your data user profile, your Android software, and your phone firmware.

1. Touch  >  > **Settings**  > **System update**.

2. Select an option and follow the prompts to complete the updates. For complete system update information, see [Update Your Phone](#).

Important Information for C6725

Important Safety Information – page 2

Manufacturer's Warranty – page 15

End User License Agreement – page 19

General Terms and Conditions of Service – page 24

Important Message from [redacted] – page 54

Important Safety Information

This booklet contains important operational and safety information that will help you safely use your phone. Failure to read and follow the information provided in this booklet may result in serious bodily injury, death, or property damage.

General Precautions

There are several simple guidelines to operating your phone properly and maintaining safe, satisfactory service.

- To maximize performance, do not touch the portions of your phone where the internal antennas are located while using the phone.
- Speak directly into the mouthpiece.
- Do not expose your phone to direct sunlight for extended periods of time (such as on the dashboard of a car).
- Although your phone is quite sturdy, it is a complex piece of equipment and can be broken. Avoid dropping, hitting, bending, or sitting on it.
- Any changes or modifications to your phone not expressly approved in this document could void your warranty for this equipment and void your authority to operate this equipment.

Note: For the best care of your phone, only authorized personnel should service your phone and accessories. Failure to do so may be dangerous and void your warranty.

Maintaining Safe Use of and Access to Your Phone

Do Not Rely on Your Phone for Emergency Calls

Mobile phones operate using radio signals, which cannot guarantee connection in all conditions. Therefore you should never rely solely upon any mobile phone for essential communication (e.g., medical emergencies). Emergency calls may not be possible on all cellular networks or when certain network services or mobile phone features are in use. Check with your local service provider for details.

Using Your Phone While Driving

Talking on your phone while driving (or operating the phone without a hands-free device) is prohibited in some jurisdictions. Laws vary as to specific restrictions. Remember that safety always comes first.

Tip: Purchase an optional hands-free accessory at your local store, or call 1-866-866-7509.

Following Safety Guidelines

To operate your phone safely and efficiently, always follow any special regulations in a given area. Turn your phone off in areas where use is forbidden or when it may cause interference or danger.

Using Your Phone Near Other Electronic Devices

Most modern electronic equipment is shielded from radio frequency (RF) signals. However, RF signals from wireless phones may affect inadequately shielded electronic equipment.

RF signals may affect improperly installed or inadequately shielded electronic operating systems or entertainment systems in motor vehicles. Check with the manufacturer or their representative to determine if these systems are adequately shielded from external RF signals. Also check with the manufacturer regarding any equipment that has been added to your vehicle.

Consult the manufacturer of any personal medical devices, such as pacemakers and hearing aids, to determine if they are adequately shielded from external RF signals.

Note: Always turn off the phone in healthcare facilities, and request permission before using the phone near medical equipment.

Turning Off Your Phone Before Flying

Turn off your phone before boarding any aircraft. To prevent possible interference with aircraft systems, the U.S. Federal Aviation Administration (FAA) regulations require you to have permission from a crew member to use your phone while the plane is on the ground. To prevent any risk of interference, FCC regulations prohibit using your phone while the plane is in the air.

Turning Off Your Phone in Dangerous Areas

To avoid interfering with blasting operations, turn your phone off when in a blasting area or in other areas with signs indicating two-way radios should be turned off. Construction crews often use remote-control RF devices to set off explosives.

Turn your phone off when you're in any area that has a potentially explosive atmosphere. Although it's rare, your phone and accessories could generate sparks. Sparks can cause an explosion or fire, resulting in bodily injury or even death. These areas are often, but not always, clearly marked. They include:

- Fueling areas such as gas stations.
- Below deck on boats.
- Fuel or chemical transfer or storage facilities.
- Areas where the air contains chemicals or particles such as grain, dust, or metal powders.
- Any other area where you would normally be advised to turn off your vehicle's engine.

Note: Never transport or store flammable gas, flammable liquids, or explosives in the compartment of your vehicle that contains your phone or accessories.

Restricting Children's Access to Your Phone

Your phone is not a toy. Do not allow children to play with it as they could hurt themselves and others, damage the phone or make calls that increase your invoice.

Waterproof Capability

Your phone is waterproof and meets IPX5 and IPX7 standards, immersible for up to 30 minutes at a depth not exceeding one meter (about 3.28 feet). Exposing your phone to water outside these limits or not following the precautions can result in water damage.

To ensure that your phone maintains waterproof capability, the following precautions must be observed.

- Make sure the battery cover is properly sealed by squeezing around the edges of the cover. The charger/ accessory jack and headset jack ports do not have covers because they are waterproof.

- Do not spray or immerse your phone in liquids other than fresh water or tap water.
- Do not expose your phone to water heated in excess of 104° F (40° C), or to liquids other than water, such as detergent, beverages, or chlorinated or treated water. Should your phone be accidentally exposed to other liquids, rinse the phone gently in clean fresh water.
- The touch panel and touch keys will not operate when the phone is wet.
- Your phone is inoperable under water and should be dried as quickly as possible when wet.
- Do not use the charger/accessory jack for charging, data transmission, etc., until the phone is completely dry.

If your phone gets wet:

Water lodged in the headset jack may cause the phone to falsely detect an inserted headset, in which case the loudspeaker and/or earpiece

audio will be disabled until the water is removed. Water in the microphone port may affect outbound audio quality. These are temporary conditions and will subside once the phone is dry.

1. Do not open the battery door as this may allow water to get inside the sealed portion of the phone.
2. Wipe the phone surfaces with a dry clean cloth.
3. Water in the phone's open ports may affect sound quality and should be removed with puffs of air directly into the ports. Phone audio may not operate properly until ports are dry. Apply a dry clean cloth to the open areas and crevices to remove the moisture left on the phone: microphones, speakers, power button, volume button, headset jack, and charger/accessory jack.
4. Repeat the process until the phone is completely dry.

Charging

- Dry your phone with a clean cloth before charging.
- Do not touch the charger, charging cable, or charger/ accessory jack with wet hands. Doing so may cause electric shock, injury, or product failure.
- Do not charge your phone in a wet or damp place, such as in a bathroom or near a kitchen sink.

Using Your Phone With a Hearing Aid Device

A number of phones have been tested for hearing aid device compatibility. When some wireless phones are used with certain hearing devices (including hearing aids and cochlear implants), users may detect a noise which can interfere with the effectiveness of the hearing device.

Some hearing devices are more immune than others to this interference noise, and phones also vary in the amount of interference noise they may generate. ANSI standard C63.19 was developed to provide a standardized means of measuring both wireless phone and hearing devices to determine usability rating categories for both.

Ratings have been developed for mobile phones to assist hearing device users find phones that may be compatible with their hearing device. Not all phones have been rated for compatibility with hearing devices. Phones that have been rated have a label located on the box. **Your has an M4 and a T3 rating.**

These ratings are not guarantees. Results will vary depending on the user's hearing device and individual type and degree of hearing loss. If a hearing device is particularly vulnerable to interference noise, even a phone with a higher rating may still cause unacceptable noise levels in the hearing device. Trying out the phone with

your hearing device is the best way to evaluate it for your personal needs.

M-Ratings: Phones rated M3 or M4 meet FCC requirements for hearing aid compatibility and are likely to generate less interference to hearing devices than unrated phones. (M4 is the better/higher of the two ratings.)

T-Ratings: Phones rated T3 or T4 meet FCC requirements and are likely to be more usable with a hearing device's telecoil ("T Switch" or "Telephone Switch") than unrated phones. (T4 is the better/higher of the two ratings. Note that not all hearing devices have telecoils in them.)

Note: This phone has been tested and rated for use with hearing aids for some of the wireless technologies that it uses. However, there may be some newer wireless technologies used in this phone that have not been tested yet for use with hearing aids. It is important to try the different features of this phone thoroughly and in different locations, using your hearing aid or cochlear implant, to determine if you hear any interfering noise. Consult your service provider or the manufacturer of this phone for information on hearing aid compatibility. If you have questions about return or exchange policies, consult your service provider or phone retailer.

Hearing aid devices may also be measured for immunity to interference noise from wireless phones and should have ratings similar to phones. Ask your hearing healthcare professional for the rating of your hearing aid. Add the rating of your hearing aid and your phone to determine probable usability:

- Any combined rating equal to or greater than six offers excellent use.
- Any combined rating equal to five is considered normal use.
- Any combined rating equal to four is considered usable.

Thus, if you pair an M3 hearing aid with an M3 phone, you will have a combined rating of six for “excellent use.” This is synonymous for T ratings.

further suggests you experiment with multiple phones (even those not labeled M3/T3 or M4/T4) while in the store to find the one that works best with your hearing aid device. Should you experience interference or find the quality of service unsatisfactory after purchasing your phone, promptly return it to the store within 14 days of purchase. (A restocking fee may be applied to exchanges. Visit [.com/returns](#) for details.) More information about hearing aid

compatibility may be found at: [fcc.gov](#), [fda.gov](#), and [accesswireless.org](#).

Getting the Best Hearing Device Experience With Your Phone

To further minimize interference, move the phone around to find the point with least interference.

Caring for the Battery

Protecting Your Battery

The guidelines listed below help you get the most out of your battery’s performance.

- Recently there have been some public reports of wireless phone batteries overheating, catching fire, or exploding. It appears that many, if not all, of these reports involve counterfeit or inexpensive, aftermarket-brand batteries with unknown or questionable manufacturing standards. [REDACTED] is not aware of similar problems with [REDACTED] phones

resulting from the proper use of batteries and accessories approved by the manufacturer or the manufacturer of your phone. Use only approved or manufacturer-approved batteries and accessories found at Stores or through your phone's manufacturer, or call 1-866-866-7509 to order. They're also available at [.com/accessories](http://www.samsung.com/accessories). Buying the right batteries and accessories is the best way to ensure they're genuine and safe.

- Do not disassemble, open, crush, bend, deform, puncture, or shred the battery.
- Do not modify or remanufacture, attempt to insert foreign objects into the battery, immerse or expose to water or other liquids, expose to fire, explosion, or other hazard.
- Avoid dropping the phone or battery. If the phone or battery is dropped, especially on a hard surface, and the user suspects damage, take it to a service center for inspection.

- Improper battery use may result in a fire, explosion or other hazard.
- Do not short-circuit a battery or allow metallic conductive objects to contact battery terminals.
- Keep the metal contacts on top of the battery clean.
- Battery usage by children should be supervised.

Charging

- In order to avoid damage, charge the battery only in temperatures that range from 32° F to 113° F (0° C to 45° C).
- Don't use the battery charger in direct sunlight or in high humidity areas, such as the bathroom.
- The battery may need recharging if it has not been used for a long period of time.
- It's best to replace the battery when it no longer provides acceptable performance. It can be recharged hundreds of times before it needs replacing.

Storing

- Don't store the battery in high temperature areas for long periods of time. It's best to follow these storage rules:
 - Less than one month:
-4° F to 140° F (-20° C to 60° C)
 - More than one month:
-4° F to 113° F (-20° C to 45° C)

Disposal of Lithium Ion (Li-Ion) Batteries

- Promptly dispose of used batteries in accordance with local regulations.
- Never dispose of the battery by incineration.
- Do not handle a damaged or leaking Li-Ion battery, as you can be burned.
- For safe disposal options of your Li-Ion batteries, contact your nearest authorized service center.

Special Note: Be sure to dispose of your battery properly. In some areas, the disposal of batteries in household or business trash may be prohibited.

Radio Frequency (RF) Energy

Understanding How Your Phone Operates

Your phone is a radio transmitter and receiver. When it's turned on, it receives and transmits radio frequency (RF) signals. Your phone is designed to transmit just enough RF power to reach the network. The system handling your call controls the RF power level. Depending on network conditions, your phone may operate at an actual Specific Absorption Rates (SAR) level below the maximum value specified. Your phone is designed not to exceed the recommended international guidelines for limits on RF exposure.

Knowing Radio Frequency Safety

The design of your phone complies with updated NCRP standards described below.

In 1991–92, the Institute of Electrical and Electronics Engineers (IEEE) and the American National Standards Institute (ANSI) joined in updating ANSI's 1982 standard for safety levels with respect to human exposure to RF signals. More than 120 scientists, engineers and physicians from universities, government health agencies and industries developed this updated standard after reviewing the available body of research. In 1993, the Federal Communications Commission (FCC) adopted this updated standard in a regulation. In August 1996, the FCC adopted a hybrid standard consisting of the existing ANSI/IEEE standard and the guidelines published by the National Council of Radiation Protection and Measurements (NCRP).

Body-Worn Operation

To maintain compliance with FCC RF exposure guidelines, if you wear a handset on your body, use a -supplied or -approved carrying case, holster or other body-worn accessory. If you do not

use a body-worn accessory, ensure the antennas are at least **0.39 inches (1.0 centimeter)** from your body when transmitting. Use of non-approved accessories may violate FCC RF exposure guidelines. Other accessories used with this phone for body-worn operations must not contain any metallic components and must provide at least **0.39 inches (1.0 centimeter)** separation distance between the antennas and the user's body. For more information about RF exposure, visit the FCC website at fcc.gov.

Specific Absorption Rates (SAR) for Wireless Phones

The SAR value corresponds to the relative amount of RF energy absorbed into the head of a user of a wireless handset.

The SAR value of a phone is the result of an extensive testing, measuring and calculation process. It does not represent how much RF the phone emits. All phone models are tested at their highest value in strict laboratory settings.

But when in operation, the SAR of a phone can be substantially less than the level reported to the FCC. This is because of a variety of factors, including its proximity to a base station antenna, phone design, and other factors. What is important to remember is that each phone meets strict federal guidelines. Variations in SARs do not represent a variation in safety.

All phones must meet the federal standard, which incorporates a substantial margin of safety. As stated above, variations in SAR values between different model phones do not mean variations in safety. SAR values at or below the federal standard of 1.6 W/kg are considered safe for use by the public.

The highest reported SAR values of the : are:

Head: 1.29 W/kg

Body-worn: 0.95 W/kg

Hotspot: 1.48 W/kg

Phone models may have different versions and more than one value. Changes in design

or components may occur over time and some changes could affect SAR values. More information on the phone's SAR can be found on the following FCC website: <http://fcc.gov/oet/ea/>.

FCC Radio Frequency Emission

This phone meets the FCC Radio Frequency Emission Guidelines.

FCC ID number: V65C6725

FCC Notice

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the direction of the internal antennas.

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Owner's Record

The model number, regulatory number, and serial number are located on a nameplate inside the battery compartment. Record the serial number in the space provided below. This will be helpful if you need to contact us about your phone in the future.

Model:

Serial No.:

Manufacturer's Warranty

Your phone has been designed to provide you with reliable, worry-free service. If for any reason you have a problem with your equipment, please refer to the manufacturer's warranty in this section.

For information regarding the terms and conditions of service for your phone, please visit

[.com](http://www.kyoceramobile.com) or call : Customer Service at
1-888-211-4727.

Manufacturer's Warranty

Kyocera Communications, Inc. ("KYOCERA") offers you, the original purchaser who has purchased the enclosed subscriber unit ("Product") only from an authorized dealer in the United States, a limited warranty that the Product, including accessories in the Product's package, will be free from defects in material or workmanship as follows:

A. ONE (1) YEAR LIMITED WARRANTY: For a period of one (1) year from the date of original purchase, KYOCERA will, at its option, either repair or replace a defective Product (with new or rebuilt parts/replacements).

B. LIMITED WARRANTY ON REPAIRED/REPLACED PRODUCTS: For a period equal to the remainder of the limited warranty period on the original Product or, on warranty repairs which have been effected on Products for 90 days after the date of its repair or replacement, whichever is longer, KYOCERA will repair or replace (with new or rebuilt parts/replacements) defective parts or Products used in the repair or replacement of the original Product under the Limited Warranty on it.

Proof that the Product is within the warranty period in the form of a bill of sale or warranty repair document that includes the date of purchase, Product serial number and the authorized dealer's name and address, must be presented to obtain warranty service. This

limited warranty is not transferable to any third party, including but not limited to any subsequent purchaser or owner of the Product. Transfer or resale of a Product will automatically terminate warranty coverage with respect to it.

This limited warranty covers batteries only if battery capacity falls below 80% of rated capacity or the battery leaks. Also this limited warranty does not cover any battery if (i) the battery has been charged by a battery charger not specified or approved by KYOCERA for charging the battery, (ii) any of the seals on the battery are broken or show evidence of tampering, or (iii) the battery has been used in equipment other than the Kyocera device for which it is specified.

This limited warranty covers the Product only as originally supplied and does not cover and is void with respect to the following: (i) Products which have been improperly installed, repaired, maintained or modified (including the antenna); (ii) Products which have been subjected to

misuse (including Products used in conjunction with hardware electrically or mechanically incompatible or Products used with software, accessories, goods or ancillary or peripheral equipment not supplied or expressly authorized by KYOCERA for use), abuse, accident, physical damage, abnormal use or operation, improper handling or storage, neglect, exposure to fire, water (except for product certified for protection against water; see the Kyocera product website for details on your Product) or excessive moisture or dampness or extreme changes in climate or temperature; (iii) Products operated outside published maximum ratings; (iv) cosmetic damage; (v) Products on which warranty stickers or Product serial numbers have been removed, altered, or rendered illegible; (vi) customer instruction; (vii) cost of installation, set up, removal or reinstallation; (viii) signal reception problems (unless caused by defect in material or workmanship); (ix) damage the result of fire,

flood, acts of God or other acts which are not the fault of KYOCERA and which the Product is not specified to tolerate, including damage caused by mishandling and blown fuses; (x) consumables (such as memory cards, fuses, etc.); (xi) third party software or applications, data and equipment not originally supplied with the Product; (xii) any Product in which the software has not been updated to the current version; (xiii) any Product in which the operating system has been unlocked (allowing installation of a third party operating system); or (xiv) any Products which have been opened, repaired, modified or altered by anyone other than KYOCERA or a KYOCERA authorized service center. Before returning any Product for service, be sure to back up data and remove any confidential, proprietary, or personal information from the Product. KYOCERA is not responsible for damage to or loss of any software, applications, data or removable storage media.

This warranty is valid only in the United States.

REPAIR OR REPLACEMENT, AS HEREIN ABOVE PROVIDED, IS YOUR SOLE AND EXCLUSIVE REMEDY FOR BREACH OF THE LIMITED WARRANTY. KYOCERA SHALL HAVE NO LIABILITY FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES, INCLUDING, BUT NOT LIMITED TO LOSS OF PROFITS, LOST SALES, LOSS OF DATA, LOSS OF USE OF THE PRODUCT, OR ANTICIPATED PROFITS ARISING OUT OF USE OR INABILITY TO USE ANY PRODUCT (FOR EXAMPLE, WASTED AIRTIME CHARGES DUE TO THE MALFUNCTION OF A PRODUCT OR LOST APPLICATIONS). THIS WARRANTY DOES NOT COVER PRODUCTS SOLD "AS IS" OR "WITH ALL FAULTS." KYOCERA MAKES NO OTHER EXPRESS WARRANTY WITH RESPECT TO THE PRODUCTS. THE DURATION OF IMPLIED WARRANTIES, INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE IS LIMITED TO THE DURATION OF THIS EXPRESS WARRANTY.

Some states do not allow the exclusion or limitation of incidental or consequential damages, or allow limitations on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you.

This limited warranty gives you specific legal rights, and you may have other rights which vary from state to state.

End User License Agreement

Kyocera Communications, Inc. (“Kyocera”) End User License Agreement

CAREFULLY READ THE FOLLOWING TERMS AND CONDITIONS (“AGREEMENT”) BEFORE USING OR OTHERWISE ACCESSING THE SOFTWARE OR SERVICES PROVIDED WITH YOUR KYOCERA DEVICE. THE SOFTWARE AND SERVICES PROVIDED WITH YOUR KYOCERA DEVICE ARE SOLELY FOR PERSONAL USE BY YOU, THE ORIGINAL END USER, AS SET FORTH BELOW.

BY ACTIVATING, USING, DOWNLOADING OR INSTALLING THIS KYOCERA DEVICE AND/OR THE SOFTWARE PROVIDED WITH IT, YOU ARE AGREEING TO BE BOUND BY THE TERMS OF THIS LICENSE AGREEMENT. IF YOU DO NOT AGREE TO THE TERMS AND CONDITIONS OF THIS AGREEMENT, DO NOT

USE, DOWNLOAD OR OTHERWISE ACCESS THE SOFTWARE OR SERVICES AND (I) PROMPTLY RETURN THE SOFTWARE OR SERVICE TO KYOCERA OR DELETE IT; OR (II) IF YOU HAVE PURCHASED THE KYOCERA DEVICE ON WHICH THE SOFTWARE OR SERVICE IS PRE-INSTALLED, PROMPTLY RETURN THE DEVICE AND THE ACCOMPANYING SOFTWARE (INCLUDING DOCUMENTATION AND PACKAGING) TO KYOCERA OR THE KYOCERA AUTHORIZED DISTRIBUTOR FROM WHICH YOU PURCHASED THE KYOCERA DEVICE.

License: Subject to the terms and conditions of this Agreement and any other terms that may be incorporated by reference or otherwise presented to you prior to your use of the Software, Kyocera grants you a limited, non-exclusive, license to use Kyocera and third party proprietary software and services found on your Kyocera device and/or packaged with your Kyocera device, including any updates to such material by whatever means provided, and any

related documentation (“Software”). You may use the Software only as expressly authorized by this Agreement.

Limitations: This Software is licensed for use only on the single Kyocera device you originally purchased. You acknowledge and agree that ownership of the Software and all other rights associated with the Software not expressly granted in this Agreement are retained by Kyocera or its suppliers or licensors. You are not permitted to, in any way, distribute the Software or make it available over a network for use on more than the single Kyocera device for which it was originally supplied. The Software may be copied only as permitted by applicable law and as necessary for backup purposes. You may not remove any proprietary notices or labels on the Software or any copies thereof. You may not in any way, modify, reverse engineer, decompile, disassemble or create derivative works based on the Software (except to the extent that this

restriction is expressly prohibited by law). You agree that you will not attempt to circumvent, disable or modify any security technology associated with the Software. You may use the Software only in a manner that complies with all applicable laws in the jurisdictions in which you use it, including, but not limited to, applicable restrictions concerning copyright and other intellectual property rights and/or the export control regulations.

Some of the Software packaged with your Kyocera device may be provided by third parties (“Third Party Software”). Third Party Software may also be available from third party content distributors such as application stores. Third Party content may be subject to different or additional terms and conditions as determined by the Third Party Software provider. **THIRD PARTY SOFTWARE IS NOT A KYOCERA PRODUCT. KYOCERA IS NOT RESPONSIBLE FOR AND HAS NO LIABILITY WITH REGARD TO THIRD PARTY SOFTWARE.**

Open Source Software: The Software contains certain open source software which may be subject to the GNU General Public License (“GPL”), GNU Library/ Lesser General Public License (“LGPL”) and/or other copyright licenses, disclaimers and notices (“Open Source License Terms”). The applicable Open Source License Terms for the corresponding Open Source Software are reproduced and available at <http://www.opensource.org/licenses>. Please refer to the Open Source License Terms regarding your rights under such licenses to the Open Source Software. To the extent any such agreement requires that Kyocera provide you the rights to copy, modify, distribute or otherwise use any Open Source Software that are inconsistent with the limited rights granted to you in this Agreement, then such rights in the applicable Open Source License shall take precedence over the rights and restrictions granted in this Agreement, but solely with respect to such Open Source Software.

Disclaimer of Warranty and Liability: THE SOFTWARE IS PROVIDED “AS IS” WITHOUT WARRANTY OF ANY KIND. KYOCERA FURTHER DISCLAIMS ALL WARRANTIES, INCLUDING WITHOUT LIMITATION ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NONINFRINGEMENT, TITLE, ACCURACY, CORRESPONDENCE WITH DESCRIPTION AND SATISFACTORY QUALITY. TO THE MAXIMUM EXTENT PERMISSIBLE BY LAW, THE ENTIRE RISK ARISING OUT OF THE USE OR PERFORMANCE OF THE SOFTWARE REMAINS WITH YOU. IN NO EVENT WILL KYOCERA, ITS EMPLOYEES, OFFICERS, SHAREHOLDERS, LICENSORS, SUPPLIERS, CARRIER OR DISTRIBUTOR CUSTOMERS OR AFFILIATES BE HELD LIABLE FOR ANY CONSEQUENTIAL, INCIDENTAL, INDIRECT, SPECIAL, PUNITIVE, OR OTHER DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF BUSINESS PROFITS, BUSINESS INTERRUPTION, LOSS OF BUSINESS INFORMATION, OR OTHER PECUNIARY LOSS)

ARISING OUT OF THIS AGREEMENT OR THE USE OF OR INABILITY TO USE THE SOFTWARE, WHETHER BASED IN CONTRACT, TORT (INCLUDING NEGLIGENCE), STRICT PRODUCT LIABILITY OR ANY OTHER THEORY, EVEN IF KYOCERA HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES AND EVEN IF ANY LIMITED REMEDY IS DEEMED TO HAVE FAILED ITS ESSENTIAL PURPOSE. KYOCERA'S TOTAL LIABILITY FOR ANY DAMAGES UNDER THIS AGREEMENT SHALL NEVER EXCEED THE PURCHASE PRICE YOU PAID FOR THE KYOCERA DEVICE.

No software is fault free. The Software is designed for use in systems that do not require fail-safe performance. You may not use the software in any device or system in which a malfunction of the software would result in foreseeable risk of loss, injury or death to any person. This includes operation of nuclear or infrastructure facilities, medical equipment, aircraft navigation

or communication systems or use in risky or dangerous situations or environments.

Consent to Use of Data: You agree that Kyocera, its affiliates and its designated agents may collect and use technical and related information, gathered in any manner, as part of its product support services. Kyocera, its affiliates and designated agents may use this information solely to improve its products or to provide customized services or technologies to you. Kyocera will collect and use this information in accordance with its privacy policy and accordance with applicable data protection laws. Kyocera, its affiliates and designated agents may disclose this information to others, but not in a form that personally identifies you.

Modification of Software and Terms of Use: Kyocera reserves the right to from time to time modify any portion of the Software. Kyocera may be required to take these actions due to restrictions from third party licensors or due

to safety or security concerns or government restrictions or court orders.

Kyocera reserves the right to modify the terms of this Agreement at its sole discretion. Any such modification will be effective upon Kyocera or a Kyocera affiliate or agent sending notice to you by email, text message, other electronic communication or postal mail. Your continued use of the Software after such notice will constitute your binding acceptance of the Agreement as revised. Additionally, some Software may be subject to different or additional terms presented to you through a separate click-through or other type of agreement or notice prior to your use of such Software.

Termination: This License Agreement will automatically terminate without notice from or action by Kyocera if you fail to comply with any term hereof.

Governing Law: This Agreement is governed by the laws of State of California except any

conflict of law provisions. The U.N. Convention on Contracts for the International Sales of Goods is hereby excluded in its entirety from this Agreement.

Severability: If any provision of this Agreement is found to be invalid, illegal or unenforceable, the validity, legality or enforceability of the remaining provisions will not in any way be impacted or impaired.

Entire Agreement: By using or otherwise accessing the Software, you agree that this Agreement sets forth the entire agreement between you and Kyocera with regard to the Software and supersedes all prior agreements, notwithstanding the terms of any such agreements.

General Terms and Conditions of Service

Please note that these terms may not be the most current version. A current version of the terms is available at our website at .com/termsandconditions or upon request.

Basic Definitions

In this document: (1) “we,” “us,” “our,” and mean **Solutions, Inc.**, as contracting agent on behalf of the applicable affiliated entities providing the products and Services; (2) “you,” “your,” “customer,” and “user” mean an account holder with us or any user of our

Devices or Services; (3) “Device” means any phone, aircard, mobile broadband device, any other device, accessory, or other product that we provide you, we sell to you, or is active on your account with us; and (4) “Service” means -branded offers, rate plans, options, wireless services, billing services, applications, programs, products, software, or Devices on your account with us. “Service(s)” also includes any other product or service that we offer or provide to you that references these General Terms and Conditions of Service (“Ts&Cs”).

The Service Agreement

These Ts&Cs are part of your service agreement with us (the “Agreement”) and constitute a contract under which we provide you Services under terms and conditions that you accept.

THIS AGREEMENT CONTAINS A MANDATORY ARBITRATION PROVISION WITH A CLASS WAIVER, A REPRESENTATIVE ACTION WAIVER, AND A JURY WAIVER PROVISION. In addition to these Ts&Cs,

there are several parts of the Agreement, which includes but is not limited to the following: (i) the subscriber agreement and transaction materials that you receive and accept; (ii) the plan(s) that you chose as set forth in our written services and transaction materials that we provide or refer you to during the sales transaction, including on-line and telephone transactions (if your service plan is not specifically set forth in any in-store brochure or printed materials, the requirements and terms set forth in the current written Agreement and transaction materials apply); (iii) any confirmation materials and invoices that we may provide to you; and (iv) the terms set forth in the coverage map brochures. **It is important that you carefully read all of the terms of the Agreement.**

Additional Terms

Additional terms will apply when you use certain applications, programs, Devices, and services, and these terms will be provided to you prior to your use of the items. Depending on who

provides the items, the terms may come from or a third party. You are subject to any terms provided by the third party, and the terms are directly between you and that third party. is not responsible for these third-party items and associated terms. Additional terms will also apply if you activate Services as part of a bundle with another company's services (for example, cable services, home phone services, etc.). The additional terms for bundled Services may either modify or replace certain provisions in these Ts&Cs, including terms relating to activation, invoicing, payment, and disputing charges. Also, a different dispute resolution provision may apply to services provided by another company (the dispute resolution provisions in this Agreement will still apply to our Services). You will be provided details on any additional terms with your selection of any bundled Service. For employee and organization discounts, the discount percentage may vary from month-to-month based on the terms of the agreement between

your employer, association, or organization and . The discount will be zero after your agreement or your organization's agreement with ends. Additional terms and eligibility requirements regarding organization discounts will be provided to you.

Our Policies

Services are subject to our business policies, practices, and procedures ("Policies"). You agree to adhere to all of our Policies when you use our Services. Our Policies are subject to change at anytime with or without notice.

When You Accept The Agreement

You must have the legal capacity to accept the Agreement. You accept the Agreement when you do any of the following: (a) accept the Agreement through any printed, oral, or electronic statement, including on the Web by electronically marking that you have reviewed and accepted; (b)

attempt to or in any way use the Services; (c) pay for the Services; or (d) open any package or start any program that says you are accepting the Agreement when doing so. **If you don't want to accept the Agreement, don't do any of these things.**

Term Commitments & Early Termination Fees

provides a variety of Services, some of which require you to maintain Your Services on a month to month basis or for a minimum term, usually 1 or 2 years ("Term Commitment"). If your Agreement contains a Term Commitment, **you will be charged a fee ("Early Termination Fee") for each line of Service that you terminate early (i.e., prior to satisfying the Term Commitment) or for each line of Service that we terminate early for good reason (for example, violating the payment or other terms of the Agreement) but such Early Termination Fee will be prorated based on your remaining Term**

Commitment. Early Termination Fees are a part of our rates. Any Term Commitment, the length of the Term Commitment, and the applicable Early Termination Fee amounts and proration will be disclosed to you during the sales transaction.

Carefully review any Term Commitment and Early Termination Fee requirements prior to selecting Services. After you have satisfied your Term Commitment, your Services continue on a month-to-month basis under the then-current Terms and Conditions and Service policies. Services offered on a subscription basis, as described in the "Account & Service Charges" section, may not require a Term Commitment and may not automatically renew. As explained directly below, there are instances when you will not be responsible for an Early Termination Fee for terminating Services early.

When You Don't Have To Pay An Early Termination Fee

You aren't responsible for paying an Early Termination Fee when terminating Services: (a) provided on a month-to-month basis; (b) provided on a subscription basis that do not include a Term Commitment; (c) consistent with our published trial period return policy; or (d) in response to a materially adverse change that we make to the Agreement as described directly below.

Our Right To Change The Agreement & Your Related Rights

We may change any part of the Agreement at any time, including, but not limited to, rates, charges, how we calculate charges, discounts, coverage, technologies used to provide services, or your terms of Service. If you lose your eligibility for a particular rate plan or if a particular rate plan is no longer supported or available, we may change your rate plan to one for which you qualify. We

will provide you notice of material changes—and we may provide you notice of non-material changes—in a manner consistent with this Agreement (see “Providing Notice To Each Other Under The Agreement” section). If a change we make to the Agreement is material and has a material adverse effect on Services under your Term Commitment, you may terminate each line of Service materially adversely affected without incurring an Early Termination Fee only if: (a) you call us within 30 days after the effective date of the change; (b) you specifically advise us that you wish to cancel Services because of a material change to the Agreement that we have made; and (c) we fail to negate the change after you notify us of your objection to it. If you do not notify us and cancel Service within 30 days of the change, an Early Termination Fee will apply if you terminate Services before the end of any applicable Term Commitment.

Our Right To Suspend Or Terminate Services

We can, without notice, suspend or terminate any Service at any time for any reason. For example, we can suspend or terminate any Service for the following: (a) late payment; (b) exceeding an Account Spending Limit; (c) harassing/threatening/abusing/offending our employees or agents; (d) providing false or inaccurate information; (e) interfering with our operations; (f) using/suspicion of using Services in any manner restricted by or inconsistent with the Agreement and Policies; (g) breaching, failing to follow, or abusing the Agreement or Policies; (h) providing false, inaccurate, dated, or unverifiable identification or credit information or becoming insolvent or bankrupt; (i) modifying a Device from its manufacturer specifications (for example, rooting the device); (j) failing to use our Services for an extended period of time; (k) failing to maintain an active Device in connection with our

Services; or (l) if we believe the action protects our interests, any customer's interests, or our networks.

Your Right To Change Services & When Changes Are Effective

The account holder can typically change Services upon request. In some instances, changes may be conditioned on payment of an Early Termination Fee or certain other charges, or they may require a new Term Commitment. Changes to Services are usually effective at the start of the next full invoicing cycle. If the changes take place sooner, your invoice may reflect pro-rated charges for your old and new Services. We may, but are not obligated to, provide you the opportunity to authorize someone else to make changes to your Services, which will include the authority to make changes that will extend your Term Commitment. You are responsible for any changes to your Services made by a person you authorize, and

those changes will be treated as modifications to this Agreement.

Your Right To Terminate Services

You can terminate Services at any time by calling us and requesting that we deactivate all Services. In addition, if you return or provide your Device to and fail to either deactivate service on the Device or activate another Device in connection with your Service, we reserve the right to terminate your Service, and if you are subject to a Term Commitment, you may be charged all or part of an Early Termination Fee. You are responsible for all charges billed or incurred prior to deactivation. If Services are terminated before the end of your invoicing cycle, we won't prorate charges to the date of termination and you won't receive a credit or refund for any unused Services. **Except as provided above, if you are subject to an Early Termination Fee, you must also pay the invoiced Early Termination Fee for each line of Service that you terminate early.**

Credit Checks & Credit Information

We agree to provide you Services on the condition that you have and maintain satisfactory credit according to our standards and policies. You agree to provide information that we may request or complete any applications that we may provide you to facilitate our review. We rely on the credit information you furnish, credit bureau reports or other data available from commercial credit reference services, and other information (such as payment history with us) to determine whether to provide or continue to provide you Services. The Services we offer you can vary based on your credit history. We may at any time, based on your credit history, withdraw or change Services or place limits or conditions on the use of our Services. You agree to provide us updated credit information upon request. We may provide your payment history and other account billing/charge information to any credit reporting agency or industry clearinghouse.

Account Spending Limits (“ASL”)

An ASL is a temporary or permanent limit (typically based on credit history, payment history, or to prevent fraud) that we place on the amount of unpaid charges you can accumulate on your account, regardless of when payment on those charges is due. We reserve the right to determine which charges count toward an ASL. If you have an ASL, we may suspend your Services without prior notice if your account balance reaches the ASL, even if your account is not past due. We may impose or increase an ASL at any time with notice. An ASL is for our benefit only and should not be relied on by you to manage usage.

Deposits & Returning Deposits

We may at any time require a deposit as a guarantee of payment for you to establish or maintain Service (“Deposit”). By providing us a Deposit, you grant us a security interest for all current or future amounts owed to us.

We may change the Deposit at any time with notice. You can't use a Deposit to make or delay payments. The Deposit, the length of time we hold the Deposit, and changes to the Deposit are determined based on your credit history, payment history, and other factors. Unless prohibited by law, we may mix Deposits with our other funds and it won't earn interest, and we reserve the right to return the Deposit as a credit on your invoice at anytime. If your Services are terminated for any reason, we may keep and apply your Deposit to any outstanding charges. We'll send any remaining portion of the Deposit to your last known address within 90 days after your final invoice—if it is returned to us, we will forward it on to the appropriate state authorities to the extent required by law.

Restrictions On Using Services

You can't use our Services: (a) in a way that could cause damage or adversely affect any of our other customers or our reputation, networks,

property, or Services; or (b) in any way prohibited by the terms of our Services, the Agreement, or our Policies. You cannot in any manner resell the Services to another party. For additional restrictions on the use of our Services, see our Acceptable Use Policy and Visitors Agreement, which are available on our website, and the detailed plan or other information on Services that we provide or refer you to during the sales transaction.

Your Device, Number & Email Address

We don't manufacture any Device that we might sell to you or that is associated with our Services, and we aren't responsible for any defects, acts, or omissions of the manufacturer.

The only warranties on your Device are the limited warranties given to you by the manufacturer directly or that we pass through. Device performance may vary based on device specifications (for example, a device's software, memory, and storage), and device performance

may impact access to all of our Services. Your Device is designed to be activated on our networks and in other coverage areas that we may make available to you. As programmed, it will not accept wireless service from another carrier. Except for any legal right you may have to port/transfer your phone number to another carrier, you have no—and cannot gain any (for example, through publication, use, etc.)—proprietary, ownership, or other rights to any phone number, identification number, email address, or other identifier that we assign to you, your Device, or your account. We'll notify you if we decide to change or reassign them. Your CDMA PCS phone may have software programming lock that protects certain of the handset's operating parameters against unauthorized reprogramming. If your device has a software programming lock, and you wish to obtain the software program lock code for your CDMA PCS phone, please visit [.com](http://www.att.com) or call

1-888-211-4727 for information and eligibility requirements.

Porting/Transferring Phone Numbers

We don't guarantee that number transfers to or from us will be successful. If you authorize another carrier to transfer a number away from us, then that is considered a request by you to us to terminate all of the Services associated with that number. **You're responsible for all charges billed or incurred prior to deactivation and for any applicable Early Termination Fees.**

Coverage; Where Your Device Will Work; Service Speeds

Our coverage maps are available at our authorized retail locations and on [.com](http://www.att.com). The specific network coverage you get will depend on the radio transmissions your Device can pick up and Services you've chosen. **Our coverage maps provide high level estimates of**

our coverage areas when using Services outdoors under optimal conditions. Coverage isn't available everywhere. Coverage and Service speeds are not guaranteed. Coverage is subject to change without notice. Service speeds may depend on the Service purchased. Actual speeds will vary. Estimating wireless coverage, signal strength, and Service speed is not an exact science. There are gaps in coverage within our estimated coverage areas that-along with other factors both within and beyond our control (for example, network problems, network or Internet congestion, software, signal strength, your Device, structures, buildings, weather, geography, topography, server speeds of the websites you access, actions of third parties, etc.)-may result in dropped and blocked connections, slower Service speeds, or otherwise impact the quality of Service. Services that rely on location information, such as E911 and GPS navigation, depend on your Device's ability to acquire satellite signals (typically not available indoors) and network coverage. While your Device

is receiving a software update, you may be unable to use your Device in any manner until the software update is complete.

Roaming

The term "roaming" typically refers to coverage on another carrier's network that we may make available to you based on our agreements with other carriers. These agreements may change from time to time, and roaming coverage is subject to change without notice. Your ability to receive roaming coverage depends on the radio transmissions your Device can pick up and the availability of roaming coverage. We make no guarantee that roaming coverage will be available. Roaming coverage may exist both within and outside our network coverage areas. Your Device will generally indicate when you're roaming. Depending on your Services, separate charges or limits on the amount of minutes used while roaming may apply. Certain Services may not be available or work the same when

roaming (for example, data Services, voicemail, call waiting, etc.). For information on whether roaming applies, see your service plan details.

About Data Services & Content

Our data Services and your Device may allow you to access the Internet, text, pictures, video, games, graphics, music, email, applications, sound, and other materials (“Data Content”) or send Data Content elsewhere. Some Data Content is available from us or our vendors, while other Data Content can be accessed from others (for example, third party websites, games, ringers, applications, etc.). We make absolutely no guarantees about the Data Content that you access on your Device. **Data Content may be:** **(1) unsuitable for children/minors; (2) unreliable or inaccurate; or (3) offensive, indecent, or objectionable.** You’re solely responsible for evaluating the Data Content accessed by you or anyone through your Services. We strongly recommend that you monitor data usage by

children/minors. Data Content from third parties may also harm your Device or its software. We are not responsible for any Data Content. We are not responsible for any damage caused by any Data Content that you access through your Services, that you load on your Device, or that you request that our representatives access or load on your Device. To protect our networks and Services or for other reasons, we may place restrictions on accessing certain Data Content (such as certain websites, applications, etc.); impose separate charges; limit throughput or the amount of data that you can transfer; or otherwise limit or terminate Services. If we provide you storage for Data Content that you have purchased, then we may delete the Data Content without notice or place restrictions/limits on the use of storage areas. Data Content stored on a Device, transmitted over our networks, or stored by may be deleted, modified, or damaged. You may not be able to make or receive voice calls while using data Services. Data Content

provided by our vendors or third parties is subject to cancellation or termination at any time without notice to you, and you may not receive a refund for any unused portion of the Data Content.

Specific Terms & Restrictions On Using Data Services

In addition to the rules for using all of our other Services, unless we identify the Service or Device that you have selected as specifically intended for that purpose (for example, wireless routers, Data Link, etc.), you can't use our data Services: (1) with server devices or host computer applications or other systems that drive continuous, heavy traffic or data sessions; (2) as a substitute or backup for private lines or frame relay connections; or (3) for any other unintended use as we determine in our sole discretion. We reserve the right to limit, suspend, or constrain any heavy, continuous data usage that adversely impacts our networks' performance or hinders access to our networks.

If your Services include Web or data access, you also can't use your Device as a modem for computers or other equipment, unless we identify the Service or Device you have selected as specifically intended for that purpose (for example, with "phone as modem" plans, Mobile Broadband card plans, wireless router plans, etc.).

Software License

If _____ provides you software as part of the Service and there are not software license terms provided with the software (by _____ or by a third party), then _____ grants you a limited, revocable, non-exclusive, non-transferable license to use the software to access the Services for your own individual use. You will not sell, resell, transfer, copy, translate, publish, create derivative works of, make any commercial use of, modify, reverse engineer, decompile, or disassemble the software. _____ may revoke this license at any time.

Fees, Activation & Miscellaneous Charges

Based on our Policies, we may charge activation, prepayment, reactivation, program, or other fees to establish, change, or maintain Services. Certain transactions may also be subject to a charge (for example, convenience payment, changing phone numbers, handset upgrades, etc.). You will be provided notice of these types of fees before we complete the requested transaction.

Account & Service Charges

You are responsible for all charges associated with your account and the Services on your account, no matter who adds or uses the Services. Charges include, but are not limited to, the monthly recurring charges, usage charges, charges for additional services, taxes, surcharges, and fees associated with your Services. These charges are described or referred to during the sales transaction, in our marketing materials, and

in confirmation materials that we may send to you. Depending on your Services, charges for additional services may include operator and directory assistance, voicemail, call forwarding, data calls, texts, and Web access. If you (the account holder) allow end users to access or use your Devices, you authorize end users to access, download, and use Services. You may have the opportunity to purchase Services on a subscription basis where we assess subscription charges that allow you access to the Services and/or provide you a certain amount of use of the Services for a defined period of time. Depending on your Service, certain types of subscription charges may be assessed automatically upon activation and automatically assessed for subsequent subscription periods. Subscription Services offered on a recurring basis do not end until terminated by you or us. Subscription charges for recurring Services occur at the beginning of each bill cycle. Information regarding your bill cycle for subscription Services

will be provided when you order the Services. For Services offered on a per-day basis, you will generally be charged for use before or at the time of use. In certain instances, we may charge you at some point after you use the Services. Unless otherwise disclosed, Services offered on a per-day basis end 24 hours after Service is initiated.

How We Calculate Your Charges For Billing Purposes

Regular Voice Calls: We round up partial minutes of use to the next full minute. Time starts when you press “Talk” or your Device connects to the network and stops when you press “End” or the network connection otherwise breaks. You’re charged for all calls that connect, even to answering machines, voicemail, or voice transcription services. You won’t be charged for unanswered calls or if you get a busy signal. For incoming calls answered, you’re charged from the time shortly before the Device starts ringing

until you press “End” or the network connection otherwise breaks. If charges vary depending on the time of day that you place or receive calls (for example, Nights and Weekend plans), you’re charged for the entire call based on the rate that applies to the time period in which the call starts. Call time for a single call may be subject to a maximum duration and may be automatically terminated if the maximum duration is exceeded. Rates that vary based on the time of access will be determined based on the location of the network equipment providing service and not the location of your Device or your Device’s area code (if applicable).

Push-to-Talk Charges: Charges for push-to-talk calls are billed to the person who starts the call and calculated by multiplying the duration of the call by the applicable rate and number of participants. You’re charged at least 6 seconds of airtime for each call you start; subsequent communications in the same call are rounded

up to and billed to the next second. Time begins when you press any button to start a push-to-talk call and ends approximately 6 seconds after completion of a communication to which no participant responds. Subsequent push-to-talk communications are considered new calls. Charges apply for the entire period of time the push-to-talk call is connected to our network. Depending on your plan, nationwide, international, or group push-to-talk calls may use the local push-to-talk minutes in your plan and result in additional or different charges. Responses to call alert transmissions are treated as new push-to-talk transmissions even when responding within 6 seconds of receiving the alert. Push-to-talk billing methods are subject to change as we introduce new push-to-talk Services.

Data Usage: Unless we specifically tell you otherwise, data usage is measured in bytes, kilobytes, megabytes, and gigabytes—not in

minutes/time. 1024 bytes equals 1 kilobyte (“KB”), 1024 KB equals 1 megabyte, and 1024 megabytes equals 1 gigabyte. Bytes are rounded up to KB, so you will be charged at least 1 KB for each data usage session (“data session”). Rounding occurs at the end of each data session, and sometimes during a data session. Depending on your data Services, usage may be charged against an allowance or on a fixed price per KB, and you may be subject to limitations on the amount of data usage. If you are charged on a fixed price per KB, any fractional cents will be rounded up to the next cent. You are charged for all data directed to your Device’s Internet address, including data sessions you did not initiate and for incomplete transfers. As long as your Device is connected to our data networks, you may incur data charges. Examples of data for which you will be charged includes the size of a requested file or Data Content (game, ringer, etc.); Web page graphics (logos, pictures, banners, advertisement, etc.); additional data used in accessing, transporting,

and routing the file on our network; data from partial or interrupted downloads; re-sent data; and data associated with unsuccessful attempts to reach websites or use applications. These data charges are in addition to any charges for the Data Content itself (game, ringer, etc.). Data used and charged to you will vary widely, even between identical actions or data sessions.

Estimates of data usage—for example, the size of downloadable files—are not reliable predictors of actual usage. Your bill won't separately list the number of KB attributed to a specific action/data session.

Your Bill

Your bill provides you notice of your charges. It reflects monthly recurring charges (usually billed one bill cycle in advance), fees, taxes, Surcharges, product and equipment charges, subscription charges, and usage/transaction specific charges (usually billed in the bill cycle in which they're incurred). Some usage charges, such as those

that depend on usage information from a third party, may be billed in subsequent bill cycles and result in higher than expected charges for that month. Bill cycles and dates may change from time to time. **Your bill may also include other important notices (for example, changes to your Agreement, to your Service, legal notices, etc.).** Your paper bill may not include itemized billing detail. More specific billing information is available online. Paper bills may be subject to an additional charge. Unless prohibited by law, other charges (for example, data Services or taxes and surcharges) will not include itemized detail but will be listed as total charges for a category. If you choose Internet billing, you will not receive paper bills.

Your Payments; Late Fees

Payment is due in full as stated on your bill. If we do not receive payment in full by the date specified on your bill, a late payment charge, which may be charged at the highest rate

permissible by law, may be applied to the total unpaid balance. We may also charge you any costs we pay to a collection agency to collect unpaid balances from you. If we bill you for amounts on behalf of a third party, payments received are first applied to our charges. You may be charged additional fees for certain methods of payment. We may charge you, up to the highest amount permitted by law, for returned checks or other payments paid by you and denied for any reason by a financial institution. Acceptance of payments (even if marked "paid in full") does not waive our right to collect all amounts that you owe us. We may restrict your payment methods to cashier's check, money order, or other similar secure form of payment at any time for good reason.

Taxes & Government Fees

You agree to pay all federal, state, and local taxes, fees, and other assessments that we're required by law to collect and remit to the government

on the Services that we provide to you. These charges may change from time to time without advance notice. If you're claiming any tax exemption, you must provide us with a valid exemption certificate. Tax exemptions generally won't be applied retroactively.

Surcharges

You agree to pay all surcharges ("Surcharges"), which may include, but are not limited to: Federal Universal Service; Regulatory and Administrative charges; gross receipts charges, and other charges. **Surcharges are not taxes, and we are not required by law to assess them. They are part of our rates we choose, at our discretion, to collect from you, to recover certain costs and are kept by us. The number and type of Surcharges will be provided on your invoice and may vary depending upon the location of the billing address of the Device and can change over time. We determine the amount for these charges, and these amounts are subject to change, as are**

the components used to calculate these amounts. We will provide you notice of any changes to Surcharges in a manner consistent with this Agreement (see “Providing Notice To Each Other Under The Agreement” section). However, because some Surcharges are based on amounts set by the government or based on government formulas, it will not always be possible to provide advance notice of new Surcharges or changes in the amount of existing Surcharges. Information on Surcharges is provided during the sales transaction and is available on our website.

Disputing Charges - You Must Still Pay Undisputed Charges

Any dispute to a charge on your bill must be made within 60 days of the date of the bill that initially contained the charge. Disputes can only be made by calling or writing us as directed on your invoice or elsewhere. You accept all charges not properly

disputed within the above time period—undisputed charges must still be paid as stated on your bill.

Protecting Our Network & Services

We can take any action to: (1) protect our networks, our rights and interests, or the rights of others; or (2) optimize or improve the overall use of our networks and Services. Some of these actions may interrupt or prevent legitimate communications and usage—for example, message filtering/blocking software to prevent spam or viruses; limiting throughput; limiting access to certain websites, applications, or other Data Content; prohibitions on unintended uses (for example, use as a dedicated line, or use as a monitoring service), etc. For additional information on what we do to protect our customers, networks, Services, and equipment, see our Acceptable Use Policy and Visitors Agreement at our website.

Your Privacy

Our Privacy Policy is available on our website. To review the policy, visit .com/legal/privacy.html. This policy may change from time to time, so review it with regularity and care.

Call Monitoring: To ensure the quality of our Services and for other lawful purposes, we may monitor or record calls you make to us or we make to you (for example, your conversations with our customer service or sales departments).

Authentication and Contact: You (the account holder) may password protect your account information by establishing a personal identification number (“PIN”). You may also set a backup security question and answer in the event you forget your PIN. You agree to protect your PIN, passwords, and other account access credentials like your backup security question from loss or disclosure. You further agree that we may, in our sole discretion, treat any person who presents your credentials that we deem sufficient

for account access as you or an authorized user on the account for disclosure of information or changes in Service. You agree that we may contact you for Service-related reasons through the contact information that you provide, through the Services or Devices to which you subscribe, or through other available means, including text message, email, fax, recorded message, mobile, residential or business phone, or mail.

CPNI: As we provide telecommunications products and Services to you (the account holder), we develop information about the quantity, technical configuration, type, location, and destination of telecommunications products and Services you use, as well as some other information found on your bill (“CPNI”). Under federal law, you have the right and we have a duty to protect the confidentiality of your CPNI. For example, we implement safeguards that are designed to protect your CPNI, including authentication procedures when you contact

us. For some accounts with a dedicated representative, we may rely on contacting your pre-established point of contact as the standard authentication measure.

Third-Party Applications: If you use a third-party application, the application may access, collect, use, or disclose your personal information or require _____ to disclose your information—including location information (when applicable)—to the application provider or some other third party. If you access, use, or authorize third-party applications through the Services, you agree and authorize _____ to provide information related to your use of the Services or the application(s). You understand that your use of third-party applications is subject to the third party's terms and conditions and policies, including its privacy policy. Be sure that you have reviewed and are comfortable with the third party's policies before using its application on your device.

Information on Devices: Your Device may contain sensitive or personal information (for example, pictures, videos, passwords, or stored credit card numbers). _____ is not responsible for any information on your Device, including sensitive or personal information. If possible, you should remove or otherwise safeguard any sensitive or personal information when your Device is out of your possession or control, for example when you relinquish, exchange, return, or recycle your Device. By submitting your Device to us, you agree that our employees, contractors, or vendors may access all of the information on your Device. If you exchange, return, or recycle your Device through us, we typically attempt to erase all data on your Device, but you must remove all data from your Device before you provide it to us.

Location-Enabled Services

Our networks generally know the location of your Device when it is outdoors and/or turned on. By using various technologies to locate your

Device, we can provide enhanced emergency 911 services and optional location-enabled services provided by us or a third party. Network coverage or environmental factors (such as structures, buildings, weather, geography, landscape, and topography) can significantly impact the ability to access your Device's location information and use of location-enabled services.

You agree that any authorized user may access, use, or authorize [REDACTED] or third-party location-enabled applications through the Services. You understand that your use of such location-enabled applications is subject to the application's terms and conditions and policies, including its privacy policy. If you activate location-enabled services for devices used by other authorized users, you agree to inform the authorized user(s) of the terms of use for location-enabled applications and that the Device may be located.

911 Or Other Emergency Calls

Public safety officials advise that when making 911 or other emergency calls, you should always be prepared to provide your location information.

Unlike traditional wireline phones, depending on a number of factors (for example, whether your Device is GPS-enabled, where you are, whether local emergency service providers have upgraded their equipment, etc.), 911 operators may not know your phone number, your location, or the location of your Device. In certain circumstances, an emergency call may be routed to a state patrol dispatcher or alternative location set by local emergency service providers. Enhanced 911 service ("E911")—where enabled by local emergency authorities—uses GPS technology to provide location information. Even when available, however, E911 does not always provide accurate location information. If your Device is indoors or for some other reason cannot acquire a satellite signal, you may not be

located. Some Devices have a safety feature that prevents use of the keypad after dialing 911—you should follow voice prompts when interacting with emergency service providers employing interactive voice response systems to screen calls.

If Your Device Is Lost or Stolen

Call us immediately if your Device is lost or stolen because you may be responsible for usage charges before you notify us of the alleged loss or theft. A lost or stolen Device does not reduce or remove your Term Commitment. You will remain liable for any monthly recurring charges associated with the Service on your Device after you notify us of the alleged loss or theft. You agree to cooperate if we choose to investigate the matter (provide facts, sworn statements, etc.). We may not waive any applicable Early Termination Fees if you choose to terminate Services as a result of loss or theft of your Device.

Disclaimer of Warranties

UNLESS EXPRESSLY PROVIDED IN WRITING OTHERWISE, WE MAKE NO REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED, INCLUDING (TO THE EXTENT ALLOWED BY LAW) ANY IMPLIED WARRANTY OF MERCHANTABILITY, NON-INFRINGEMENT, OR FITNESS FOR A PARTICULAR PURPOSE CONCERNING YOUR SERVICES (INCLUDING YOUR DEVICE AND ANY SOFTWARE OR APPLICATIONS ON YOUR DEVICE). WE DON'T PROMISE UNINTERRUPTED OR ERROR-FREE SERVICES AND DON'T AUTHORIZE ANYONE TO MAKE WARRANTIES ON OUR BEHALF. PROVIDES ALL SOFTWARE AND APPLICATIONS ON AN "AS IS" BASIS WITH ALL FAULTS, ERRORS, AND DEFECTS.

You Agree That We Are Not Responsible For Certain Problems

You agree that neither we nor our parent, subsidiary, or affiliate companies, nor our

vendors, suppliers, or licensors are responsible for any damages, delay, interruption or other failure to perform resulting from: (a) anything done or not done by someone else; (b) providing or failing to provide Services, including, but not limited to, deficiencies or problems with a Device or network coverage (for example, dropped, blocked, interrupted Services, etc.); (c) traffic or other accidents, or any health-related claims relating to our Services; (d) Data Content or information accessed while using our Services; (e) an interruption or failure in accessing or attempting to access emergency services from a Device, including through 911, Enhanced 911 or otherwise; (f) interrupted, failed, or inaccurate location information services; (g) information or communication that is blocked by a spam filter; (h) damage to your Device or any computer or equipment connected to your Device, or damage to or loss of any information stored on your Device, computer, equipment, or storage space from your use of the Services or

from viruses, worms, or downloads of malicious content, materials, data, text, images, video, or audio; or (i) things beyond our control, including acts of God (for example, weather-related phenomena, fire, earthquake, hurricane, etc.), riot, strike, war, terrorism, or government orders or acts. You should implement appropriate safeguards to secure your Device, computer, or equipment and to back up your information stored on each.

You Agree That Our Liability Is Limited - No Consequential Damages

TO THE EXTENT ALLOWED BY LAW, OUR LIABILITY FOR MONETARY DAMAGES FOR ANY CLAIMS THAT YOU MAY HAVE AGAINST US IS LIMITED TO NO MORE THAN THE PROPORTIONATE AMOUNT OF THE SERVICE CHARGES ATTRIBUTABLE TO THE AFFECTED PERIOD. UNDER NO CIRCUMSTANCES ARE WE LIABLE FOR ANY INCIDENTAL, CONSEQUENTIAL, PUNITIVE,

MULTIPLE, OR SPECIAL DAMAGES OF ANY NATURE WHATSOEVER ARISING OUT OF OR RELATED TO PROVIDING OR FAILING TO PROVIDE SERVICES IN CONNECTION WITH A DEVICE, INCLUDING, BUT NOT LIMITED TO, LOST PROFITS, LOSS OF BUSINESS, OR COST OF REPLACEMENT PRODUCTS AND SERVICES.

DISPUTE RESOLUTION AND ARBITRATION

PLEASE READ THIS CAREFULLY; IT AFFECTS YOUR RIGHTS

In those rare instances where your concern is not resolved to your satisfaction through calls to our customer care, you and [REDACTED] each agree to try to resolve those disputes in good faith after you provide written notice of the dispute as set forth below. If the dispute is not resolved, you and [REDACTED] agree that the dispute

will be resolved through individual binding arbitration or small claims court, instead of courts of general jurisdiction.

Mandatory Arbitration and Waiver of Class Action

Instead of suing in court, you and [REDACTED] agree to arbitrate all Disputes (as defined below) on an individual, non-representative, basis. You agree that, by entering into this Agreement, you and [REDACTED] are waiving the right to a trial by jury or to participate in a class action or representative action. This agreement to arbitrate is intended to be broadly interpreted.

In arbitration, there is no judge or jury. Instead Disputes are decided by a neutral third-party arbitrator in a more informal process than in court. In arbitration, there is limited discovery and the arbitrator's decision is subject to limited review by courts. However, just as a court would, the arbitrator must honor

the terms of the Agreement and can award damages and relief, including any attorneys' fees authorized by law.

"Disputes" shall include, but are not limited to, any claims or controversies against each other related in any way to or arising out of in any way our Services or the Agreement, including, but not limited to, coverage, Devices, billing services and practices, policies, contract practices (including enforceability), service claims, privacy, or advertising, even if the claim arises after Services have terminated. Disputes also include, but are not limited to, claims that: (a) you or an authorized or unauthorized user of the Services or Devices bring against our employees, agents, affiliates, or other representatives; (b) you bring against a third party, such as a retailer or equipment manufacturer, that are based on, relate to, or arise out of in any way our Services or the Agreement; or (c) that brings against

you. Disputes also include, but are not limited to, (i) claims in any way related to or arising out of any aspect of the relationship between you and , whether based in contract, tort, statute, fraud, misrepresentation, advertising claims or any other legal theory; (ii) claims that arose before this Agreement or out of a prior Agreement with (iii) claims that are subject to on-going litigation where you are not a party or class member; and/or (iv) claims that arise after the termination of this Agreement.

Dispute Notice and Dispute Resolution Period

Before initiating an arbitration or a small claims matter, you and each agree to first provide to the other a written notice ("Notice of Dispute"), which shall contain: (a) a written description of the problem and relevant documents and supporting information; and (b) a statement of the specific relief

sought. A Notice of Dispute to _____ should be sent to: *General Counsel; Arbitration Office; 12502 Sunrise Valley Drive, Mailstop VARESA0202-2C682; Reston, Virginia 20191.*

_____ will provide a Notice of Dispute to you in accordance with the “Providing Notice To Each Other Under The Agreement” section of this Agreement. _____ will assign a representative to work with you and try to resolve your Dispute to your satisfaction. You and agree to make attempts to resolve the Dispute prior to commencing an arbitration or small claims action. If an agreement cannot be reached within forty-five (45) days of receipt of the Notice of Dispute, you or _____ may commence an arbitration proceeding or small claims action.

Arbitration Terms, Process, Rules and Procedures

(1) Unless you and _____ agree otherwise, the arbitration will be conducted by a single,

neutral arbitrator and will take place in the county of the last billing address of the Service. The arbitration will be governed by either: (a) rules that we mutually agree upon; or (b) the JAMS Comprehensive Arbitration Rules & Procedures (the “JAMS Rules”), as modified by this agreement to arbitrate, including the rules about the filing, administration, discovery and arbitrator fees. The JAMS rules are available on its website at jamsadr.com. Notwithstanding any JAMS Rule to the contrary or any other provision in arbitration rules chosen, by agreement, to govern the arbitration, we each agree that all issues regarding the Dispute are delegated to the arbitrator to decide, except that only a court (and not the arbitrator) shall decide any disagreements regarding the scope and enforceability of this agreement to arbitrate.

(2) The Federal Arbitration Act (“FAA”) applies to this Agreement and arbitration provision. We

each agree that the FAA's provisions—not state law—govern all questions of whether a Dispute is subject to arbitration. To the extent that this agreement to arbitrate conflicts with the JAMS Policy on Consumer Arbitrations Pursuant to Pre-Dispute Clauses Minimum Standards for Procedural Fairness (the “Minimum Standards”), the Minimum Standards in that regard will apply. However, nothing in this paragraph will require or allow you or to arbitrate on a class-wide, representative or consolidated basis.

(3) The arbitrator may award declaratory or injunctive relief only in favor of the individual party seeking relief and only to the extent necessary to provide relief warranted by that party's individual claim. **YOU AND AGREE THAT EACH MAY BRING CLAIMS AGAINST THE OTHER ONLY IN AN INDIVIDUAL CAPACITY, AND NOT AS A CLASS MEMBER IN ANY PUTATIVE CLASS OR REPRESENTATIVE**

PROCEEDING. Further, unless both you and expressly agree otherwise, the arbitrator may not consolidate more than one person's claims, and may not otherwise preside over any form of a representative or class proceeding. If any portion of this provision is found to be unenforceable, then the entirety of this arbitration provision shall be null and void.

(4) We each are responsible for our respective costs, including our respective counsel, experts, and witnesses. : will pay for any filing or case management fees associated with the arbitration and the professional fees for the arbitrator's services.

(5) An arbitrator's award will be a written statement of the disposition of each claim and will also provide a concise written statement of the essential findings and conclusions which form the basis of the award. The arbitrator's decision and award is final and binding, with some limited court review under the FAA, and

judgment on the award may be entered in any court with jurisdiction.

(6) As an alternative to arbitration, we may resolve Disputes in small claims court in the county of your most recent billing address. In addition, this arbitration agreement does not prevent you from bringing your Dispute to the attention of any federal, state, or local government agency. Such agencies can, if the law allows, seek relief against [REDACTED] on your behalf.

No Trial By Jury and No Class Action

IF FOR ANY REASON A CLAIM ARISING OUT OF OR RELATING TO THIS AGREEMENT IN ANY WAY PROCEEDS IN COURT RATHER THAN IN ARBITRATION, REGARDLESS OF WHETHER THE CLAIM IS AN ACTION, COUNTERCLAIM OR ANY OTHER COURT PROCEEDING, WE EACH AGREE THAT TO THE EXTENT ALLOWED BY LAW, THERE WILL NOT BE A JURY TRIAL OR CLASS ACTION

AND WE EACH UNCONDITIONALLY (1) WAIVE ANY RIGHT TO TRIAL BY JURY AND (2) WAIVE ANY RIGHT TO PURSUE DISPUTES ON A CLASSWIDE BASIS, INCLUDING JOINING A CLAIM WITH THE CLAIM OF ANY OTHER PERSON OR ENTITY OR ASSERT A CLAIM IN A REPRESENTATIVE CAPACITY ON BEHALF OF ANYONE ELSE IN ANY OTHER PROCEEDING.

Indemnification

You agree to indemnify, defend, and hold and our subsidiaries, affiliates, parent companies, vendors, suppliers, and licensors harmless from any claims arising out of or relating to your actions, including, but not limited to, your use of the Service and any information you submit, post, transmit, or make available via the Service; failing to provide appropriate notices regarding location-enabled services (see “Location-Enabled Services” section); failure to safeguard your passwords, backup question to your shared secret question, or other account information; or

violating this Agreement or any policy referenced in this Agreement, any applicable law or regulation, or the rights of any third party.

Providing Notice To Each Other Under The Agreement

Except as the Agreement specifically provides otherwise, you must provide us notice by calling or writing us as instructed on your invoice. We will provide you notice through one or more of the following: in your bill, correspondence to your last known billing address, to any fax number or email address you've provided us, by calling you on your Device or any other phone number you've provided us, by voice message on your Device or any other phone number you've provided us, or by text message on your Device.

Contacting You Regarding Billing and Collections

You expressly authorize, and specifically consent to allowing _____ and any of _____ agents to contact you in connection with any and all matters relating to unpaid past due charges you owe _____. You agree that, for attempts to collect unpaid past due charges, _____ and any of its agents may contact you at any mailing address, telephone number, cellular phone number, email address, or any other electronic address that you have provided, or may in the future provide, to

You agree and acknowledge that any email address or any other electronic address that you provide to _____ is your private address and is not accessible to unauthorized third parties. For attempts to collect unpaid charges, you agree that in addition to individual persons attempting to communicate directly with you, any type of contact described above may be made using, among other methods, pre-recorded or artificial

voice messages delivered by an automatic telephone dialing system, pre-set email messages delivered by an automatic emailing system, or any other pre-set electronic messages delivered by any other automatic electronic messaging system.

Other Important Terms

Subject to federal law or unless the Agreement specifically provides otherwise, this Agreement is governed solely by the laws of the state encompassing the billing address of the Device, without regard to the conflicts of law rules of that state. If either of us waives or doesn't enforce a requirement under this Agreement in an instance, we don't waive our right to later enforce that requirement. Except as the Agreement specifically provides otherwise, if any part of the Agreement is held invalid or unenforceable, the rest of this Agreement remains in full force and effect. This Agreement isn't for the benefit of any third party except our corporate parents,

affiliates, subsidiaries, agents, and predecessors and successors in interest. You can't assign the Agreement or any of your rights or duties under it, unless we agree to the assignment. We can assign the Agreement without notice. You cannot in any manner resell the Services to another party. The Agreement and the documents it incorporates make up the entire agreement between us and replaces all prior written or spoken agreements—you can't rely on any contradictory documents or statements by sales or service representatives. The rights, obligations, and commitments in the Agreement that—by their nature—would logically continue beyond the termination of Services (for example, those relating to billing, payment, 911, dispute resolution, no class action, no jury trial) survive termination of Services.

[End General Terms and Conditions of Service]
